STATE OF NEW YORK
EXECUTIVE CHAMBER
ALBANY 12224

MARIO M. CUOMO
GOVERNOR

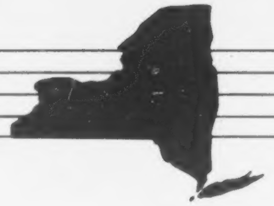
It is with pride that I present the 1983 edition of the New York State Statistical Yearbook.

The Yearbook has established a reputation as an invaluable source of reference, not only in our State, but throughout the country. I have confidence that this edition, like its predecessors, will offer pertinent and concise data concerning the State's economy, demography, and overall characteristics.

I urge anyone in the government, business, education, or private sector to refer to this Yearbook and discover the richness and diversity of the State of New York.

Mario M. Cuomo

August, 1983



Introduction

In the pages that follow, New Yorkers will find the only currently available portrait of their collective social, economic, cultural, and physical health. This *Yearbook* has been prepared, after a lapse of considerable time, to provide the factual data on which judgments may be made regarding the futures implicit in these statistics — judgments to be made by public officials, scholars and citizens alike. ***The New York State Statistical Yearbook***, then, is not simply a gesture to analysis, but a necessary tool for democratic discussion and decisions.

Nearly sixty public organizations — agencies, departments, commissions and authorities — participated in this venture to revive the ***Statistical Yearbook***. The objective was to provide a convenient reference source, a guide to additional information about New York State, and a method to facilitate direct contact with State government officials responsible for the assembled statistics.

This edition includes significantly more data than any previous volume. In addition, the data are drawn from many more sources than in the past, and considerable effort has been spent to use maps and graphics presentation to highlight and clarify statistical tables. Beginning with the next edition of the ***Yearbook***, this expanded approach will include interpretive essays by State University of New York faculty discussing the critical trends found in the data.

Statistics in this edition generally represent the most recent year or period available from the State agencies, as of July, 1983. While many charts and tables have been added, several tables included in previous editions have been omitted from this issue. The omissions represent areas for which data are no longer available, or where it was deemed desirable to rearrange, redesign or combine material in an effort to improve the organization and presentation of the subject matter.

To achieve a uniform approach to the statistical tables, certain standardized abbreviations have been used throughout. These abbreviations, together with an explanation of the Standard Metropolitan Statistical Areas (SMSA's) cited in many of the tables, are explained on the following pages.

In many cases, the State agencies that provide the data appearing in this book also publish their own Annual Reports and other material describing their operations and programs. Many of these publications are listed in Section 2 of the Appendix. In addition, footnotes which accompany the tables will often direct the user to still other sources of information.

The agencies themselves are solely responsible for the contents of the tables. Therefore, if the reader wishes additional detail or clarification of what may appear to be inconsistent or disparate data or, if there is a plan to republish statistics or use them in further analysis or decision-making, the reader is urged to contact the agencies directly. Agency contacts and telephone numbers are included in Section 2 of the Appendix.

Finally, The Rockefeller Institute of Government would like to thank the many agencies which have contributed to the *Yearbook*, and in particular, those individuals who served the *Yearbook* through participation on the Yearbook Advisory Committee. Special gratitude must be expressed to the Department of Commerce's New York State Data Center for invaluable assistance in providing Census and other data from Federal sources.

The Rockefeller Institute was established by the State University of New York to facilitate SUNY's contribution to improved public life in the State. Along with the Institute's other programs, the *Statistical Yearbook* has such improvement as its primary objective.

As a necessary tool for democratic discussion and decisions, the *Yearbook* must be responsive to the needs of the citizens of New York. Suggestions for improvement of future editions should be sent to:

Definitions and Abbreviations

The ***Standard Metropolitan Statistical Area*** is a statistical construct devised to provide a common basis for the collection and presentation of statistics in areas of major population concentration.

A ***Standard Metropolitan Statistical Area*** always includes a city (cities) of specified population which constitutes the central city and the county (counties) in which it is located. An SMSA also includes contiguous counties when the economic and social relationships between the central and contiguous counties meet specified criteria of metropolitan character and integration. An SMSA may cross State lines. In New England, SMSA's are composed of cities and towns instead of counties.

The SMSA's in this book are defined either as they were constituted in 1963 if any data in the tables are for 1963 or later; as constituted in 1971 if any data in the tables are for 1971 or later; or as constituted in 1973 if any data in the tables are for 1973 or later. In most cases, data for earlier years have been appropriately adjusted to conform with the definition used. The reader is advised to be aware that in some instances the figures do not exactly coincide with the definitions due to the availibility of data. Footnotes which accompany such tables clarify the definitions used. The SMSA definitions for New York State are as follows:

SMSA	1963	1971	1973
Albany-Schenectady-Troy	Albany, Rensselaer, Saratoga and Schenectady counties	Same as in 1963	Albany, Montgomery Rensselaer, Saratoga and Schenectady counties
Binghamton	Broome, Tioga and Susquehanna (Pa.) counties	Same as in 1963	Same as in 1963
Buffalo	Erie and Niagara counties	Same as in 1963	Same as in 1963
Elmira		Chemung County	Same as in 1971
Nassau-Suffolk			Nassau and Suffolk counties
New York, N.Y.-New Jersey (Name change effective with 1973 definitions)	New York City and Nassau, Rockland, Suffolk and Westchester counties	Same as in 1963	New York City, Putnam, Rockland, Westchester and Bergen (N.J.) counties
Poughkeepsie		Dutchess County	Same as in 1971
Rochester	Monroe, Orleans, Livingston and Wayne counties	Same as in 1963	Monroe, Ontario, Orleans, Livingston and Wayne counties
Syracuse	Madison, Onondaga and Oswego counties	Same as in 1963	Same as in 1963
Utica-Rome	Herkimer and Oneida counties	Same as in 1963	Same as in 1963

NOTE: As a result of the 1980 Census of Population, two additional areas now qualify as SMSA's:

Glens Falls	Warren and Washington Counties
Newburgh-Middletown	Orange County

In this volume, the new SMSA's are reflected only in Tables A-7, A-9, and F-6.

Tri-State Metropolitan Area is a special interstate construct which includes portions of New York, Connecticut and New Jersey. The New York State counties which are included are Bronx, Kings, New York, Queens, Richmond, Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, and Westchester. New Jersey counties included in the area are Bergen, Essex, Hudson, Middlesex, Monmouth, Morris, Passaic, Somerset, and Union. The Connecticut portion of the area includes the townships of Central Naugatuck, Greater Bridgeport, Housatonic Valley, South Central, South Western, and Valley.

The standard abbreviations used throughout the ***Yearbook*** are as follows:

(X) = not applicable
NA = not available
D = data withheld to avoid disclosure
Z = item rounds to less than .05% of units used

Unless otherwise specified in a table, "year" refers to a calendar year.

Section A Population and Vital Statistics

- A-1 Population, USA and Individual States: 1982
- A-2 Population, NYS as Percentage of USA, and Comparison of Median Age: 1930-1982
- A-3 Population, NYS by County: 1910-1980
- A-4 Population, Rank, Density and Land Area, NYS by County: 1970 and 1980
- A-5 Older (60+) Population, NYS by County: 1980
- A-6 Population, Total and Nonwhite, NYS by County: 1960,1970 and 1980
- A-7 Population, Total and Nonwhite, NYS by SMSA: 1970 and 1980
- A-8 Population, Intercensal Estimates, NYS by County: Selected Years, 1970-1980
- A-9 Population, Intercensal Estimates, NYS by SMSA: Selected Years, 1970-1980
- A-10 Population, Intercensal Estimates, Tri-State Metropolitan Area, by State and County: Selected Years 1970-1980
- A-11 Population Projections, NYS by County: Selected Years, 1980-2010
- A-12 Older (60+) Population Projections by Age Group, NYS by County: 1980,1985 and 1990
- A-13 Marriages and Dissolutions of Marriage, Number and Rate, NYS, NYC and Rest of State: 1968-1981
- A-14 Marriages, by Age of Bride and Groom, Excluding NYC: 1981
- A-15 Live Births, Deaths and Marriages, Number and Rate, NYS: 1946-1981
- A-16 Live Births, Deaths and Marriages, Number and Rate, NYS by County: 1981
- A-17 Live Births, NYS by County and Mother's Age: 1981
- A-18 Live Births, Tri-State Metropolitan Area, by State and County: Selected Years, 1970-1981
- A-19 Infant Mortality Rates, Tri-State Metropolitan Area, by State and County: Selected Years, 1970-1981
- A-20 Induced Terminations of Pregnancy, by Residence of Patient, NYS, NYC, Rest of State and Out-of-State: 1971-1981
- A-21 Induced Terminations of Pregnancy by Age, NYS: 1977-1981
- A-22 Induced Terminations of Pregnancy by Age, NYS by County: 1981
- A-23 Deaths, by Age and Leading Cause, Total and Nonwhite Population, NYS: 1981
- A-24 Deaths, Tri-State Metropolitan Area, by State and County: Selected Years, 1970-1981
- A-25 Deaths and Death Rates from Selected Causes, NYS: 1981
- A-26 Deaths From Accidents, by Type of Accident and Place of Occurrence, NYS: 1946-1981
- A-27 Deaths From Cardiovascular Disease, NYS: 1961-1981
- A-28 Deaths From Malignant Neoplasms, NYS: 1961-1981
- A-29 Cancer Deaths by Sex, Site and Age, NYS: Annual Average, 1976-1980
- A-30 Selected Reportable Diseases, NYS: Selected Years, 1910-1982
- A-31 Selected Reportable Diseases, NYS by County: 1982
- A-32 Cancer Cases by Sex, Site and Age, NYS: Annual Average, 1976-1979
- A-33 Cancer Cases by Sex and Site, NYS: 1976-1979
- A-34 Selected Housing Characteristics, NYS by County: 1980
- A-35 Housing Stock, Tri-State Metropolitan Area, by State and County: Selected Years, 1970-1981
- A-36 Housing Stock in the Nine Largest Cities, Tri-State Metropolitan Area: Selected Years, 1970-1981
- A-37 Households, Persons in Group Quarters, Families and Married Couples, NYS by County: 1980
- A-38 Older (65+) Householders by Type of Household, NYS by County: 1980

Note: The data for New York City and its five counties are as their boundaries were constituted in 1960, but for the other counties they are as constituted at the time of each census. The principal boundary changes since 1900 include an exchange of territory between Hamilton and Essex in 1915; annexation of part of Queens by Nassau in 1922; and an exchange between Queens and Nassau in 1945.

(a) Sixth revision (1949-1957), seventh revision (1958-1968) and eighth revision (1969-1975) of the International Classification of Diseases.

[1] Includes arteriosclerotic heart disease, including coronary disease; other myocardial degeneration; hypertension with heart disease; chronic rheumatic heart disease, and other diseases of the heart.

[2] Includes general arteriosclerosis.

[3] Includes hypertension without mention of heart disease and diseases of veins and other diseases of circulatory system. Beginning with 1968, chronic and unqualified nephritis and nephrosis are included.

[4] Per 100,000 population.

- Represents zero.

NA Not Available.

[1] Neisseria meningitides only.

[2] Syphilis figures include all stages of disease.

[3] Tuberculosis figures prior to 1975 included only new active cases.

a Starting with 1975 reactivated cases are also counted.

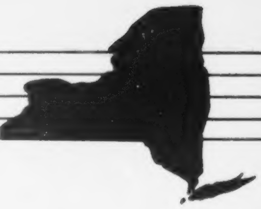
Glossary A

Households Households include all persons who occupy a given housing unit, that is, a house, an apartment or other group of rooms, or a room that constitutes separate living quarters.

Group Quarters Persons in group quarters include all those not in households, that is, institutional inmates and persons living in lodging houses, barracks, dormitories, convents, ships, etc.

Families Families are two or more persons related by blood, marriage or adoption, and who are residing together.



Section B

Health and Human Services

Hospital Data and Admissions, Discharges, Average Length of Stay, Total Patient Days

Most Common Diagnoses and Surgical Procedures

Psychiatric Centers: Residents, Admissions, Length of Stay, Trends

Non-Resident Mental Health Programs

Alcoholism Treatment Programs

Drug Treatment Programs

Mental Retardation/ Developmental Disabilities

Public Assistance Expenditures

Public Assistance Recipients

Foster Care and Adoptions

1981	N.A.	24,832	N.A.	-2.7
1982	N.A.	23,942	N.A.	-3.6

[1] U.S. data include county mental hospitals for states in which such facilities are comparable to state hospitals. Source: National Institute of Mental Health.

[2] N.Y. State Psychiatric Centers include adult centers and units and alcoholism units. Comparable data for the distinct units are not available for periods prior to 1972. Also includes narcotics units, which reached a peak of 400 resident patients in 1965 and declined thereafter, with the last unit closing in 1977.

NA Not available.

TABLE B-9

Net Change in Census and Movements, in New York State Adult Psychiatric Centers 1977-1982

	Census		Additions		Removals			
Year Ended March 31	Resident Patients March 31	Net Change in Census	Admissions	Transfers In and Returns from CC,FC,LWOC[1]	Discharges	Transfers Out and Placements on CC, FC, LWOC[1]	Deaths	Net Live Additions[2]
1977	27,719	-2,293	26,660	10,090	23,266	13,518	2,259	-34
1978	25,960	-1,759	24,075	9,930	20,822	12,970	1,972	+213
1979	24,961	-999	23,277	9,661	19,724	12,430	1,783	+784
1980	23,618	-1,343	22,897	10,246	19,910	12,862	1,714	+371
1981	22,886	-732	23,666	7,431	20,338	9,849	1,642	+910
1982	22,615	-271	24,516	7,954	20,892	10,482	1,367	+1,096

[1] CC is convalescent care; FC is family care; and LWOC is leave without consent.

[2] Net live additions are all additions minus all removals except deaths.

TABLE B-10

Adult Psychiatric Center Populations, Characteristics by Length of Stay Group New York State — 1982

	Length-of-Stay Group		
Resident Population Category	Group I Less Than 3 Months	Group II 3 Mos. to Less Than 5 Years	Group III 5 Years and Over
Census, 3/31/82	2,846	6,335	13,434
Percent of total adult center census	12.6	28.0	59.4
Change in census since 3/31/81 - Number	+140	+296	-759
-Percent	+5.2	+4.9	-5.3
Percent males	57.6	52.6	44.2
Percent aged[1]: 18-44	67.1	47.3	11.6
45-64	22.2	26.1	26.6
65 and over	9.8	26.6	61.8
Entering Length-of-Stay Group during year[2]	24,516	5,787	563
Turnover (% of average census in group)	802.0	92.8	4.1
Percent aged[1]: 18-44	72.2	62.0	30.7
45-64	20.3	23.5	28.6
65 and over	6.3	13.7	40.7
Net Releases during year	16,801	4,032	447
Rate (% of average census in group)	604.3	64.6	3.2
Deaths during year	115	354	898
Rate (% of average census in group)	4.1	5.7	6.5

[1] Percents may add to slightly less than 100.0. Percents for the very small numbers less than 18 years of age are not shown.

[2] Entering Group I = admissions; entering Group II = patients remaining 3 months or more after admission; entering Group III = patients remaining 5 years or more.

- Represents zero.

[1] Survey conducted during various one week periods at each institution operated, certified, or funded by the New York State Office of Mental Health.

[2] The number of individuals seen for "All Programs" is an unduplicated count. Consequently, the sum of the program types would equal a larger number because of individuals seen in more than one program type.

[3] Since days and visits are dissimilar measures no total units of service are shown.

[4] Includes patients whose residence is outside New York State.

[1] The provision of alcoholism services by the State operated Alcoholism Treatment Centers and local alcoholism programs certified, certifiable and/or funded by the New York State Division of Alcoholism and Alcohol Abuse.

[2] The reported admissions do not represent an unduplicated count of individuals admitted to alcoholism treatment programs. Units of Service include the provision of one or more units of service to each individual admitted to an alcoholism treatment program.

[3] Residential Treatment Programs include Detoxification Programs, Inpatient Rehabilitation Programs, and Community Residences. A dash (-) denotes there is no certifiable alcoholism residential treatment programs in the county.

[4] Non-residential Treatment Programs include Clinics, Comprehensive Alcoholism Outpatient Centers, Counseling Programs, Day Rehabilitation Programs, Day Activity Programs and Sobering-up Programs. A dash (-) denotes there is no certifiable alcoholism non-residential treatment program in the county. In certain counties, outpatient mental health programs provide alcoholism treatment services.

[5] I/R is the abbreviation for Information and Referral. An I/R contact is each incident of provision of face to face information, counseling or referral to an individual or family group. A dash (-) denotes there is no informational and referral program in the county.

[6] EAP is the abbreviation for Employee Assistance Program. An EAP contact is each incident of provision of an information, assessment, counseling, referral or follow-up service to a problem drinking employee, drug abusing employee, behavioral/medical troubled employee, or other type of troubled employee or alleged troubled employee and each incident of consultation, advice or assistance to a troubled employee's supervisor, or family member. A dash (-) denotes there is no Employee Assistance Program in the county.

---

[1] Includes all individuals served in state operated non-residential programs including Day Treatment, Sheltered Workshops, other day programs, clinics, Education and Case Management services. These programs provide a range of services, but with the exception of Day Treatment, are not usually certified. Many of these individuals are also enrolled in programs operated by local agencies serving the developmentally disabled.

- Represents zero.

[1] Some program expenditures appear in New York State column only; consequently the sum of New York City and Rest of State do not yield the State total shown.

[2] Excludes expenditures of $142,437, $99,941 and $42,496 for AFDC-Foster Care for New York State, New York City and Rest of State respectively. These expenditures are consolidated with Services Foster Care.

[3] Federal, State and Local shares for Services are based on expenditures as claimed. Due to Title XX federal funding limitations, State and Local Districts actually assume a greater share of expenditures than claims would indicate.

[4] Services Administration figures exclude Direct Services by local district staff. Direct Services expenditures have been calculated from information contained on financial schedules submitted by local districts, and included in appropriate Services categories.

[5] Includes AFDC-Foster Care for 9 months. Effective October 1982 this portion of the AFDC program has been transferred to Title IV-E.

Glossary B

Certified Schools for the Mentally Retarded Any residential facility or institution certified by the New York State Office of Mental Retardation and Developmental Disabilities and providing a program of 24 hour-a-day professional evaluation, care, and treatment for mentally retarded or other developmentally disabled persons.

Classroom Education A program of special education services, (excluding those which are provided by local education agencies) including diagnosis and/or rehabilitation services, for mentally retarded and developmentally disabled between the ages of 5 and 21.

Clinic Treatment A planned combination of client specific diagnosis and/or treatment service provided during day and/or evening hours to mentally retarded and developmentally disabled persons who are served as needed for short periods of actual service involvement. A clinic visit will last no longer than three hours and may be held in a clinic or other specified location. The programs are provided by or under the supervision of a qualified professional.

Community-Based ECF/DD A facility of 15 beds or more operated by or certified by the Office of Mental Retardation and Developmental Disabilities and providing active programming, room and board, and continuous 24 hour-a-day supervision.

Community Residence (CR) Facility operated by or certified by the Office of Mental Retardation and Developmental Disabilities which provides a homelike environment with room, board and responsible supervision.

Community Residence ICF/DD Facility operated by or certified by the Office of Mental Retardation and Developmental Disabilities, having a capacity of 14 clients or less, which provides active programming, room and board, and continuous 24 hour-a-day supervision.

Collateral- A member of client's family or substitute family. This includes close friends or associates substantially concerned with the client's welfare but excludes staff of other agencies such as social workers, and school teachers.

Day Training A planned combination of services provided to clients whose disability is not so severe as to require day treatment services but whose functional behavior deficits limit their ability to function independently. The goal is to provide training that will assist developmentally disabled persons in the acquisition of knowledge and skills that will enable them to improve their personal, social, and vocational skills and their ability to function independently.

Day Treatment A planned combination of diagnostic, treatment, and rehabilitative service provided to mentally retarded and developmentally disabled individuals in need of a broader range of services than those provided in clinic treatment programs. Persons provided day treatment will attend regularly for periods in excess of three hours.

Developmental Center A school for the care and treatment of the mentally retarded and developmentally disabled as designated in Article 13.17 of the Mental Hygiene Law which is operated by the Office of Mental Retardation and Developmental Disabilities and certified as an intermediate care facility.

Family Care A program using certified Family Care Homes to provide care for clients who do not require residential care and treatment in a Developmental Center but who are unable to function adequately in their own homes or in completely independent living in the community.

Preschool Program which provides service to developmentally disabled individuals under the age of five to prepare them for acceptance into the school program operated by the public schools.

Sheltered Workshop (includes certified work activity) A program certified by the U.S. Department of Labor which provides services and experience to clients with the goal of increasing their economic independence. Work activity programs tend to emphasize prevocational skills to prepare the individual to function in a sheltered workshop. The sheltered work program objective is preparation for competitive employment if the potential exists, or long term employment within the sheltered workshop if the competitive employment is not feasible.

[1] The local units charged with the administration of public schools in New York State may be placed in three categories:

i. The 'common school district' dates from 1812 and is limited to providing education through the eighth grade. The district was originally set up in 1812 to render 'common schooling' or the three R's. The district was and for the most part has continued to be small in area. Some common districts have consolidated but continue to function as common school districts. The district is governed by a sole trustee or a board of three trustees.

ii. All 'city school districts' of cities of population under 125,000 have fiscally independent city school districts. Such city school district is governed by a board of five, or seven, or nine members usually elected although some are appointed. The Big Five cities (over 125,000) have coterminous and fiscally dependent city school districts.

iii. The 'union free district', unlike the common district, may provide high school services, when granted a charter by the Board of Regents, although some union free districts provide elementary school services only and in that regard function quite like common districts. Central school districts and central high school districts, while organized under special provisions of the law, function thereafter as union free districts and may, therefore, properly be put in the category of union free districts. When a union free or central district employs its own superintendent of schools, it is called an independent village superintendency district. Its operation thereby is not changed materially.

[2] The supervisory district serves in an intermediate position; that is, between the State and the local district. The geographical extent of the supervisory district is determined by a grouping of towns. The administrative officer of the supervisory district is the district superintendent whose qualifications by law must be the same as those of the city and village superintendents. He serves as both a local officer and a State officer.

[3] Includes city central school districts including New York City.

[4] Includes village central school districts.

[5] BOCES (Boards of Cooperative Educational Services) are service organizations created by law to do for a district that which it cannot do by or for itself because of size, financial burden, etc. BOCES are not included in the 'Total Districts' column because they function as providers of services to regional groups of school districts.

Note: In order to maintain confidentiality of respondents, the Census Bureau suppresses tabulations of characteristics for small groups of people or housing units. These cells will appear as dashes (-). It is necessary to check the sum of characteristics against the total to determine if suppression has occurred or if the cell is a valid zero.

Total State					
Full-time	613,046	615,271	628,530	637,232	636,620
Part-time	381,532	336,552	344,958	353,049	351,460
Total	994,578	951,823	973,488	990,281	988,080

Note: Degree-credit enrollment refers to students enrolled in courses which carry credit toward a certificate or associate, bachelor's or higher degree. An associate degree is granted upon completion of an educational program of less than four years of college work, generally for the completion of the curriculum of a junior college.

[a] Opening Fall Enrollment data subject to slight revision.

(X) Not applicable.

[1] Only General Fund expenses are reported in this Table, as Federal Aid Fund espenses are not reported for the same categories. See Table C-36 for total expenditure figures. The General Fund is the main fund of the school district and includes all operations not provided for in a special purpose fund. Special purpose funds include the following: Trust and Agency Fund; School Store Fund; School Lunch Fund; Federal Aid Fund, and Capital Fund. The Federal Aid Fund is used to account for special projects or programs supported in whole or in part with Federal funds.

[2] Includes employee benefits, insurance, and rental fees.

[3] Includes Board of Education Central Administration, Community Services, Transportation, Non-Budgetary Expenses, Undistributed Expenses and Interfund Transfers. Since 1965, also includes fixed charges.

1974[a]	2,066.65	1,165.00	9.59	1[illegible]2	190.03	528.11
1975[a]	2,326.72	1,296.06	14.29	212.91	208.79	594.66
1976[a]	2,426.50	1,324.88	14.40	214.87	216.07	656.28
1977[a]	2,604.54	1,394.38	16.09	224.78	269.64	699.65
1978[a]	2,852.94	1,540.24	30.02	250.96	260.61	771.11
1979[a]	3,069.48	1,648.26	33.94	267.75	247.65	871.88
1980[a]	3,393.37	1,831.96	27.45	319.34	237.35	977.27
1981[a]	3,742.07	2,022.89	25.08	359.68	239.35	1,095.07

Note: Average daily attendance is the average number of pupils present on each regular school day in elementary and secondary grades during a given period. The average is determined by dividing the total number of attendance days of all pupils by the number of days school was in session.

(a) Expenditures per pupil are reported for General Fund only. Federal Aid Fund expenditures are not distributed according to the categories in the column headings. Expenditures from the Federal Aid Fund increase the total per pupil expenditures by the following amounts: 1966: $16.98; 1967: $48.88; 1968: $49.99; 1969: $49.39; 1970: $54.99; 1971: $70.57; 1972: 75.40; 1973: $87.34; 1974: $98.55; 1975: $106.33; 1976: $103.02; 1977: $105.04; 1978: $122.29; 1979: $144.79; 1980: $176.93; 1981: $171.78.

NA Not available

[1] Public libraries are other than professional, technical or school libraries, and are established for free public pruposes by official action of a city, county, village, town or school district, or by the Legislature, and are wholly owned and operated by the public. A free association library is a quasi-public corporation providing library service to a community.

[2] Branch libraries are not included from 1951 to 1966.

[3] None officially recorded until 1950.

TABLE D-10

Unemployment Insurance Benefits under Regular State Unemployment Program by Industry of Chargeable Employers
1981

Industry	Amount[1] (thousands)	Percent
All industries	$ 977,088	100.0
Manufacturing	309,764	31.7
Durable goods	111,689	11.4
Metals and machinery (including instruments and photographic goods)	93,757	9.6
Other durable goods	17,932	1.8
Nondurable goods	198,075	20.3
Apparel	91,567	9.4
Other nondurable goods	106,508	10.9
Contract construction	112,317	11.5
Transportation and public utilities	46,214	4.7
Wholesale and retail trade	191,955	19.6
Finance, insurance, and real estate	37,452	3.9
Services	193,309	19.8
All others	86,077	8.8

[1] Benefits for "all industries" are those certified for payment; the distribution by industry is based on the distribution of beneficiaries by industry.

Note: Figures are based on the 12 month average of persons receiving benefits during the week following the midweek of the month.

- Represents zero.

[1] Regular program only.

[2] Persons reported unknown by sex are included in the data for men.

SOURCE: New York State Department of Labor.

TABLE D-13

Exhaustions of Benefit Rights by Claimants under Regular State Employment Insurance Program by Selected Labor Areas 1981-1980[1]

Area[2]	1980	1981
New York State[3]	220,000	193,099
New York Combined Areas[4]	130,745	114,710
New York City	101,831	88,012
Nassau-Suffolk	21,863	20,095
Westchester[4]	5,493	5,094
Rockland	1,558	1,509
Major Upstate Areas:		
Albany-Schenectady-Troy	7,207	6,871
Binghamton	1,833	1,670
Buffalo	24,137	18,965
Elmira	1,471	1,085
Poughkeepsie[5]	1,306	1,581
Rochester	9,105	7,282
Syracuse	8,133	5,695
Utica-Rome	3,551	3,840
Out-of-State	7,208	7,631

[1] Persons exhaust benefit rights when they receive the maximum of benefits (26 full-week payments) in a benefit year under the regular state unemployment insurance program. Figures exclude exhaustions under the federal programs, as follows:

	1980	1981
Unemployment Compensation for Federal Employees (UCFE)	1,417	2,985
Unemployment Compensation for Ex-servicemen (UCX)	2,507	2,294

[2] Definition of Area is as follows:

Area	Counties
New York Combined Areas	
New York City	Bronx, Kings, New York, Queens, Richmond
Nassau-Suffolk	Nassau, Suffolk
Westchester	Westchester
Rockland	Rockland
Putnam	Putnam
Major Upstate Areas	
Albany-Schenectady-Troy	Albany, Montgomery, Rensselaer, Saratoga, Schenectady
Binghamton	Broome, Tioga
Buffalo	Erie, Niagara
Elmira	Chemung
Poughkeepsie	Dutchess
Rochester	Livingston, Monroe, Ontario, Orleans, Wayne
Syracuse	Madison, Onondaga, Oswego

[3] Includes figures for areas not listed above, not shown separately.

[4] Includes figures for Putnam County residents who claimed benefits in local unemployment insurance offices located in Westchester County, not shown separately.

[5] Includes figures for Putnam County residents who claimed benefits in local offices located in the area, not shown separately.

TABLE D-15

The Ten Largest Industrial and Commercial Employers [1] in New York State[2] 1983

Firm	Location of Principal Place of Business in New York State
The Chase Manhattan Corporation	New York City
Chemical Bank	New York City
Citicorp	New York City
Eastman Kodak Company	Rochester
General Electric Company	Schenectady
General Motors Corporation	New York City[3]
Grumman Corporation	Bethpage
International Business Machines Corporation	Armonk[3]
Manufacturers Hanover Trust Co.	New York City
Xerox Corporation	Rochester

[1] Not including public utilities.

[2] As of March 1981, each firm had 16,000 or more employees within the State.

[3] Office only. Other major facilities elsewhere in the State.

SOURCE: New York State Department of Commerce.

TABLE D-16

Full-Time Equivalent Number of Employees in Institutions of Higher Education by Sex, Occupational Activity and Sector New York State 1981-82

	Public	Independent	Proprietary	Total State
Occupational Activity	Full-Time Equivalent	Full-Time Equivalent	Full-Time Equivalent	Full-Time Equivalent
Executive, Administrative, Managerial				
Men	1,833.9	4,331.4	84.2	6,249.5

(a) Reflects transfer of local government courts to State government as of April 1, 1977.

[1] Federal employment includes only full- and part-time civilian employees of the Federal government.

[2] Represents an annual average of the number of checks issued regardless of funding source to individuals in: State departments and agencies; Legislature; Judiciary; public authorities; and miscellaneous boards and commissions as of the pay period including the 12th of the month.

[3] Local employment includes full- and part-time employees of counties, cities, villages and towns engaged in educational or non-educational functions. Also included are 'active enrollees' in the CETA and Neighborhood Youth Corps Program sponsored by local government agencies.

Note: Nonfarm employment estimates include all nonfarm wage and salary workers who received pay for any part of the pay period including the 12th of the month. Persons on paid sick leave, paid holiday or paid vacation are included, but those on leave without pay for the entire payroll period are excluded. Persons on the payroll of more than one establishment during the period are counted each time reported. Self-employed persons, unpaid family workers, and domestics are excluded. Data based on 1982 benchmark.

[1] Nonagricultural establishments include all employing units except commercial and noncommercial farms, international government and private households.

[2] A manufacturing industry is an aggregation of establishments producing a single product or a closely related group of products. An establishment which manufactures more than one product is classified by its most important product.

TABLE D-23 (Continued)

Earnings and Hours for Production Workers[1] and Other Nonsupervisory Personnel in Nonagricultural Establishments[2], by Industry New York State — 1977 and 1982

Note: Data based on 1982 benchmark.

NA No comparable data available.

[1] Production workers, include working foremen and all non-supervisory workers engaged in processing, assembling, inspecting, receiving, packing, shipping, janitorial and watchman services, product development auxiliary production, recordkeeping and other services closely associated with the above production operations. Supervisory employees (above the working foremen level) and their clerical staffs, routemen and salesmen are excluded.

[2] Nonagricultural establishments include all employing units except commercial and noncommercial farms, international government and private households.

[3] A manufacturing industry is an aggregation of establishments producing a single product or a closely related group of products. An establishment which manufactures more than one product is classified by its most important product.

[4] Average weekly earnings equal the average hours multiplied by the average hourly earnings. Weekly earnings are affected not only by changes in average hourly earnings, but also by changes in the length of the average work week, part-time work, stoppages for various reasons, labor turnover, absenteeism and overtime.

[5] Average weekly hours are the average number of hours for which pay was received. Absenteeism, labor turnover, part-time work, and stoppages cause average weekly hours to be lower than scheduled hours of work for an establishment. Overtime, of course, tends to increase the figures.

[6] Average hourly earnings are obtained by dividing payrolls by the total number of hours worked These averages are influenced by the level of, and changes in, basic hourly and incentive rates, as well as such variable factors as amount of overtime and late-shift woand changes in the pay for overtime and late-shift work and changes in the output of workers on incentive plans. Payroll figures do not include such labor costs to the employer as irregr bonuses and retroactive pay. Average hourly earnings should not be confused with wage rates.

Note: Data based on 1982 benchmark.

[1] Average Earnings for manufacturing cover production and related workers only. For the remaining industries, averages cover all nonsupervisory employees and working supervisors unless otherwise specified.

[2] Production workers include working foremen and all nonsupervisory workers (including leadmen and trainees) engaged in fabricating, processing, assembling, inspection, receiving, storage, handling, packing, warehousing, shipping, maintenance, repair, janitorial and watchman services, product development auxiliary productions for plant's own use (e.g., power plant), and in recordkeeping and other services closely associated with the above production operations. Excludes supervisory employees (above the working foremen level) and their clerical staffs, routemen, salesmen and force-account construction workers.

[3] Average weekly earnings are derived by multiplying average weekly hours by average hourly earnings. Includes premium wages for overtime and nightshift work and payments made on piecework or incentive basis. The averages are affected by changes in length of work week, part-time work, stoppages for varying causes, labor turnover, and absenteeism.

[4] Average weekly hours: (see average earnings above for description of workers covered). The averages represent total number of hours worked (including overtime) or paid for (including paid holiday, vacation, and sick leave hours) during week, divided by number of employees. The averages are affected by amount of labor turnover during week, changes in amount of overtime hours, and by changes in ratio of full-time or part-time employment.

[5] Average hourly earnings represent payrolls divided by total number of hours worked or paid for (including paid holiday, vacation, and sick leave hours) during period reported. Total payroll includes both straight-time and premium pay. The averages are influenced by the amount of premium pay, as well as by changes in composition of labor force, changes in wage rates, upgrading of employees, etc., and consequently should not be interpreted as wage rates.

NA Not available.

[1] The scales represent the minimum wage rates (excluding holiday and vacation payments regularly made or credited to the worker each pay period) agreed upon through collective bargaining between employers and trade unions.

[2] Includes asbestos workers, boilermakers, bricklayers, carpenters, electricians, machinists, painters, pipefitters, plumbers, roofers, stonemasons and others.

[3] Includes those helping with the labor associated with journeymen occupations mentioned above.

[4] The averages in the book and job tabulation include rates for the semi-skilled-bindery women and press assistants and feeder -as well as the highly skilled journeymen, composing room and pressroom workers, and others. The number of semi-skilled workers organized in a city may have influence on the average for the city.

[5] Includes employees classified as follows: bindery women, bookbinders, hand compositors, electrotypers, machine operators and tenders, mailers, photoengravers, press assistants and feeders, cylinder pressmen, plate pressmen and stereotypers.

[6] Occupations covered are hand compositors, machine operators and tenders, mailers, photoengravers, web pressmen and stereotypers.

[7] The averages shown for drivers and helpers are based on all scales reported for these workers. Helpers were not reported for all truck classifications, and these averages do not reflect or indicate the scale differential between drivers and helpers in a particular city.

[8] Includes both operators of surface cars and buses and elevated and subway operators.

(a) Shift in weighting of occupations.

Note: Detail may not add to total due to rounding.

[1] The 65 workers in one company who were involved in two settlements in 1981 are counted twice.

[2] Wage-increase settlements that could not be expressed in percent because they were given in cents per hour and base rates were unknown.

[3] Wage data could be expressed in percent for 802 settlements involving 539,455 workers; the 107 wage-increase settlements involving 170,270 workers which could not be expressed in percent were distributed in the same proportion as the known increases to compute the median.

---

[1] All known strikes and lockouts involving six or more workers and lasting at least as long as a full day or shift.

[2] Excludes stoppages continued from previous year. Includes all workers made idle in the plant or establishment in which a work stoppage occured. Not included are workers in other plants of the same or other companies who may be indirectly affected because of failure to get materials from the struck plants.

[3] Days idle are obtained by multiplying the number or workers involved by the number of working days they are idle.

[4] The number of times group action was taken. The individual work stoppage is the unit counted regardless of the number of unions, establishments, or employers jointly involved in the dispute.

(1) Compensated cases closed are cases in which a closing decision has been made by the Board and indemnity benefits awarded. The accident may have occurred in the year of closing or in a previous year.

(2) Includes the estimated present value of future payments in death, permanent total, and non-schedule permanent partial disability cases. Does not include the cost of medical and hospital care.

Note: Details may not add to total due to rounding.

(X) Not applicable.

[1] Initial indemnity benefit claims allowed includes all claims originally allowed during the calendar year, regardless of the date of disability.

[2] Obtained by averaging the number of employees reported on the payroll nearest the 12th of the second month of each quarter.

[3] Statutory coverage provides indemnity benefits only, beginning on the eighth day of disability. Coverage is provided by insurance companies, the State Insurance Fund and self-insurers.

[4] Plan coverage varies widely as to the amount of benefits, waiting period, and number of disability weeks for which benefits are payable. Coverage is provided by insurance companies and self-insurers.

[5] The Special Fund for Disability Benefits provides statutory benefits to eligible unemployed workers for disabilities beginning after the first four weeks of unemployment. The Fund also makes benefit payments to eligible employees of noninsured employers, subsequently securing reimbursement from the employer.

SOURCE: 1980 Census of the Population, United States Bureau of the Census; material compiled by New York State Office for the Aging.

Employed All those who during the week including the 12th of the month, (a) did any work at all as paid employees or in their own business, profession or farm, or who worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family, or (b) did not work but who had jobs or businesses from which they were temporarily absent because of illness, bad weather, vacation, labor-management dispute, or personal reasons, whether or not they were paid by their employers for the time off, and whether or not they were seeking other jobs. Each employed person is counted only once.

Unemployed All those persons who did not work during the week including the 12th of the month, who made specific efforts to find a job within the past 4 weeks, and who were available for work during the week except for temporary illness. Also included as unemployed are those who did not work at all, were available for work, and (a) were waiting to be called back to a job from which they had been laid off, or (b) were waiting to report to a new wage or salary job within 30 days.

Rate of Unemployment The total number of unemployed persons expressed as a percentage of the employed and unemployed, i.e., as a percentage of the civilian labor force.

Average Weekly Earnings The total annual payroll for supervisory as well as nonsupervisory workers divided by the average annual employment (sum of employment counts for each of the 12 months divided by 12) and this result divided by 52.

Employment All private employment covered under the New York State Unemployment Insurance Law. The employment count represents the number of full-time and part-time employees earning wages or salaries for the payroll period including the 12th of the month. Included are persons on paid vacations and on paid sick leave. Workers temporarily earning no wages because of labor-mangement disputes, layoffs, or other reasons are not reported as employed. Persons on the payroll of more than one establishment during the same reference week are reported more than once.

Payrolls All wages and salaries paid to individuals in insured employment during the calendar year.

Personal Income The current income received by persons from all sources minus contributions for social insurance. Not only individuals (including owners of unincorporated enterprises), but nonprofit institutions, private trust funds, and private health and welfare funds are classed as "persons." Personal income includes transfers (payments not resulting from current production) from government and business such as social security benefits, military pensions, etc. but excludes transfers among persons. Although most of the income is in monetary form, there are important non-monetary inclusions—chiefly, estimated net rental value to owner-occupants of their homes, the value of services furnished without payment by financial intermediaries, and the value of food consumed on farms.

There are three basic types of income:

1. Net labor and proprietors' income is the largest type of income in the State. Included are both private and government payments for services, including tips, commissions and payments in kind; supplementary types of labor income such as employer contributions to social-insurance programs, compensation for injuries and pay while on military reserve duty; as well as the net business earnings of owners of unincorporated enterprises, including farms.
2. Property income is comprised of rental income, inputed rent of owner-occupied living quarters (less estimated expenses), income from dividends, interest and royalties.
3. Transfer payments are composed of receipts of persons from government and business (other than government interest) for which no services are rendered currently, such as: social security, unemployment insurance, railroad and public employees' pensions, relief payments, and military pensions.

There are three sources of income:

1. Government—income from governmental wages, salaries, pensions and unemployment benefits.
2. Farm—income of proprietors, tenants and employees from operation of privately owned farms.
3. Private nonfarm—all personal income other than government and farm.

Personal Income Per Capita Total personal income divided by population, including the noninstitutional population and the inmates of institutions, but after the latter have been assigned to their previous counties of residence.

Money Income The amount of income received before deductions for personal income taxes, Social Security, bond purchases, union dues, Medicare deductions, etc. Receipts from the following sources are not included as money income: Money received from the sale of property (unless the recipient was engaged in the business of selling such property, in which case, the net proceeds would be counted as income from self-employment); the value of income "in kind" such as free living quarters or food produced and consumed in the home; withdrawal of bank deposits; money borrowed; tax refunds; exchange of money between relatives living in the same household; and gifts and lump-sum inheritances, insurance payments, and other types of lump-sum receipts.

Current and Constant Dollars Current dollar figures reflect prices prevailing during the specified period. Constant dollar figures are computed values which eliminate the effect of price changes and are derived from prices of a specified base period. The constant dollar values are obtained by dividing current dollar values for a given period by the price indexes for the same period.

NOTE

Revised Procedure for Estimating Total Employment and Unemployment

Employed and Unemployment Employment and unemployment estimates prepared by the New York State Department of Labor are developed under a cooperative Federal-State program administered by the Bureau of Labor Statistics (BLS) of the U.S. Department of Labor. The Current Population Survey (CPS)—the official survey instrument for measuring labor force attachment in the United States—is a monthly survey of about 60,000 households conducted throughout the nation by trained interviewers. Employment and unemployment data for New York State and New York City are based directly on responses of households within the State and City which are represented in the CPS sample.

The size of the CPS sample is not sufficient to provide reliable estimates for labor areas in the "Balance of State" (State less New York City). In these areas, a series of factors are applied to administsrative statistics from State unemployment insurance (UI) operations and to payroll statistics from establishment surveys to provide data on resident employment and unemployment. Data for these labor areas are adjusted so they add to "Balance of State" totals.

These revised procedures, which were put into effect in January 1978, are designed to make the estimates more comparable from state to state and to incorporate more current data in the estimating process.

December	122	96	114	146	109	43	95	276

Note: The Index of Business Activity measures the physical volume of business done in New York State. It is a weighted composite of seven indices, each measuring activity in a sector of the economy. The principal exclusions from the Index are government, domestic service, agriculture and mining. Weights are assigned to each of the seven indices in accordance with the number of employed persons (including self-employed) each in 1967, the base year of the Index. The separate indices for each industry are in most cases similarly weighted composites of sectors.

December	118	175	107	151	123	126	130	107	91	169	138	130	112

Note: The Area Indices of Business Activity are derived from the State Index of Business Activity. In each area, the statewide index for each of seven industrial sectors is adjusted to the area's trend by comparing the industry's growth in employment in the area to that in the State thus estimating an area index for the sectors. These are then combined in a seven-sector total, but only after each sector index is weighted by the base year employment in that industry in the area. This total, the Area Index of Business Activity, is then seasonally adjusted.

[1] New York State less Downstate.

Note: See page 248 for definition of terms.

N A Not available.

(D) Data withheld to avoid disclosure.

[1] Value added figures for 1958 and later differ from earlier years in definition; the early figures are not adjusted for changes in inventory during the year, and they exclude the difference between cost and selling price of goods sold in the same manufacturing stage as when they were purchased.

[2] Excluding Pennsylvania portion.

[3] Excluding New Jersey portion.

Engineering, Architectural, surveying services[13]	26,636	6,834	51,381	(D)	256,084	1,257,518	3,614	30,126	39,507	4,339

Note: The Census of Selected Service Industries does not include the following services: medicine, education, museums, art galleries, nonprofit membership organizations, private households, accounting, government, finance, insurance, real estate, transportation, communication (including radio and television broadcasting) or public utilities.

(D) Data withheld to avoid disclosure.

[1] Separate administrative or auxiliary establishments are not included. Leased service departments in another service or a retail establishment are counted as separate establishments. However, those in retail establishments are also counted as part of the landlord's establishment, and therefore these receipts are included in the totals for both retail and services.

[2] Includes all persons on the payroll that week. The figure may vary considerably from annual averages, particularly in resort areas and in certain industries.

[3] Includes wages, salaries, commissions, bonuses and payments in kind to all employees, including officers of corporations.

[4] Receipts are for establishments open for any part of the year if they are otherwise qualified for inclusion. They do not include income from sources other than customers, such as investment or rent.

[5] Includes establishments renting space and supplying utilities to trailers, and commercially operated sports or recreational camps, as well as the more easily recognized forms of establishments providing temporary lodging.

[6] Includes laundry, linen supply and diaper services, cleaning and dyeing establishments, beauty and barber shops, photographic studios, shoe repair shops, funeral services, coin-operated concessions and others.

[7] These services consist of advertising, credit information and collection, direct mailing, duplicating, blueprinting, stenography, window cleaning, exterminating, building maintenance, news syndicates, private employment agencies, research and testing, management consultation, public relations, equipment rental and others. Accounting and bookkeeping are excluded.

[8] Includes general and specialized automobile repair shops, parking lots and garages, and automobile rental establishments.

[9] These services cover such items as radios, televisions, refrigerators, watches, electrical appliances, furniture, motors, guns, locks, musical instruments, farm machinery, and lawn mowers.

[10] Includes motion picture production, distribution and theaters; dance studios, bands and orchestras; entertainers, theatrical presentations and baseball and football clubs; establishments providing billiards, bowling, horse racing, golf, skating and swimming; amusement parks and rides, carnivals, fairs and tourist attractions; coin-operated amusement devices and boat rentals.

[11] Dental Laboratories make dentures and artificial teeth for the dental profession.

[12] Under legal services are establishments engaged in offering legal advice or services on a fee basis.

[13] Architectural, engineering,and surveying services consist of establishments performing professional services in these fields.

---

[1] Shipments by water, land or air, commercial or governmental, excluding shipments between the United States and Puerto Rico or any United States possession, to United States armed forces or diplomatic missions for their own use (and from them to the United States), in-transit shipments, shipments of vessels under their own power, and shipments of gold in bullion or ore. Exports by mail are not tabulated by customs district and are therefore not in these totals.

[2] Exports are credited to the district of loading for air and water carriers, but to the district from which they cross the border for rail, trucks or pipeline.

[3] Imports are credited to the district in which they clear customs, not necessarily where they cross the border nor their final destination. In air or water carriers, this is the district of unloading. Beginning with March 1974 data, geographic area totals include data on crude petroleum imports.

[4] The New York Customs District includes New York City, Albany, Newark and Perth Amboy as ports of entry. The Canadian Border Districts are the Ogdensburg and Buffalo Customs districts; Ogdensburg includes the former Rochester and St. Lawrence districts.

TABLE E-26

Number of Establishments, Employees, Payroll and Value of Production by Type of Mineral Operation New York State Selected Years 1958-1977

Item	Year	All Operations	Metal Mining	Oil and Gas Extraction	Nonmetallic Minerals Mining excl. Fuels
Number of Establishments	1958	622	12	235	375
	1963	590	8	190	392
	1967 (a)	467	32	136	295
	1972 (a)	461	35	143	281
	1977 (a)	467	34	163	250
Number of Employees (thousand)	1958	10.5	3.3	1.1	6.0
	1963	10.7	3.2	1.0	6.3
	1967 (a)	9.1	2.9	0.8	5.4
	1972 (a)	7.7	2.1	(D)	4.6
	1977 (a)	7.1	2.1	1.3	3.4
Payroll (million)	1958	$60.5	$18.6	$6.0	$35.1
	1963	75.1	23.9	6.9	42.4
	1967 (a)	81.7	27.8	7.7	45.4
	1972 (a)	94.1	27.7	(D)	52.1
	1977 (a)	133.5	44.1	27.1	53.2
Value added in mining (million)	1958	$129.6	$32.6	$7.4	$89.6
	1963	141.8	36.3	9.6	95.9
	1967 (a)	137.5	34.9	10.1	92.5
	1972 (a)	154.3	25.4	(D)	114.9
	1977 (a)	217.8	43.5	40.6	132.1
Value of shipments and receipts (million)	1958	$163.7	$46.6	$8.8	$108.3
	1963	182.4	49.8	11.4	121.3
	1967 (a)	175.5	45.8	11.4	118.3
	1972 (a)	193.1	33.1	(D)	142.3
	1977 (a)	298.1	63.6	59.8	172.9

(D) Data withheld to avoid disclosure.

(a) The years 1967, 1972 and 1977 are not comparable with preceeding years because they cover mineral industries only and do not include operations in manufactures. Data for single unit establishments without paid employees were excluded from the 1967, 1972 and 1977 censuses.

TABLE E-27

Quantity and Value of Non-Fuel Mineral Production[1] by Kind of Mineral New York State 1979 and 1980

Mineral	Measure	1979		1980	
		Quantity	Value (thousands)	Quantity	Value (thousands)
New York State		(X)	$453,710	(X)	$415,958
Clays[2]	thousand short tons	836	3,027	NA	2,182
Gem Stones		NA	20	NA	15
Lead (recoverable content of ores, etc.)	short tons	458	532	1,090	741
Peat	thousand short tons	38	630	38	850
Salt	thousand short tons	6,387	77,751	5,928	73,852
Sand and Gravel	thousand short tons	26,242	55,889	30,000	60,000
Silver (recoverable content of ores, etc.)	thousand troy ounces	11	117	21	113
Stone	thousand short tons	36,928	114,928	31,223	86,420
Zinc (recoverable content of ores, etc.)	short tons	12,133	9,977	29,400	18,228
All Other[3]		(X)	190,779	(X)	173,557

(X) Not applicable.

NA Not available.

[1] Production as measured by mine shipments, sales, or marketable product (including consumption by producers).

[2] Excludes ball clay which is included with All Other.

[3] Contains value of items that cannot be disclosed: abrasive garnet, emery, gypsum, cement, clay (ball), iron ore, lime, mercury, talc, titanium concentrate (ilmenite), wollastonite.

SOURCE: United States Bureau of Mines; material compiled by New York State Education Department, Geological Survey.

TABLE E-28

Number of Establishments, Employees, Payroll and Mineral Value for Mining Operations[1] in Selected Counties New York State — 1977

County	Number of Establishments	All Employees		Value added in mining (million)	Value of Shipments and Receipts (millions)
		Number (thousands)	Payroll (million)		
New York State	467	7.1	$133.5	$217.8	$298.1
Allegany	43	0.1	2.1	10.7	11.8
Cattaraugus	40	0.2	3.5	14.8	16.8
Chautauqua	25	0.2	3.9	13.0	18.3
Dutchess	14	0.2	3.0	7.3	10.2
Erie	25	0.2	3.9	1.9	12.4
Monroe	19	0.2	2.7	6.2	8.5
New York	80	2.0	54.1	12.2	15.2
Onondaga	10	0.3	4.8	7.4	11.1
St. Lawrence	10	1.1	18.0	32.8	49.0
Suffolk	26	0.1	1.9	6.2	8.2
Ulster	10	0.1	1.7	4.4	6.3

[1] Excludes figures for operations in manufactures.

Note: The value of construction contracts includes both the value of actual contracts awarded and the value of certain commitments to build not covered by contract, as in residential developments. The dates of actual construction are subsequent to the contract dates.

[1] Factories, stores, office buildings, banks, schools, service stations, prisons, churches, warehouses, hospitals, airport buildings and similar structures.

[2] One-and-two-family houses, apartment buildings, hotels, motels, and dormitories.

[3] Streets and highways, bridges, sewers, water supply systems, airports (but not airport buildings) and electric light and power systems.

Note: Data include both residential and nonresidential buildings, but not the value of the land used. Also excluded is the value of nonbuilding construction such as streets and highways. New York City data vary in definition: from 1950 through 1958 the data are based on inspection records and represent work actually started: beginning with 1959, the data represent authorizations to build.

- Represents zero.

NA Not available.

[1] Based on building permits issued.

Glossary E

Manufacturing

Manufacturing as a concept has been revised several times since 1899. The principal revisions, aside from the broad expansion of items made in factories, were the exclusion of railroad repair shops and manufactured gas in 1935 and thereafter, and the inclusion of dairies beginning in 1954. The minimum size for inclusion of a manufacturing establishment in the periodic census was $500 in value of shipments for the early years through 1917, then $5,000 or more for 1921 through 1939, and one employee or more from 1947 on. These differences affected the number of establishments, but were of negligible importance for the other statistics. Central administrative offices and auxiliaries (shipping, packing, etc.) are included in the employee, payroll and capital expenditure figures for 1954 and later years.

Number of Establishments The total number of locations at which each company has plants, counting each distinctly different line of activity at each location separately, insofar as company records permit.

Production Workers. Includes workers through the foreman level who make, inspect, store and ship the firm's products, or maintain the plant.

(Continued on following page.)

Nonproduction Workers Supervisors above the working foreman level, salesmen, and advertising, delivery, service, credit, cafeteria, professional, technical and administrative workers, and also construction workers on the factory payroll.

Total Employment The sum (excepting persons on pension or military leave) of the number of nonproduction workers receiving pay in the midweek of March and of the average of the production workers in the midweek in each of March, May, August and November. This current formula has varied in earlier years: in 1949-1954, it was the average in the four months for both kinds of workers; in 1947, it was the 12-month average for both kinds of workers; and in 1939 and earlier, it was a one-month average (usually October) for the nonproduction workers, and the 12-month averages for production workers.

Total Payroll The gross earnings paid to all employed during the year, including commissions, bonuses and vacation pay.

Man-hours The total of all hours put in during 1977 by production workers, including overtime, but excluding vacation, holiday or sick-leave hours.

Wages Per Hour Derived by dividing the total wages of production workers by man-hours.

Value Added by Manufacture The total value of any manufacturing plant's shipments, and other receipts, less the cost of materials, supplies, fuel, purchased electric energy and contract work, adjusted for changes in inventory during the year.

New Capital Expenditures Those expenditures made for additions, alterations or new plants, or for new machinery (whether for replacement or new capacity), but do not include rental charges for loft buildings or other leased plant space or for equipment. The figures for 1954 do not include expenditures for plants under construction that year, but not yet in operation. These are included in the subsequent years.

Wholesale Trade

Wholesale Trade has been redefined several times since the first census of wholesale business of 1929, but the statistics have been revised to provide comparability from 1929 to 1948 (unrevised) except where footnoted. Subsequent changes are the exclusion of wholesale milk bottlers in 1948 (revised) and later years, and the exclusion of ready-mix concrete distributors beginning 1958. Wholesale trade has now been divided into two major groups: (1) durable goods and (2) nondurable goods. The types of wholesale trade are: merchant wholesalers (defined below); manufacturers' sales branches and sales offices—establishments, separated from plants or mines maintained by manufacturing, refining and mining companies for marketing their products wholesale; merchandise agents and brokers—establishments whose operators are in business for themselves and are primarily engaged in selling or buying goods for others.

Number of Establishments The number of locations (including each location of multi-unit companies) of wholesale firms in business at the end of the year. Separate administrative offices, warehouses and other auxiliary establishments are not included for any year. Only establishments with at least one employee are included for 1954 through 1963, and for the revised 1948 data. In the unrevised 1948 data, as well as those for 1929 and 1939, all establishments in operation at the end of the year are included, except those which operated the entire year and had sales of less than $5,000 in 1948 and $1,000 or $500 in 1939. (Source materials differ as to the 1939 figures.)

Total Sales The total (less discounts and refunds) of the value of goods sold, all payments received for services, and excise taxes collected by wholesalers in business during any part of the year, whether or not payment was made during that year.

Merchant Wholesalers Distributors, jobbers, terminal grain elevators, exporters and importers, and others who buy and sell merchandise on their own account, except farm products bought directly from farmers or bulk petroleum or gas.

Payroll Includes salaries, wages, commissions, bonuses and vacation allowances.

Employees (week ended nearest November 15, or week including March 12) are all those on the payroll for that week, including salaried officers of corporations.

Wholesale-Retail Ratio Computed by dividing the total sales of merchant wholesalers by retail sales and multiplying the result by 100. A comparatively high ratio identifies a wholesale center, supplying retailers and industrial firms in a wider area than the local community.

Retail Trade

Retail Trade Places selling directly to personal and household users, but not industrial users. From 1929 to 1948, dairies selling by home delivery were included, but not in 1954 and later. Musical instrument stores and record shops were reclassified in 1958 into "Furniture, home furnishings and equipment" and out of "other retail stores." Antique stores were reclassified in reversed fashion. There were significant reclassification changes in the building materials, hardware and farm equipment dealers group into wholesale trade.

Establishments Places open at the end of the year. Leased departments are counted as part of their landlord's establishment except in 1954. Each store of a chain is a separate establishment, but separate administrative offices or warehouses are not included. The minimum size of establishment, included in 1948 (revised) had $2,500 in sales or one employee. The minimum size in 1948 was $500 in sales and $100 in 1939.

Retail Trade Sales Include excise and sales taxes in 1954 through 1963, but not in earlier years, and are the total receipts of the establishment (less refunds) for both goods and services, but do not include supplementary income, as from rentals or investments. From 1954 on, they include sales of establishments open for any part of the year, while the number of establishments includes only those open at the end of the year.

Sales Per Establishment Derived by dividing total sales by the number of establishments.

Sales Per Capita Based on population, excluding inmates of institutions, using 1970 census data.

Payroll The total of salaries, commissions, bonuses and vacation allowances, but not tips.

Employees (week including March 12) includes both full and part-time employees and officers of corporations.

Proprietors and Partnerships Unincorporated businesses in which owners or partners devoted a major portion of their time.

NA Not Available

[1] Total credited to all depositors except club and school accounts.

[2] Estimated total on deposit in all savings and loan companies.

[3] Grand total of the prices of total shares outstanding by closing price at the end of the year for each company listed on the Exchange.

[4] Dollar value of all transactions completed during the year.

[5] Average of the amounts outstanding on the Wednesdays of December each year in member banks of the New York Federal Reserve District. Data for 1939-1945 are omitted because they are not comparable with later years. Lesser changes affecting comparability are, beginning in 1948, use of gross loans instead of net, and beginning in 1959, exclusion of certain loans to banking institutions and an increase in the number of banks.

Note: Does not include authorized but unopened offices.

- Represents zero.

[1] Includes banks, trust companies, and private bankers but excludes New York branches of foreign banks.

[2] Excludes stations receiving payments and withdrawals.

[3] Excludes suburban branches of New York City institutions which are included in state-wide totals, but includes New York City branches of suburban banks.

(a) Excludes 110 branches outside of New York State.

(b) Although each of these is licensed separately, and therefore cannot properly be referred to as a 'branch' they are so classified for purposes of this compilation.

(c) Excludes 383 branches abroad.

TABLE F-14

New York Property Insurance Underwriting Association
Number of Policies Issued
1970-1982

Fiscal Year Ended November 30	Number of Policies Issued (In Thousands)
1970	161
1971	182
1972	180
1973	153
1974	134
1975	119
1976	103
1977	94
1978	101
1979	99(a)
1980	99(a)
1981	105
1982	101

(a) The figures for 1979 and 1980 represent the annual average for these two years. During 1980 the number of risks written by NYPIUA totalled 113,624 compared to 83,859 written in 1979. However, these figures may be misleading. Legislation effective August 1, 1979, which reduced the Association rates for Fire and Allied Lines necessitated program modifications which resulted in processing delays for the Association in late 1979 and a 'catch up' in 1980.

TABLE F-15

Policies Written Under New York Automobile Insurance Plan 1981-1982

Period	Original Policies	Renewal Policies	Cancellations	Net Policies[2] Written
		Liability[1] Coverage		
1981	668,662	440,683	493,901	615,444
1982	594,322	379,580	418,414	555,488
		Physical Damage[1] Coverages		
1981	109,465	121,291	87,490	143,266
1982	85,458	87,594	73,356	99,696
		Net Total[1] All Coverages		
1981	685,295	455,169	503,015	637,449
1982	604,899	389,326	425,316	568,909

[1] Policies are written for Liability and Physical Damage combined as well as for Liability and Physical Damage separately. Therefore, the net policies totals are less than the sum of the individual coverages.

[2] Net policies written is the sum of original policies and renewal policies less cancellations.

Note: Another important indicator is 'earned car years' which measures the size of the Plan reflecting duration of coverage. As the following table of the most recent available data indicates, the number of private passenger automobiles insured through the Plan decreased during 1981 by almost 4% for liability coverage and increased by almost 4% for physical damage coverage.

SOURCE: New York State Insurance Department, Monthly Reports of New York Automobile Insurance Plan.

TABLE F-16

Private Passenger Automobiles Insured Through New York Automobile Insurance
1972-1981

p Preliminary.

[1] Anthracite and Bituminous.

[2] Includes deliveries to cokeries.

[3] Excludes lease and plant fuels.

[4] Excludes non-fuel uses.

[5] Industrial consumption includes those fuels used by industry to generate electricity and process steam. Industrial hydro is excluded.

TABLE G-16

Sources and Disposition of Energy in the Electric Energy Account of the New York Power Authority

1982

	Kilowatt-Hours
Sources of Energy	
Generation (Excluding Station Use)	
Steam	3,569,088,000
Nuclear	6,396,900,000
Hydro	21,682,251,000
Diesel	-
Gas Turbine	-
Total Generation	31,648,239,000
Purchases	8,681,078,000
Total (Purchases and Generation)	40,329,317,000
Disposition of Energy	
Sales to Ultimate Consumers (Including Interdepartmental Sales)	12,823,972,000
Sales for Resale	27,038,389,000
Energy Furnished Without Charge	5,565,000
Energy Losses:	
Transmission and Conversion Losses	-
Distribution Losses	-
Unaccounted for Losses	461,391,000
Total Energy Losses [1]	461,391,000
Total Disposition	40,329,317,000

- Represents zero.

[1] Total losses equal 1.14% of total energy purchased, generated and interchanged.

TABLE G-17

Revenues From Electric Sales, New York Power Authority
New York State
1982

Class of Service	Revenues	Kilowatt-Hours (in thousands)	Average Number of Customers[1]
Commercial and Industrial Sales	$ 100,641,380	6,365,265	13
Public Street and Highway Lighting	60,493,294	541,489	42(a)
Other Sales to Ultimate Consumers	469,222,515	5,917,218	78
Total Sales to Ultimate Consumers	630,357,189	12,823,972	91
Sales for Resale	509,773,477	27,038,389	61
Total Sales of Electric Energy	1,140,130,666	39,862,361	152
Other Electric Revenues	1,660,751		
Total Electric Operating Revenues	1,141,791,417		

(a) Excluded within 'Total Sales to Ultimate Consumers' to avoid double counting.

[1] Average number of customers is the sum of the number of meters, plus the number of flat rate accounts. However, where separate meter readings are added for billing purposes, each group of meters so added is counted as one customer.

Glossary G

Anthracite Coal A hard, black lustrous substance containing a high percentage of fixed carbon, a low percentage (6%) of volatile matter and a high heat content. Mined principally in Eastern Pennsylvania. Accounts for about 1% of total U.S. coal consumption.

Barrels A liquid volume measure equal to 42 U.S gallons, commonly used in expressing quantities of petroleum and petroleum products.

Bituminous Coal A coal that is dark brown to black in color containing a relatively high amount of carbon and between 15 and 50% volatile matter with a high heat content. Referred to as soft coal. Mined in many areas of the country, it is the most predominantly used coal.

British Thermal Unit (BTU) The quantity of heat necessary to raise the temperature of one pound of water one degree Fahrenheit.

Degree Day A unit measuring the extent to which the outdoor mean daily dry bulb temperature falls below (in the case of heating) or rises above (in the case of cooling) 65°F. One degree day is counted for each degree the mean temperature varies from 65°F.

Distillate Fuel Oil A liquid product condensed from vapor during distillation. Primarily used for general domestic heating.

Kerosene A clean burning petroleum distillate used as an illuminate when burned in wick lamps. Used in space heaters, water heaters, and cook stoves.

Kilowatt Hour The amount of electrical energy involved with a one thousand watt demand over a period of one hour.

Natural Gas A gaseous, combustible mixture of several hydrocarbon compounds (including methane, ethane, propane, and butane) and small quantities of various nonhydrocarbons existing in the gaseous phase ("gas well" gas) or in solution with crude oil ("oil well" gas) in natural underground reservoirs at reservoir conditions. It comes from the ground with or without accompanying crude oil and is generally much higher in heat content than manufactured gas. It is used as the raw material in the petrochemical industry for the manufacturing of fertilizer and cellophane.The energy content of natural gas is usually taken as 1,032 BTU per cubic foot.

Nuclear The energy liberated by fission, fusion, or by radioactive decay.

Petroleum A generic term applied to the liquid hydrocarbon oil, and oil products in all forms, such as lease condensate, unfinished oil, natural gas plants liquids, and nonhydrocarbon compounds blended into finished petroleum products. It is also known as crude oil which, when refined, produces many distillates such as fuel oil, kerosene, gasoline, and other products.

Propane (LPG) A colorless, highly volatile hydrocarbon which exists under normal pressures and temperature as a liquid; however, it gasifies easily and for many purposes it is an excellent substitute for natural gas. Propane is the first product refined from crude petroleum, which is its main source. It is readily recovered as a liquefied gas at natural gas processing plants and refineries. It is used primarily for residential and commercial heating and cooling, and also as a fuel for transportation and industrial uses, including petrochemical feedstocks.

Refined Petroleum Products obtained from the processing of crude oil, unfinished oils, natural gas liquids and other miscellaneous hydrocarbon compounds. Includes aviation gasoline, motor gasoline, naphtha-type jet fuel, kerosene-type jet fuel, kerosene, distillate fuel oil, residual fuel oil, ethane, liquefied petroleum gases, petrochemical feedstocks, special naphthas, lubricants, paraffin wax, petroleum coke, asphalt, road oil, still gas, and miscellaneous products.

Renewable Energy Resources All those energy resources which are not fossil fuels, such as solar power and wind energy.

Residential Sector Includes private households (mobile homes, single family detached home, multifamily low-rise structures, multifamily high-rise structures, farm residences). Specifically included are the following end uses:space heating, space cooling, water heating, cooking, lighting, clothes drying, and refrigeration.

Residual Fuel Oil The heavier oils that remain after the distillate fuel oils and lighter hydrocarbons are boiled off in refinery operations. Included are products known as No. 5 and No.6 fuel oil, heavy diesel oil, Navy Special Fuel Oil, Bunker C oil, and acid sludge and pitch used as refinery fuels. Residual fuel oil is primarily used as a boiler fuel and for heating, vessel bunkering, and various industrial purposes.

Trillion 1,000,000,000,000 or 10^{12}

Ton In the United States, Canada and Union of South Africa, a unit of weight equal to 2,000 pounds. The American ton is often called the short ton. The metric ton equals 2,204.62 pounds.

Watt An electrical unit of power or work equal to one ampere flowing under a pressure of one volt. Approximately 746 watts are equivalent to one horsepower.

Abbreviations

M	Thousand or 10^3
MM	Million or 10^6
B	Billion or 10^9
T	Trillion or 10^{12}
BTU	British Thermal Unit
Bbl	Barrel
Kwh	Kilowatt-hour
Gwh	Gigawatt-hour or million Kwh
CF	Cubic Feet

[1] Exempt registrations are only included in their appropriate categories prior to 1976. These are registrations that do not require a fee, such as government vehicles.

[2] Totals also include the number of vehicles registered in the following categories: ambulance, bus, farm, taxi, trailer and rental cars.

[3] Moped registration began on October 1, 1976 for Class A and B mopeds. For the period October 1-December 31, 1976, 35 Class A and B mopeds were registered. Moped registration for Class C mopeds began on July 1, 1977.

[4] Includes originals and renewals for all classes of licenses.

[1] For the 1978 Census of Agriculture a farm was defined as an agricultural operation under one management from which $1,000 or more of agricultural products was sold or normally would be sold.

[2] Total includes data for Bronx, Hamilton, Kings, Queens, New York and Richmond counties which were withheld to avoid disclosure of information for individual farms. County data will not add to State total since no adjustment for incompleteness has been made in the County data.

Im Modified Mercalli Intensity.

(See following page for Modified Mercalli Scale)

Modified Mercalli Earthquake Intensity Scale

I. Not felt except by a very few under especially favorable circumstances.

II. Felt only by a few persons at rest, especially on upper floors of buildings. Delicately suspended objects may swing.

III. Felt quite noticeably indoors, especially on upper floors of buildings, but many people do not recognize it as an earthquake. Standing motor cars may rock slightly. Vibration like passing of truck. Duration estimated.

IV. During the day felt indoors by many, outdoors by few. At night some awakened. Dishes, windows, doors disturbed; walls make cracking sound. Sensation like heavy truck striking building. Standing motor cars rocked noticeably.

V. Felt by nearly everyone, many awakened. Some dishes, windows, etc., broken; a few instances of cracked plaster; unstable objects overturned. Disturbance of trees, poles and other tall objects sometimes noted. Pendulum clocks may stop.

VI. Felt by all, many frightened and run outdoors. Some heavy furniture moved; a few instances of fallen plaster or damaged chimneys. Damage slight.

VII. Everybody runs outdoors. Damage negligible in building of good design and construction; slight to moderate in well-built ordinary structures; considerable in poorly built or badly designed structures; some chimneys broken. Noticed by persons driving motor cars.

VIII. Damage slight in specially designed structures; considerable in ordinary substantial buildings, with partial collapse; great in poorly built structures. Panel walls thrown out of frame structures. Fall of chimneys, factory stacks, columns, monuments, walls. Heavy furniture overturned. Sand and mud ejected in small amounts. Changes in well water. Persons driving motor cars disturbed.

IX. Damage considerable in specially designed structures; well-designed frame structures thrown out of plumb; great in substantial buildings, with partial collapse. Buildings shifted off foundations. Ground cracked conspicuously. Underground pipes broken.

X. Some well-built wooden structures destroyed; most masonry and frame structures destroyed with foundations; ground badly cracked. Rails bent. Landslides considerable from river banks and steep slopes. Shifted sand and mud. Water splashed (slopped) over banks.

~~XI. Few,~~ if any, (masonry) structures remain standing. Bridges destroyed. Broad fissures in ground. Underground pipelines completely out of service. Earth slumps and land slips in soft ground. Rails bent greatly.

XII. Damage total. Practically all works of construction are damaged greatly or destroyed. Waves seen on ground surface. Lines of sight and level are distorted. Objects are thrown upward into the air.

TABLE J-20

Statewide Air Pollution Trends
New York State
1964-1981

	Total Suspended Particulates[1]			Sulfur Dioxide[2]	Carbon Monoxide[2]		Ozone[2]
Year	Annual Geometric Mean[3] Micrograms/ Cubic Meter	Number of Sites in Violation	% of Total Sites	(ppm) Continuous Sampling Stations	Number of Times Running 8-Hour Average Exceeded NYS Standard[4]	Number of Days During which Running 8-Hour Average Exceeded 9.0ppm[5]	Number of Days During Which 1-Hour Averages Exceeded Standard[6]
1964	96.0						
1965	92.5

1981	51.4	6	3	0.014	30	6	24

[1] Any matter, solid or liquid, dispersed in the atmosphere capable of being collected by a high-volume air sampler.

[2] Expressed as ppm or parts of contaminant per million parts of air by volume. Reading taken from continuous sampling stations.

[3] Annual geometric mean: 50% of the values sampled during the year are higher and 50% are lower. These values are expressed as a concentration in micrograms of contaminant per cubic meter of air.

[4] NYS air quality standard of 9.0 ppm.

[5] Number of days on which one or more eight-hour averages were in violation.

[6] Number of days during which at least one one-hour average exceeded the State and Federal standard of 0.12 ppm.

- Represents zero.

[1] Plant with activated sludge, or modification of same (extended aeration, contract stabilization etc), as its Secondary Treatment.

[2] Plant with chemical precipitation, sludge filtration, biologic oxidation, or sludge digestion process included in Primary, Intermediate, or Secondary treatment.

[3] Plant with only settling tanks, septic tanks, or an oxidation pond, but no additional processes, and sludge digestion in settling tanks.

[4] Treatment facilities having at least the following units described in footnote five throughout nine:

[5] Removal of large organic and inorganic objects from the sewage, primarily to prevent damage to, or clogging of, pumps and other treatment equipment.

[6] Removal of the major portion of organic and inorganic solids through the physical process of sedimentation.

[7] Chemical treatment or modified aeration which is superior to Primary but less than Secondary treatment in effectiveness.

[8] Biological oxidation process which brings sewage into contact with aerobic organisms.

[9] Additional treatment, usually following a Secondary process, which generally consists of a sand filter or oxidation pond.

---

[1] On April 8, 1936, the Legislature passed a law authorizing all pistol licenses to be good until revoked, except as follows:

The jurisdictions of Nassau and Suffolk Counties, and the five Counties which comprise the City of New York, do not issue licenses which are good until revoked. Each separate jurisdiction in this group issues licenses valid for between 1 and 3 years.

Totals are based upon licenses filed with the Division of State Police during the periods indicated, as required by law.

1982	5,294	923	1,729		684	1,958

[1] County penitentiaries have been authorized in five counties: Albany, Erie, Monroe, Onondaga and Westchester. These facilities were established to relieve overcrowded conditions in county jails and were originally intended to be used for the confinement of persons duly convicted of any offense other than a felony. However, State laws have since been amended to permit the officials of these facilities to receive prisoners on a contract basis from other counties and those convicted of certain felonies. A sentence to a county penitentiary may not exceed one year.

a The Monroe County Penitentiary was officially closed effective October 3, 1971, and all inmates were transferred to the new Monroe County Jail complex.

NA Not available.

- Represents zero.

[1] County jails are used for the detention of persons committed as witnesses in a criminal case; those charged with a crime and committed for trial or examination; persons committed on civil process; and those convicted of any offense other than a felony and sentenced to imprisonment therein. A sentence to a county jail may not exceed one year.

a Includes weekenders.

b Includes 123 persons in Orleans for whom county of jurisdiction is unknown.

TABLE K-41

Parolee Movement and Census, New York State
Fiscal Years 1980-81 and 1981-82

Movement/Census	Fiscal Year 1980-81	 1981-82
April 1 Active Parolees	14,936	15,365
State Inmates Released by Board	5,440	5,177
State Inmates Released by CR	2,634	2,570
Local Inmates Released by Board	525	546
Cooperative Parolee Agreement from Other States	405	332
Total Inmates Released to Parole Supervision[1]	9,004	8,625
Total Caseload Removals (Discharges and Returns)[2]	8,575	8,437
Dynamic Population for Year[3]	23,940	23,990
March 31 Active Parolees	15,365	15,553
Delinquent Parolees[4]	3,578	3,893
Total End of Year Caseload (March 31)	18,943	19,446

[1] Released to supervision both within state and out-of-state.

[2] Includes parolees discharged from parole supervision by expiration of maximum sentence, death, Board action, court order and prison returns.

[3] Cumulative number of parolees under supervision during all or any part of the year.

[4] Parolees carried by parole officers who are either in the stages of the violation process or are absconders. Not all delinquents in violation process will have their parole revoked.

SOURCE: New York State Division of Parole.

TABLE K-42

Outcome of Parole Supervision
New York State
Fiscal Years 1980-81 and 1981-82

Outcome Measure	1980-81 (a)	1981-82 (b)
Rate of Parolees Returned to Prison with New Court Conviction During Year	3% (N=721)	2% (N=467)
Rate of Parolees Returned to Prison for Violating Conditions of Parole During Year	7% (N=1,604)	10% (N=2,413)
Total Rate of Prison-Returns During Year	10% (N=2,325)	12% (N=2,880)

(a) Rates computed on basis of dynamic population of 23,940 parolees during April 1, 1980 through March 31, 1981.

(b) Rates computed on basis of dynamic population of 23,990 parolees during April 1, 1981 through March 31, 1982.

Excess (Deficit) of Receipts Over Disbursements:	$ (301)	$ 3	$ (62)	$ 51

X Not applicable.

Note: The General Fund is the principal operating fund of the State. All State income not required by law to be deposited in designated other funds must be deposited in the General Fund, including almost all (97.5%) of State tax receipts and proceeds from the sale of tax and revenue anticipation notes.

[1] 1980-81 and 1981-82 amounts restated to conform to 1982-1983 and 1983-1984 GAAP-defined General Fund format. (See glossary.)

[2] As formulated on April 3, 1983.

[3] Personal income tax net collections during the period described in the table are affected by the pattern of refund payments.

[1] Because the budgetary basis on which the State Financial Plan is prepared differs from the set of accounts maintained by the Comptroller, and because the 1982-83 actual State Financial Plan results have been prepared on such a budgetary basis, the classification of certain receipts or disbursement items have been changed from that expected to be reported by the Comptroller. For the same reasons, the magnitude of certain of these reclassifications has also been estimated. (See Glossary for definitions of terms.)

Closing Fund Balance	$ 51	$ 139	$ 20	$ 142	$ 352

Note: This plan was formulated on April 3, 1983 and reflects disbursements proposed to be made from appropriations approved by the State Legislature and in force, as well as receipts anticipated from the State's revenue structure as modified in 1983 by the Legislature. The projections of total receipts and total expenditures also reflect assumptions about economic and demographic factors, levels of reimbursements to local governments, and expenditure controls. A detailed discussion of such factors and assumptions may be found in the "Official Statement" prepared in conjunction with the issuance of the State's 1983 tax and revenue anticipation notes in April, 1983. (See glossary for definitions of terms.)

1976-77	18,806a	57.1	31.3	11.6
1977-78	19,687a	55.5	32.3	12.2
1978-79	21,251a	54.7	33.3	12.0
1979-80	23,027a	55.2	32.0	12.8
1980-81	24,820a	56.1	30.3	13.6

[1] Includes total receipts of the State and receipts of Authorities related to certain programs considered by the U.S. Department of Commerce to be State-related. Because of the inclusion of this Authority information, the numbers do not reconcile with other tables showing State receipts.

[2] Includes user fees such as tuition, hospital fees and park fees. Also includes miscellaneous receipts such as fines, rental and interest income.

a Includes receipts of Municipal Assistance Corporation (MAC). MAC receipts from the State Sales Tax for the Benefit of New York City are included as "Intergovernment Revenues" (local government contributions) by the U.S. Department of Commerce.

TABLE L-6

New York State Personal Income Tax Collections and Refunds[1]
Actual and Projected
State Fiscal Years 1980-81 — 1983-84

(millions)

	State Fiscal Year			
	1980-81 Actual	1981-82 Actual	1982-83 Actual	1983-84 Projected
Gross Collections	$7,864	$9,017	$9,796	$10,907
Refunds	1,248(a)	977(b)	1,569(c)	1,379(d)
Net Collections	$6,616	$8,040	$8,227	$ 9,528

---

[1] Personal income tax collections in recent years have been affected by the pattern of refund payments made and reflect transactions in the tax refund reserve account.

(a) Includes $827 million of 1979 calendar year refunds, withdrawls of $4 million from the tax refund reserve account and payment of $425 million of 1980 calendar year refunds.

(b) Includes $860 million of 1980 calendar year refunds, withdrawls of $6 million from the tax refund reserve account and payment of $123 million of 1981 calendar year refunds.

(c) Includes $1,326 million of 1981 calendar year refunds, deposits of $49 million into the tax refund reserve account and payment of $194 million of 1982 calendar year refunds.

(d) Reflects payment of the balance of refunds on 1982 liability, withdrawls of $52 million from the tax refund reserve account and payment of no 1983 calendar year refunds.

TABLE L-7

Debt Outstanding of New York State Including Authorities and Municipalities

Type of Debt	Amount Outstanding
	(millions)
State General Obligation Debt (as of March 31, 1983)	
Tax and Revenue Anticipation Notes	$ 500
Bond Anticipation Notes	27
Bonds	3,806
State-Guaranteed Authority Debt (as of March 31, 1983)	
Bond Anticipation Notes	48
Bonds	445
State Lease-Purchase or Contractual-Obligation Financing Arrangements (as of March 31, 1983)	
Bond Anticipation Notes	30
Bonds	4,465(a)
Authority Debt With Moral Obligation Provisions (as of March 31, 1983)	
Bond Anticipation Notes (including $247 million issued by MAC)	327(b)
Moral Obligation Bonds (including $7.438 billion issued by MAC)	12,308
Municipalities	
New York City (as of December 31, 1982)	
Notes	700
Bonds (excluding $266 million held by MAC)	6,158
Other Municipalities (as of respective fiscal years ended in 1981)	
Notes	2,154(c)
Bonds	6,562(c)

(a) Included in this category are two HFA programs (State University of New York and Mental Hygiene) which also have the moral obligation provision, under which $2.790 billion in indebtedness is outstanding. Also included is $580 million of lease- purchase debt incurred by the County of Albany, which may be increased to correct significant defects in the construction of one of the State office buildings in the Empire State Plaza in Albany.

(b) The bond anticipation notes do not have the benefit of a moral obligation provision but may be refinanced through the sale of bonds having the benefit of such a provision.

(c) Does not include debt of muicipalities issued to finance facilities occupied by the State under lease-purchase arrangements. This debt is included under State Lease-Purchase or Contractual-Obligation Financing Arrangements.

- Represents zero.

[1] Not reflected in this table is approximately $964 million of indebtedness of the Dormitory Authority issued to finance educational construction by City of New York. The State contributes, subject to annual appropriations, to rental payments in amounts equal to 50% of the debt service on $337 million of these obligations and 100% of the debt service on $627 million of these obligations.

[2] Also have benefit of moral obligation provisions, but are not subject to State legislation limiting the amount of moral obligation bonds issuable by certain Authorities.

(a) The State and the County of Albany have a contract that this amount will not exceed $985 million. This contract has been amended and may be further amended to reflect changes in the total cost of this project, which is not substantially complete.

(b) Authorization proposed by Governor and passed by Legislature.

Total Moral Obligation Debt			$16,776	$12,308	$327	$12,635

- Represents zero.

[1] Certain other Authorities formerly had the power (which was never exercised) to issue moral obligation debt, but the legislation granting such power has been repealed.

[2] Total authorized or unissued for each agency or function, not limited to moral obligation issues.

[3] Maximum amounts of indebtedness, previously issued, and authorized to be issued in the future, which may be secured by a debt service reserve fund to which State money is apportionable. Does not reflect certain reductions resulting from retirement of certain obligations.

[4] The notes do not have the benefit of a moral obligation provision, but may be refinanced through the sale of bonds having the benefit of such a provision.

[5] Does not include borrowing for State University Construciton and Mental Hygiene Construction programs which are supported by lease-purchase arrangements.

[6] Program also supported by periodic State aid payments to participating municipalities.

(a) Thirty-year notes held by funds of the State.

(b) Reflects $135.4 million in debt issued which does not have the benefit of a moral obligation provision.

(c) Includes $39.6 million in long-term notes for the Mt. Sinai Hospital project.

(d) Forty-year notes held by funds of the State.

(e) Reflects $221.0 million in debt issued which does not have the benefit of a moral obligation provision.

(f) Reflects $717.8 million in debt issued which does not have the benefit of a moral obligation provision.

(g) Reflects $97.3 million in debt issued which does not have the benefit of a moral obligation provision.

(h) Tax-exempt commercial paper.

TABLE L-16

New York State Public Employees' Retirement Systems[1] Assets of the Common Fund Fiscal Years 1977-78 — 1981-82

Fiscal Year Ended March 31	Total Assets (millions)	Percent Increase
1978	$10,218.2	11.7%
1979	11,797.9	15.5
1980	14,525.9(a)	23.1
1981	17,046.7(a)	17.4
1982	18,018.4(a)	5.7

[1] Includes the State Employees' Retirement System and the State Policemen's and Firemen's Retirement System, and relatively small amounts held under the Group Life Insurance Plan.

(a) Includes accrued employer contributions to be paid with respect to service rendered during the latest two fiscal years. Assets shown for fiscal years prior to 1980 include accrued employer contributions to be paid with respect to service rendered in the penultimate fiscal year but exclude accrued employer contributions to be paid with respect to service rendered in the immediately preceding fiscal year.

TABLE L-19 (Continued)

Income of New York State Government from Selected Taxes and Fees Deposited to the Department of Audit and Control—1920-1983

(thousands)

Note: Fluctuations in total income collected from individual tax sources frequently reflect legislated modifications to tax rate fee schedules, payment dates, size of tax bases, extent of allowable deductions or credits, and other provisions.

Footnotes following this table provide some indication of these legislated modifications. For more precise details, reader should consult the volume on State Tax Law of McKinney's Consolidated Laws of New York State or contact the State Division of the Budget, Research Section (address on page 538 of this volume.)

SOURCES: New York State Department of Audit and Control, Annual Reports of the Comptroller; New York State Department of Taxation and Finance; Commission on Municipal Revenues and Reductions of Real Estate Taxes, Report (1943); material compiled by New York State Division of the Budget.

(a) Prior to 1943, the State fiscal year began July 1. Starting in 1943, April 1 became the beginning of the fiscal year and remains in effect. All figures for the State fiscal year ending in 1943, therefore, contain only nine months of collections.

Alcoholic Beverage Control License Fees

(b) Following repeal of National Prohibition (1933), previous State licensing requirements were extended to all wines and liquor and then consolidated (1934).

(b-1) Reflects license fee increases and imposition of new fees.

(b-2) Consolidation of certain fees within the Alcoholic Beverage Act.

(b-3) Reflects various license fee revisions.

Alcoholic Beverage Tax

(c) Following repeal of National Prohibition (1933), previous State taxes were extended to all wines and liquors and then consolidated (1934).

(c-1) Tax extended to include certain kinds of cider.

(c-2) Reflects enactment of tax increases on liquor.

Bank Tax:

(d) Effective March 31, 1927: new State franchise taxes were imposed on national banks, State banks, trust companies and financial institutions. (Savings banks were taxed under the Corporation and Utilities Tax Laws until 1945.)

(d-1) Reflects revisions in taxes on savings banks.

(d-2) Tax extensions: (a) to cover savings and loan associations; and (b) to apply to interest or dividends credited to depositors.

(d-3) Reflects revisions in taxes based on net income of banks, plus acceleration of payment schedules.

(d-4) Reflects reductions in required levels of tax payments based on bank income, plus deceleration of payment schedules.

(d-5) Increases in tax rates on net income, capital stock, and interest or dividends credited to depositors were enacted in 1968 and 1971.

(d-6) For eight and one-half months in 1969, an increase in net income tax on certain State banks was in effect; it expired in December when new Federal legislation permitted State (and local) sales and use taxes on national banks.

(d-7) A revenue windfall resulted from a bank tax recodification, changing the determination of initial estimated payments by mutual savings institutions; tax rates remained unchanged.

(d-8) Reflects increase in net income tax of banks, plus imposition of a surcharge on all bases.

(d-9) Reflects elimination of a deduction under the franchise tax.

(d-10) Reflects new (limited) credit allowance against the surcharge.

Cigarette Tax:

(e) From 1948 through 1968, tax revenues earmarked for the War Bonus and Mental Health Bond Account are included. (In 1969, that Account was consolidated with the State's General Fund.)

(f) Effective July 1, 1939, the first State tax on cigarettes was imposed, at two cents per pack (of 20).

(f-1) Reflects increase in cigarette tax; additional revenues earmarked for War Bonus Account.

(f-2) Supplemental use tax enacted.

(f-3) Increase in cigarette tax, plus new tax on wholesale price of cigars and other non-cigarette tobacco products (subsequently repealed July 1, 1961).

(f-4) Due to change in deposit procedures, thirteen months of collections were made in this fiscal year.

(f-5) Reflects tax rate increase.

Corporation and Utilities Taxes: (Article 9)

(g) In 1919, the following were in effect:

-Organization tax on the value of capital stock of corporations;
-License fee on foreign corporations doing business in New York State;
-Franchise and gross earnings taxes on transportation and transmission companies;
-Franchise tax on water, heat, light and power companies;
-Tax on gross premiums of foreign fire and marine insurance companies;
-Capital stock tax and profits tax on trust companies;
-Tax on investment companies;
-Tax on earnings of savings banks.

(g-1) Addition of tax on foreign bankers.

(g-2) New franchise taxes on real estate companies, holding companies and agricultural cooperative corporations.

(g-3) Revisions to taxes on insurance companies.

(g-4) Addition of "emergency" tax on gross receipts of utilities (except operating railroads).

(g-5) Increases in selected rates and minimum tax levels.

(g-6) Supplemental tax on domestic insurers.

(g-7) Reflects selected rate increases.

(g-8) Franchise tax on insurance corporations replaced tax on foreign fire and marine insurance companies.

(g-9) An estimated payment schedule conforming to the schedule for general business corporations, banks and insurance companies, was imposed on various other taxable companies.

Corporation Franchise Tax: (Article 9-A)

(h) In 1919, most manufacturing and mercantile corporations were subject to a State franchise tax as well as a net income tax. In 1920, a tax on apportioned capital stock was added, and a minimum tax level imposed.

(h-1) Increase enacted in net income tax rate. (Renewed annually through 1944.)

(h-2) Revision of franchise tax provisions to reflect different classes of income: business, investment and subsidiary; to allocate income in New York State under a different formula; and to place corporations on a more current basis. (No change in rates.)

(h-3) Increase in net income rates.

(h-4) Advancement in due dates for corporate income taxes.

(h-5) Accelerated depreciation of capitalized assets enacted.

(h-6) From 1964 through 1970, accelerated payment schedule was gradually decelerated until all four quarterly estimated payments would be equal (i.e., at 25 percent).

(h-7) Increases in tax rates and in minimum tax level.

(h-8) New tax on unrelated business income imposed.

(h-9) Tax increases plus a surcharge on all bases.

(h-10) Increase in net income tax, plus a surcharge on the corporation's 1976 tax liability.

(h-11) Extended surcharges for one year, but provided for a limited credit in future years.

(h-12) Accelerated increases in investment tax and employment incentive credits and made them permanent; and other modifications.

Estate Tax (excluding Gift Tax)

(i) In 1919, a State property transfer tax was in effect, at varying rates, depending upon the class of the personal or corporate beneficiary.

(i-1) Enactment of new Estate Tax, effective April 2, 1925. (Uniform Estate Tax established in 1930.)

(i-2) New rate schedule enacted.

(i-3) "Temporary" rate increase imposed. (Renewed annually until made permanent in 1947.)

(i-4) State law was brought into conformity with Federal estate tax law.

(i-5) Elimination of discounts for prompt tax payments.

(i-6) Elimination of tax liability on small estates.

(Continued on following page.)

TABLE L-19 (Continued)

Income of New York State Government from Selected Taxes and Fees Deposited to the Department of Audit and Control—1920-1983

(thousands)

Highway Use Tax:

(j) Effective October 1, 1951 a highway use tax was imposed on large commercial vehicles at varying rates. Mileage on State Thruway was exempted. In 1952, weight schedule was extended and new rates enacted.

(j-1) Special permits and rates provided for vehicles transporting other vehicles.

(j-2) Optional method introduced for determining tax, based on unloaded weight and mileage.

(j-3) Highway use tax amended for truckers paying motor fuel taxes based on mileage; fuel tax extended to buses operating on State highways.

(j-4) Sales tax component added to fuel use tax.

Insurance Tax: (Article 17)

(k) Effective in 1919 were taxes on gross premiums (less certain deductions) from insurance written by out-of-state ("foreign") companies on risks located within the State.

(k-1) Effective June 15, 1939 the Insurance Law was completely recodified, with rate and coverage revisions.

(k-2) New tax on premiums received by "foreign" companies from title insurance.

(k-3) Revenue "windfall" resulted from advancing due date of tax payment from April 1 to March 15.

(k-4) Rate increase on marine insurance profits.

(k-5) Prior to 1974, foreign health, fire and casualty insurance companies were also taxed under the State's Corporation and Utilities Tax. Provisions were combined in 1974 into a new tax based on income and premiums. [See note g-8 above]

Motor Fuel Tax: (Article 12-A)

(l) Effective May 1, 1929 an excise tax was imposed on gasoline used for motor fuel.

(l-1) An additional one-cent "emergency" tax imposed. Renewed annually until 1947.

(l-2) Another additional one-cent emergency tax was imposed for one year, then renewed annually until 1947.

(l-3) Gasoline tax extended to diesel motor fuel.

(l-4) Increase in rates on diesel fuel.

(l-5) Increases in gasoline and diesel fuel taxes (with taxicabs and buses exempted) with proceeds earmarked for the State Highway Account.

(l-6) Beginning January 1966, $375,000 per month was earmarked for the Outdoor Recreation Development Account.

(l-7) Increase in gasoline tax from 6 cents to 7 cents per gallon.

(l-8) Tax on gasoline increased to 8 cents per gallon; on diesel fuel, to 10 cents per gallon, with one-fourth of the increase earmarked for Emergency Highway Reconditioning and Preservation Fund. (Earmarked moneys are not included in amounts here reported.)

Motor Vehicle Fees:

(m) Annual vehicle registration fees and drivers' license fees were in effect. Passenger car registration fees varied by list price and horsepower; trucks and trailers by gross weight; buses by seating capacity.

(m-1) Basis for passenger car fees changed to a variable rate, depending upon weight.

(m-2) Temporary (one-year) increases in most vehicle registration fees and instructors' licenses.

(m-3) Chauffeurs' and drivers' license fees reduced and revised.

(m-4) For chauffeurs' and drivers' licenses, fees were increased and three-year renewals authorized.

(m-5) Increase in passenger car registration fee.

(m-6) Staggered system of vehicle registration introduced.

(m-7) For chauffeurs and drivers, a four-year license renewal authorized.

Pari-Mutuel Tax:

(n) Following a 1939 amendment to the State Constitution (effective in 1940), State law imposed a tax on betting plus a share of "breakage" (roundings on bets).

(n-1) Increase in tax and share of breakage.

(n-2) At harness tracks, State's share of betting was changed from a flat percentage to a graduated scale.

(n-3) Gradual increase (over four years from 1953 through 1956 and after) in State tax, while local tax rates were decreased.

(n-4) Revision in tax range applicable to harness tracks.

(n-5) Special tax relief provisions for non-profit racing associations (extended through 1975).

(n-6) Profit-making thoroughbred tracks taxed at same rate as harness tracks (extended through 1976).

(n-7) Increases in State share of "breakage."

(n-8) Increase in State tax at both thoroughbred and harness tracks.

(n-9) At harness tracks, increase in State takeout and restructure of rate schedule.

(n-10) Off-track betting (OTB) initiated, plus changes in rates and coverages.

(n-11) Substantial changes to taxation of OTB operations.

(n-12) Reduction in State share of "breakage" from harness racing wagers and in State's share of takeout at nonprofit race tracks.

(n-13) Tax rate on nonprofit tracks reduced by one-half for 2 months (January and February) for three years (1976-78).

(n-14) Further reduction in tax rate for nonprofit racing associations.

(n-15) Reduction in tax rates for harness tracks.

(n-16) Introduction of an "experimental" two-year reduction in takeout at pools run by nonprofit associations and in State tax.

Personal Income Tax: (Article 16 and Article 22)

(o) Effective in 1919, the State imposed a graduated tax on income, including provisions for capital gains or losses as well as personal and dependent exemptions.

(o-1) Reductions in taxes allowed on 1923 income. (Extended through 1926.)

(o-2) Temporary rate increase on 1931 income. (Extended through 1933).

(o-3) Additional emergency tax (one percent) imposed, and extended annually through 1940.

(o-4) New entire tax schedule adopted.

(o-5) Changes in capital gains liability.

(o-6) Starting in 1941, State income taxes were reduced each year, until 1956: by 25 percent (in 1941-1944), by 50 percent (1945 and 1946), by 40 percent (1947), by 10 percent (1948-1953) and by less than 10 percent (1955 and 1956).

(o-7) From 1947 through 1969, annual totals include funds deposited in the War Bonus and Mental Health Bond Account.

(o-8) Tax withholding system imposed; taxes on ordinary 1958 income were forgiven; taxes on 1958 capital gains were collected. Substantive changes made to the tax rate structure and exemption provisions.

(o-9) Revision of State income tax to conform to Federal law. All personal income tax on 1960 income was refunded by 10 percent.

(o-10) Addition of four upper income tax brackets.

(o-11) Numerous changes to various components, including exemptions for low-income persons and addition of another tax bracket for high incomes.

(o-12) Surcharge suspended for 1973 and 1974 income years.

(o-13) Reflects deferral of refund payments into subsequent State fiscal year.

(o-14) Reflects return to normal refund payment schedule.

(o-15) Numerous changes, including elimination of top tax bracket and initiation of a real property tax credit.

Sales and Use Tax: (Article 28)

(p) Effective May 1, 1933 a temporary license tax of one percent on receipts from retail sales of tangible personal property was imposed. Expired June 30, 1934.

(p-1) Effective August 1, 1965 the State imposed a 2 percent sales and compensating use tax on retail sale or use of tangible personal property. (Figure for first year's total represents seven months of collections.)

(p-2) Tax increased to 3 percent.

(p-3) Tax increased to 4 percent and extended to sales of prepared foods and drink less than one dollar.

(p-4) Monthly tax reporting imposed on large vendors.

(Continued on following page.)

TABLE L-19 (Continued)

Income of New York State Government from Selected Taxes and Fees Deposited to the Department of Audit and Control — 1920-1983

(thousands)

Stock Transfer Tax: (Article 12)

(q) Original tax enacted in 1905. In 1920, rate was 2 cents per $100 of par value stock and 2 cents per share of no-par value stock.

(q-1) Emergency tax added (2 cents).

(q-2) Tax base was changed from par value to selling price and new rates established. Additional emergency tax (of one and one-half cents) was extended annually until 1945.

(q-3) Complete revision of tax rate schedule.

(q-4) Beginning July 1, 1965, proceeds of this tax have been paid to New York City.

Unincorporated Business Income Tax: (Article 23)

(r) Effective February 15, 1935 a temporary emergency tax was applied to net income of unincorporated businesses not otherwise taxed, and to capital gains and losses. (Major professions were excluded.) Annual legislation extended the tax until it was made permanent in 1947.

(r-1) Rate reduction enacted and extended through 1954.

(r-2) Tax relief granted to unincorporated businesses and extended through 1959-60.

(r-3) State tax conformed to Federal tax laws.

(r-4) Quarterly estimated tax payments initiated.

(r-5) Increase in tax rate.

(r-6) Four-year phase-out of tax started, through continuing rate reductions.

TABLE L-24

Unincorporated Business Tax Returns by Type of Business New York State — 1978

(dollar amounts in thousands)

Type of Business	Number of Firms	Total Income	Net Income[1]	Tax after Credit[2]
Retail Trade	20,368	$3,710,183	$385,602	$9,888
Wholesale Trade	8,139	2,497,156	240,483	8,051
Agriculture, Forestry, Fisheries and Mining[3]	4,102	318,084	99,992	1,761
Manufacturing	3,685	720,664	104,144	3,414
Construction	9,613	767,443	173,348	4,263
Finance, Insurance and Real Estate	5,251	1,914,824	440,485	18,732
Services	21,608	2,200,552	492,343	14,379
Business Not Specified	788	43,707	14,593	382
Grand Total	73,554	$12,172,612	$1,950,990	$60,871

[1] Allocated to New York State.

[2] If the tax computed at the statutory rate of 5% is not over $110, the credit cancels the tax. If the computed tax is more than $110 but less than $550, the credit is $137.50 less 25% of the computed tax. No credit applies when the tax is $550 or more.

[3] Tax rate for agricultural business was 2¼% in calendar 1978.

Note: Distributions are net after subtracting administrative charges and are generally based on taxes collected during the preceding month. Unless otherwise indicated, tax rates are those in effect from December 1981 through November 1982. (The tax on December 1981 sales was collected in March 1982 and distributed in April.) Parentheses around tax rates indicate the tax has been repealed.

[1] Oneida - 1.5% in Rome & Utica; 2% in Sherrill.

[2] Saratoga - 1.5% in Mechanicville and Saratoga Springs.

[3] Westchester - Cities of Mt. Vernon, New Rochelle, White Plains and Yonkers have matching rates.

(a) Not applicable to consumer utilities and restaurant meals in the City of Norwich.

(b) Not applicable to hotel room occupancy and restaurant meals in the City of Long Beach.

(c) Not applicable to consumer utilities in the City of Oneonta.

(d) Not applicable to admissions and club dues in the City of Rye.

X Not applicable.

Note: State revenues from off-track betting not included.

[1] Breakage represents odd cents over any multiple of ten which would otherwise be payable to patrons holding winning two dollar tickets.

[2] The money represented by uncashed tickets on April 1 of the year following their purchase is payable into the State Treasury by April 10.

(a) Includes $4,239,522 in construction accounts.

(b) Includes a retroactive payment of $482,000.

(c) Includes a special assessment of $8,229.

(d) Rate change from 15% to 4% effective July 1, 1973.

(e) Beginning in August 1976, the commission rate for N.Y.R.A. tracks was reduced, while the basis of their franchise fees was changed from a flat fee per racing day to a special formula.

(f) Includes 4 days for off-track betting only.

(g) A sizeable portion of the continued decrease in collections through 1978 is attributable to rate changes at all tracks.

(h) Includes $3,752 in uncashed 1978 mutuel tickets from quarter horse racing at Tioga Park. There were no 1979 quarter horse meetings.

X Not applicable.

[1] Includes all registration monies, special registrations, distributable dealer and transporter monies, and monies from miscellaneous registration transactions (duplicates, amendments, etc.)

[2] Includes revenue from:

Snowmobiles
Motorboats
Titles
Reflectorized Plates
Re-registration
Repair Shop License Fees
Inspection Program Monies
Vehicle Dismantlers
Dealer, Transporter
Public Service Bureau

License Applications
Conditional Licenses
Restricted Licenses
Miscellaneous Licenses Issuances
VIN Changes
New York City Use Tax
$25 Civil Penalty
Driving Schools

[3] Represents the aggregate amount collected from the residents of each county, minus deductions. A portion of this money is distributed back to each county.

Most of the monies are deposited into the State's General Fund; some monies, such as County Clerk Fees, go to County Clerks as reimbursement for services rendered to the Department.

X Not applicable.

- Represents zero.

[1] Where the figures in the 'Total' column are not aggregate of the amounts listed in the detail columns, the totals were adjusted to eliminate duplication. For example, the population and area of villages are also contained in figures reported under 'Towns' and the addition of the two, therefore, would result in duplication. Another example, the column headed 'Cities-Excluding New York City' includes debt outstanding for school district purposes in the fiscally dependent school districts, while the column headed 'School Districts-Excluding New York City' also includes the debt for such purposes amounting to $133,137,840 gross as well as net bonded debt and $10,535,000 in notes.

[2] Includes counties other than the five comprising the City of New York.

[3] Includes fiscal data for School Districts and Colleges.

[4] These figures are included in column headed 'Cities-New York City'.

(a) Includes New York City Housing Authority debt guaranteed by the City of New York in the gross amount of $180,526,000, and in the net amount of $174,296,499. Also includes serial bonds outstanding for urban renewal development and housing loan programs charged to the 2% housing debt limit in the gross amount of $447,962,910 and in the net amount of $389,837,454 after deducting budget appropriations for the redemption of bonds in the total amount of $58,125,456.

(b) Does not include the outstanding indebtedness of the Municipal Assistance Corporation.

(c) Does not include any amounts chargeable against 2% constitutional debt-incurring power for low-rent housing and slum clearance purposes.

(d) Does not include net unfinanced expenditures and net, non-excluded land, contracts and other liabilities of $949,011,841 which are also charged against the constitutional 10% debt limit.

(e) Constitutional debt limit applies only to those school districts which are wholly or partly in cities under 125,000 inhabitants. Included is debt which has been issued in excess of the constitutional debt limit with the approval of the Board of Regents and the State Comptroller.

(f) No constitutional debt limit for fire districts.

(g) Due to changes in the accounting system, most counties no longer report relevy of returned school taxes and returned school taxes collected prior to relevy as revenues. Other changes in the accounting system no longer require that unneeded reserve for delinquent taxes be reported as a revenue by counties, cities, double-entry towns, and double-entry villages.

(h) Includes real property taxes received of $3,298,090,087 and payments in lieu of taxes of $16,264,356.

(i) The State and Federally funded portion of the Medical Assistance program is not reflected in the State Aid, Federal Aid, and Current Operations categories for New York City and counties (starting in the latter part of fiscal 1979 for certain counties and continuing through 1982 to include all counties). Payments to vendors are now processed directly by the State through the Medical Management Information System (MMIS) for affected municipalities.

(j) Includes the Municipal Assistance Corporation takeout of $367,000,000.

(Continued on following page.)

Local Government Units in New York State, Summary Data
Fiscal Years ended in 1981

(dollar amounts in millions)

	School Districts		
	Excluding NYC	NYC[4] (excl. Higher Ed)	Fire Districts
Number of Units of Local Government	736	1	831
Population - 1980 Census	X	X	X
Land Area (Square Miles)	X	X	X
Assessed Valuation of Real Property:			
Taxable for municipal purposes	X	X	$22,017.2
Taxable for Schools	$54,974.7	$39,616.9	X
Exempt from Taxation for municipal purposes	X	X	X
Outstanding Debt:			
Bonds (Gross)	$ 2,018.6	$ 700.8	$ 38.5
Bonds (Net - Gross less Sinking Fund)	2,018.6	700.8	38.5
Notes	357.9	X	19.1
Total Debt Subject to Constitutional Limit - Net	287.4(e)	X	(f)
Revenues:			
Real Property Taxes and Assessments	$ 3,412.3	$ 1,163.3	$ 87.0
Non-Property Taxes	69.8	X	X
State Aid	2,901.2	1,175.9	X
Federal Aid	234.3	588.0	X
Other Revenues	436.1	18.4	14.9
Total Revenues	7,053.6	2,945.5	101.9
Borrowings:			
Bonds	$ 39.9	$ 96.5	$ 3.7
Notes	69.1	X	11.7
Total Borrowings	109.0	96.5	15.4
Total Revenues and Borrowings	$ 7,162.6	$ 3,042.1	$ 117.3
Expenditures:			
Current Operations	$ 6,443.3	$ 2,707.0	$ 66.1
Equipment and Capital Outlay	234.9(s)	89.6	29.0
Debt Service:			
Principal	253.7	135.9	9.9
Interest	166.7	54.3	3.1
Transfer to Special Debt Service Funds	X	X	X
Total Expenditures	$ 7,098.6	$ 2,986.9	$ 108.1

(k) Total revenues excludes $6,672,000 in New York City unrestricted state and federal aid, which is the net change in estimate of their prior years' receivables.

(l) Total revenues and expenditures do not include financial transactions of the Health and Hospital Corporation (HHC) in New York City.

(m) Includes bond premiums and accrued interest for New York City.

(n) Does not include Tax and Revenue Anticipation and Budget Notes for Counties and Cities (excluding New York City).

(o) Includes borrowings for school purposes of Buffalo, Rochester, Syracuse and Yonkers.

(p) Does not include the borrowing of the Municipal Assistance Corporation on behalf of the City of New York.

(q) Due to changes in the accounting system, most counties no longer report unpaid school taxes as an expenditure. Counties' and cities' unified court costs included in this category are substantially less than in prior years due to the state's takeover of the unified court system. Other changes in the accounting system no longer require that provision for uncollected taxes be reported as an expenditure by counties, cities, double-entry towns, and double-entry villages.

(r) Includes only direct charges to the Capital Projects Funds.

(s) Does not include expenditures for equipment in the General Fund with the exception of the purchase of buses.

(t) Generally, bond anticipation notes redeemed from bond proceeds are no longer reflected as debt service expenditures for counties, cities, double-entry towns, and double-entry villages.

(u) Generally, principal payments made within enterprise funds are not reflected as an expenditure for counties, cities, towns, and villages.

(v) Principal also includes provision for future debt service in the amount of $107,961,000.

(w) Includes transfer to MAC Debt Service Fund in the amount of $367,000,000 and transfer to Lease Purchase and City Guaranteed Debt Service Fund in the amount of $84,867,000.

Note: Detail may not add to totals due to rounding.

Note: For definition of terms, see glossary.

Interest	539.8	1,026.4	1,206.3	1,119.5	1,167.5	966.4	939.1	1,015.6
Transfer to Special Debt Service Fund (N.Y.C. only)[1]	X	X	X	597.2	375.0	436.9	420.9	451.9
Total Expenditures	$18,160.8	$26,778.4	$27,937.0	$28,913.8	$28,963.0	$29,115.9	$30,890.8	$32,440.4

X Not applicable.

[1] For 1977 through 1979, only includes transfer to Municipal Assistance Corporation (MAC). For 1980 and 1981 includes transfer to MAC Debt Service Fund in the amount of $341,972,116 (1980) and $367,000,000 (1981) and transfer to Lease Purchase and City Guaranteed Debt Service Fund in the amount of $78,911,473 (1980) and $84,867,000 (1981).

(a) As a result of certain exchanges and payments to New York City, the Municipal Assistance Corporation (MAC) held $4.2 billion of New York City notes as of June 30, 1978. Pursuant to an agreement among the Unites States of America, the City, MAC, the State and the Financial Control Board, MAC surrendered $3.2 billion of such notes to the City in November, 1978 for cancellation without payment of principal or interest. In addition, the City and MAC entered into two agreements (during fiscal year 1979) which provided for the disposition of outstanding bond anticipation notes held by MAC.

(b) The State and Federally funded portion of the Medical Assistance program is not reflected in the State Aid, Federal Aid and Current Operations categories for New York City (1979 through 1981) and counties (starting in the latter part of fiscal 1979 for certain counties and continuing through 1982 to include all counties). Payments to vendors are now processed directly by the State through the Medical Management Information System (MMIS) for affected municipalities.

(c) Total revenues excludes $6,672,000 in New York City unrestricted state and federal aid, which is the net change in estimate of their prior years' receivables.

(d) Total Revenues and expenditures do not include financial transactions of the Health and Hospitals Corporation (HHC) in New York City.

(e) Due to changes in the accounting system, most counties no longer report unpaid school taxes as an expenditure. Counties' and cities' unified court costs included in this category are substantially less than in prior years due to the state's takeover of the unified court system. Other changes in the accounting system no longer require that provision for uncollected taxes be reported as an expenditure by counties, cities, double-entry towns, and double-entry villages.

(f) For 1976 through 1981, includes expenditures for equipment of counties, cities, towns, villages, and fire districts. In years prior to 1976 equipment expenditures for these classes of municipalities were included in Current Operations and Capital Outlay.

(g) Generally, bond anticipation notes redeemed from bond proceeds are no longer reflected as debt service expenditure for counties, cities, double-entry towns, and double-entry villages (applies only to 1979 through 1981 for villages).

(h) Principal also includes provision for future debt service in the amount of $15,962,240 for 1978 and $107,961,000 in 1981 for New York City.

(i) Generally, principal payments made within enterprise funds are not reflected as an expenditure for counties, cities, towns, and villages.

Note: Detail may not add to total due to rounding.

Note: See Table I-34 for types of Local Governments. Above figures are aggregates of all local entities.

Note: See the Glossary for Definition of Terms.

Yates	23,163	6,190	(a)	2,826	2,957	11,022	168

Note: Detail may not add to totals due to rounding.

[1] County and town data include special districts administered by those governments.

[2] Revenues of City University of New York are included in the New York City data. Revenues of the dependent school districts are included in 'School Districts' only as follows (in thousands): Buffalo $168,750; New York City $2,945,510; Rochester $144,972; Syracuse $81,609; and Yonkers $89,675.

(a) No municipal units of this type within the government listed.

(b) The five counties (boroughs) of New York City perform legal but not fiscal functions.

(a) Due to changes in the accounting system, most counties no longer report unpaid school taxes as an expenditure. Counties' unified court costs included in this category are substantially less than in prior years due to the state's takeover of the unified court system. Other changes in the accounting system no longer require that provision for uncollected taxes be reported as an expenditure by double-entry municipalities.

(b) Due primarily to a decrease in New York City's subsidy to the Health and Hospitals Corporation (HHC), this category is substantially less than the prior year. The actual expenditures of HHC are not included in this table.

(c) The State and Federally funded portion of the Medical Assistance program is not reflected in the Social Services Programs category for New York City (1979 through 1981) and counties (starting in the latter part of fiscal 1979 for certain counties and continuing through 1982 to include all counties). Payments to vendors are now processed directly by the State through the Medical Management Information System (MMIS) for affected municipalities.

(d) Does not include the water expenditures of New York City in 1978 through 1981. These expenditures are included in 'Sanitation.'

(e) Special district expenditures for 1976 through 1981 are included in the appropriate functional category or in 'All Other'.

(f) For 1977 through 1981 does not include transfers to the Municipal Assistance Corporation for the payment of interest on debt.

Note: This table includes expenditures of New York City which has installed a new accounting system. Therefore, certain functional categories for 1976 through 1981 may not be comparable with the corresponding data of prior years.

Note: Detail may not add to total due to rounding.

Note: This table includes expenditures of New York City which has installed a new accounting system. Therefore, certain functional categories for 1976 through 1981 may not be comparable with the corresponding data of prior years.

[1] In years prior to 1976, the detail includes payments for all applicable personal services, equipment and other expenses. Fringe benefits (with the exception of Education) are included under All Other unless the benefits were expended out of specific funds (i.e. water, sewer, library, hospital, etc.)

For 1976 through 1981, the detail includes payments for all applicable personal services and contractual expenses. Expenditures for equipment (except for certain equipment expenses in Education) are not included as in previous years. Employee benefits are included in All Other (with the exception of Education).

Expenditures for special districts in 1976 through 1981 are included in Public Safety, Sanitation, Highway and All Other. In previous years all expenditures for special districts were included in All Other.

[2] Includes equipment expenditures of school districts, except for the purchase of buses and equipment purchased in the Capital Fund.

(a) For 1976 does not include removal of snow and ice, and Transportation Administration-Highway Services, as in previous years.

(b) The State and Federally funded portion of the Medical Assistance program is not reflected in the Social Services Programs category for New York City (1979 through 1981) and Counties (starting in the latter part of fiscal 1979 for certain counties and continuing through 1982 to include all counties). Payments to vendors are now processed directly by the State through the Medical Management Information System (MMIS) for affected municipalities.

(c) Due to changes in the accounting system, most counties no longer report unpaid school taxes as an expenditure. Counties' unified court costs included in this category are substantially less than in prior years due to the state's takeover of the unified court system. Other changes in the accounting system no longer require that provision for uncollected taxes be reported as an expenditure by double-entry municipalities.

(d) Due primarily to a decrease in New York City's subsidy to the Health and Hospitals Corporation (HHC). this category is substantially less than the prior year. The actual expenditures of HHC are not included in this table.

(e) Does not include the water expenditures of New York City in 1978 through 1981. These expenditures are included in 'Sanitation'.

---

[1] County and town data include that for special districts administered by these governments.

[2] Expenditures of City University of New York are included in the New York City data. Expenditures of the dependent city school districts are included in 'School Districts' only as follows (in thousands): Buffalo $159,453; New York City $2,707,011; Rochester $133,744; Syracuse $72,612; and Yonkers $81,131.

(a) No municipal units of this type within the government listed.

(b) The five counties of New York City perform legal but not fiscal functions.

Note: Detail may not add to total due to rounding.

[1] Exemption data for 1980 is currently unavailable due to the installation of a new coding and reporting system.

[2] Magnitude of unknown exemptions was caused primarily by miscoded entries received during the initial periods of a new reporting system.

(a) Less than $500,000.

Note: The reader is advised to be aware that these figures can, at best, be used only as approximations - not only do levels of assessment vary from municipality to municipality, but exempt property is generally not as consistently or as frequently valued as is taxable property.

General Glossary of Budgetary and Financial Terms

Budgets

Executive Budget: Refers broadly to the structure and process of the constitutional system of budgeting in New York State, which vests most authority and responsibility for budget formulation and execution in the Governor. More specifically, the term refers to the Governor's constitutionally mandated annual submission to the Legislature containing his recommended program, expressed in dollar terms, for the forthcoming fiscal year. This annual submission is an overall plan of recommended appropriations and estimated cash disbursements necessary to carry out the program, together with estimates of cash receipts expected to be available to support the disbursements.

The Constitution requires submission of the Budget on or before the second Tuesday following the first day of the annual meeting of the Legislature (the first Wednesday after the first Monday in January), except in years following gubernatorial elections, when the Budget must be submitted by February 1.

Under the Constitution, the Governor may amend or supplement the Executive Budget within 30 calendar days after its submission or, with the consent of the Legislature, at any time before the close of the Session.

Supplemental Budget: A legislative supplemental bill that reflects, in part, the Governor's recommendations. As a multiple-appropriation measure, it is subject to item veto by the Governor.

Other Appropriation Measures: An appropriation bill may also be submitted through the regular legislative process; such a bill is subject to veto by the Governor. However, the Legislature must act upon the Governor's constitutionally mandated appropriation bills prior to acting upon any other appropriation bills, unless the Governor certifies as to the necessity of immediate passage of another appropriation bill.

Financial Plan

The Director of the Budget is designated by statute to act on behalf of the Governor in the exercise of certain of the Governor's constitutionally prescribed responsibilities. The Division of the Budget prepares a financial plan for each fiscal year that sets forth projections of State receipts and disbursements for the fiscal year that would result if the Legislature adopted the Executive Budget recommendations. Submission of a revised financial plan is now required (Chapter 405, Laws of 1981), as soon as practicable after the Executive Budget has been enacted. This plan is the basis for administration of the State's finances by the Budget Division. Chapter 405 also calls for quarterly updates of the Plan.

Through 1981-82, the plan reflected State General Fund activity. Since then, under the fund reclassification initiated by Chapter 405, it has reflected the receipts and disbursements of all governmental funds, and in 1983-84 will also reflect receipts and disbursements of certain funds outside the governmental funds category.

Fiscal Year

The State fiscal year runs from April 1 through March 31. The Federal fiscal year runs from October 1 through September 30. New York City and independent school districts in the State operate on July 1 through June 30 fiscal years. The calendar year is the fiscal year for all New York counties, towns and most cities. For most villages, the fiscal year runs from June 1 through May 31. Other cities and villages in New York State have varying fiscal years (see the State Comptroller's annual Special Report on Municipal Affairs).

Budget Funds

General Fund: This is the major operating fund of the State. It receives all State income not earmarked for the support of a particular program or activity and not specified by law to be deposited in another fund. State income for New York State financial plan purposes has consisted of monies deposited to the credit of the General Fund during the fiscal year from current revenues (taxes, fees and miscellaneous receipts including certain repayments of State advances) and transfers. General Fund income finances disbursements from its two operating accounts, (the Local Assistance Account and the State Purposes Account), and transfers to other funds.

Capital Projects Fund: Formerly the Capital Construction Fund component of the General Fund. Since 1982-83 it operates as a separate fund The Capital Projects Fund, together with all other funds within the capital projects fund type, finances:

—Planning, land acquisition, construction and equipment costs attributable to: highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects; buildings and other capital facilities required by various State departments and agencies;

—Aid payments to local governmental units and public authorities to help finance the following types of capital programs: highway; parkway; bridge; mass transportation; aviation; port development; community college; senior college; community and State mental hygiene; outdoor recreation; State-assisted housing; and environmental quality;

—Advances for capital construction costs reimbursable by public authorities, instrumentalities of the State, the Federal government, or local governments;

—Bonded State spending; and

—Spending from Federal capital grants.

Debt Service Fund: Beginning in 1983-84, all tax-financed State debt service on long-term debt and lease-purchase payments will be paid from debt service funds, which account for the accumulation of money for, and the payment of principal and interest on, general long-term debt. Lease-purchase payments for State University, Health, and Mental Hygiene facilities and for highway reconditioning and preservation purposes under contractual agreements with public authorities also will be paid from funds classified as debt service funds.

Tax Stabilization Reserve Fund: Prior to the 1982-83 fund reclassification, two operating funds, the Local Assistance Fund and the State Purposes Fund, had corresponding reserve funds for stabilization of tax revenues. At the end of each fiscal year, any unexpended balance in either of these operating funds was transferred to its complementary reserve fund. Either reserve fund could be drawn upon only to meet unanticipated deficits in its respective operating fund.

Appropriations, Obligations and Expenditures

An appropriation is a statuatory authorization against which liabilities may be incurred during a specific State fiscal year, and from which expenditures may be made, for the purposes designated, up to the stated amount of the appropriation. An appropriation represents maximum spending authority unless a lower maximum has been set by an expenditure ceiling. In New York State, all appropriations are classified in one of the four following categories:

—State Operations: Appropriations for the operation of State agencies, regardless of fund source. For example, an agency may have appropriations in several different fund types, and from many different funds (or accounts within funds), and all these appropriations would be categorized as "State Operations."

—Aid to Localities: All appropriations for aid to localities, regardless of fund source.

—Capital Projects: All appropriations for capital projects, regardless of fund source. It should not be confused with "Capital Projects" as a fund type, or with the Capital Projects Fund.

—Debt Service: All appropriations for tax-financed State debt service on long-term debt and lease-purchase payments for State University, Health and Mental Hygiene facilities and for highway reconditioning and preservation projects under contractual agreements with public authorities.

A deficiency appropriation is used to meet actual or anticipated obligations not foreseen when the annual and supplemental budgets were enacted and for which the costs would exceed available spending authorizations. It might add to a previously authorized appropriation or provide a new appropriation. A deficiency appropriation usually applies to the fiscal year during which it is enacted.

An advance is a payment by the State on behalf of an agency, authority, fund, public benefit corporation, or the Federal government that must be reimbursed by such entity. In the past, a first instance appropriation was used to authorize a disbursement of funds that ultimately was reimbursed. A first instance advance was either such an appropriation or an expenditure therefrom. Most State agencies formerly financed from first instance appropriations (e.g. the Banking and Insurance departments and the Public Service Commission) are now funded directly from the General Fund. Some are funded from special revenue funds, from enterprise or internal service funds.

A reappropriation is a legislative enactment that continues all or part of the unexpended balance of an appropriation that will otherwise lapse. Reappropriations are most commonly used for continued financing of capital projects that usually proceed from planning to completion over a span of several years.

An obligation is a commitment (such as a contract or purchase order) to spend against a given appropriation.

A carryover is the amount of an appropriation encumbered but remaining unspent (and not repealed or reappropriated) at the close of the fiscal year (i.e. on March 31) for which it has been appropriated. Expenditures may be made against such a balance only through the following September 15, to liquidate any outstanding obligation or commitment incurred against that appropriation during the preceding fiscal year.

A lapsed appropriation is an appropriation which has expired and against which expenditures may no longer be incurred.

Generally Accepted Accounting Principles (GAAP) for governments set forth uniform minimum standards and guidelines for financial accounting and reporting as promulgated by authoritative national standard-setting bodies, primarily the National Council on Governmental Accounting (NCGA) and the American Institute of Certified Public Accountants (AICPA). NCGA's "Statement One—Governmental Accounting and Financial Reporting Principles," published in 1979, is the most widely recognized source for authoritative guidance.

Governmental Funds: Under generally accepted accounting principles, this term describes a class encompassing four specific fund types: the General Fund, special revenue funds, capital projects funds, and debt service funds.

Special Revenue Funds: These funds account for State receipts from specific revenue sources, legally restricted in use to expenditure for specified purposes. This governmental fund type is divided into two classifications in New York State—State special revenue funds and Federal special revenue funds.

Glossary for Tables L-56 and L-57

Assessed Valuation of Real Property: The total valuation of real property on assessment rolls completed and extended for the levy of taxes in the respective fiscal years.

Taxable: That portion of the assessed valuation which is taxable for municipal purposes.

Taxable for Schools: The assessed valuation taxable for school purposes.

Exempt from Taxation: The assessed valuation exempt for general municipal purposes.

Outstanding Debt: The amount of unredeemed notes and bonds at the close of the fiscal year.

Constitutional Debt Limit: Calculated as a percentage of the five-year average full valuation of taxable real property of a municipality; the amount so calculated determines the maximum amount of non-excludable debt. The percentage is seven percent in villages, towns, and counties except in Nassau County where it is ten percent. For cities it is based upon the following percentages: New York City, ten percent; cities having 125,000 or more inhabitants, nine percent (including school debt); cities having less than 125,000 inhabitants, seven percent (excluding school debt). For school districts wholly or partly in cities of less than 125,000 population the limit is five percent.

Real Property Taxes: The total taxes levied on an ad valorem basis on real property within each municipality.

Nonproperty Taxes: Revenues from all nonproperty taxes imposed by or paid to the municipalities such as sales tax, consumers' utility tax, harness race admissions tax, and others.

Assessments: Collections for services whose costs are apportioned to real property on the basis of benefit.

State Aid: Receipts from the State for per capita revenue sharing, mortgage tax, social services, health services, mental health services, youth bureaus, urban renewal, housing subsidies, libraries, museums, community colleges, veterans' service agencies, highways, reforestation, probation services, and all types of State aid available to public schools and other programs.

Federal Aid: Receipts from the Federal Government for revenue sharing, public health, social services, reforestation, airports, hospital construction, public works planning, pollution control, civil defense equipment, urban renewal, and all types of Federal aid available to public schools.

Other Revenues: Receipts not otherwise classified, including revenues from special activities, licenses, permits, rentals, departmental fees and charges, sales, reimbursements, recoveries, fines, forfeits and other miscellaneous items.

Bonds: Proceeds of borrowings obtained by issuance of bonds.

Notes: Proceeds from bond anticipation notes, capital notes and other notes.

Current Operations: Expenditures (other than capital outlay and debt service) for all general costs of the municipalities.

Capital Outlay: Expenditures for the construction, improvement and acquisition of fixed assets, such as buildings, real property, highways, bridges, sewers, fire apparatus, acquisition of right-of-way, and instructional equipment.

Debt Service: The redemption of bonds and notes by payments of principal and interest on outstanding bonds or notes.

Glossary for Table L-59
State Aid Payments

Education: Includes aid to public schools, public libraries, City University of New York, and community colleges.

Social Services: Includes social services programs, juvenile detention, runaway and homeless youth, and care and treatment of court-involved youth programs.

General Purpose: Includes State-local revenue sharing program, mortgage tax, stock transfer tax, emergency financial aid to certain cities, Love Canal-tax abatements, tax maps, real property tax administration, in-lieu payments on State-owned property, and exempt industrial real property.

Health and Mental Health: Includes public health work, laboratory services, physically handicapped children, immunization of children, public nursing home construction, local mental health services-operating and capital costs, community residences for mentally disabled-operating and construction costs, and substance abuse services.

Highways and Transportation: Includes motor fuel tax, motor vehicle fees, town highway aid, town highway improvement program, safer local roads and streets program, mass transportation and aviation facilities, and Statewide mass transit operating assistance.

Environmental Control: Includes plans for sewerage studies, sewage treatment works construction, maintenance and operation, county and regional environmental management councils, construction of solid waste management facilities, and construction of air and water quality improvement projects.

Housing and Community Renewal: Includes housing preservation and development assistance, low-rent housing project subsidies, urban renewal project subsidies and capital grants, housing code enforcement, and comprehensive planning assistance.

Public Safety: Includes probation services, salaries of district attorneys, navigation law enforcement, snowmobile law enforcement, violent felony warrant enforcement, State felony court parts program, indigent parolee representation, major violent offense trial program, major offense police program, major offense prosecution/defense program, arson control and prevention, firefighting costs, code enforcement aid, and the "armor vests" program.

Community Services: Includes recreation for the elderly, foster grandparents program, community services for the elderly, veterans' service agencies, and youth bureaus, recreation and youth service projects.

Natural Resources: Includes reforestation, control of rabies in wildlife, county small watershed protection projects, land preservation and improvement projects, municipal wetlands restoration, and soil and water conservation.

Glossary for Table L-60
State Aid Payments

State-Local Revenue Sharing: Includes the per capita allocation only.

Education: Includes support of public schools, municipal colleges, community colleges school lunch and milk programs, aid to libraries, physically handicapped children, support to non-public schools, private colleges, private schools for the handicapped, adult recreation, and sheltered employment.

Social Services: Includes income maintenance, medical assistance, local administration, food program, buy-in procedure, all other assistance, and supplemental security income.

Health and Environment: Includes power generating revenue loss, public health work, laboratory service, rabies, physically handicapped children, sewage operations, nursing home construction, operation of medical clinics, sewage study grants, measles immunization, narcotics addiction control, family planning, environmental council, kidney disease research, and ambulatory care.

Mental Health: Includes community mental health operation and community mental health construction.

Highways and Transportation: Includes county and City of New York share of motor fuel tax, county and City of New York share of motor vehicle tax, town highway aid, town highway improvement program, mass transportation operating assistance, Long Island Railroad freight aid, and safer roads.

Housing and Urban Renewal: Includes housing subsidies, urban renewal grants, urban renewal subsidies, low rent assistance, and housing code enforcement.

All Other: Includes crime control planning, special program for detained inmates, Adirondack Park administration, indigent parolees and inmates, stock transfer incentive, rent control program (New York City), youth recreation, probation, rehabilitation of adolescents, judicial court expenses, watershed projects, veterans' services subsidy, Urban Development Corporation, navigation law enforcement, Natural Heritage Trust, Council on the Arts, office of planning assistance, district attorneys, lottery aid guarantee, municipal overburden, aid for tax maps, reforestation, flood recovery program (Urban Development Corporation), extension and public service, snowmobile law enforcement, services for the aging, Love Canal, tourism, local law enforcement cost, New York City gun control, fire fighting costs, special accidental death benefits, amateur boxing, "armored vests", New York City snug harbor, and national disaster area emergency aid.

1982

	Number of Contracts	Estimated Amounts
Total Issued	5,001	$624,213,267
Issued to small businesses[1] with New York State addresses	1,897	$246,826,819

[1] Self-identified.

Note: The estimated contract values shown do not take into consideration the variations in usage of contracts by the 4,000 non-State agencies eligible to participate in the program (cities, towns, villages, counties, private non-profit schools, etc.), the value of purchase instructions (usually involving procurements under the O.G.S. competitive bid limit),) which are not counted in the formal award record, the increase of contract value through escalation clauses contained in some term contracts, and the value of those state agency transactions which occur under O.G.S. guidelines. As a result the total estimated annual value of contracting is closer to $700,000,000 with the annual New York State small business share about $280,000,000.

Adirondack Park Agency

P.O. Box 99
Ray Brook, New York 12977
Theodore M. Ruzow, Chairman
Vincent J. Moore, Executive Director

Contact: Madelyn Mooney-Williams, Public Information Officer
(518)891-4050

The Adirondack Park Agency was created in 1971 according to the provisions of Article 27 of the Executive Law. It is an independent, non-partisan agency of the Executive Department of the State of New York. As outlined in its enabling legislation, the Agency functions to "insure optimum overall conservation, protection, preservation, development and use of the unique scenic, aesthetic, wildlife recreational open space, historic, ecological and natural resources of the Adirondack Park." Forty per cent of the land of the Park is Forest Preserve owned by the People of the State and is protected by Article XIV of the State Constitution which mandates that these lands "...be forever kept as wild forest lands."

The Adirondack Park Agency's regional planning and land use regulatory program involves the administration of the State Land Master Plan, as well as a Private Land Use and Development Plan for lands outside of State ownership. In addition, the Agency administers the State's Wild, Scenic and Recreational Rivers System on private lands in the Park and executes, within the Park, the functions assigned to the New York State Department of Environmental Conservation under the 1975 Freshwater Wetlands Act. Overall, the Agency functions to encourage the utilization of land in a manner consistent with the open space character of the Park. The Agency publishes an Annual Report which gives further details of its activities.

Advocate for the Disabled, Office of

Agency Building One, 10th Floor
Empire State Plaza
Albany, New York 12223
Frances G. Berko, State Advocate

Contact: Charles M. Lobosco, Associate Advocate
1-800-522-4369 (voice and TTY)
(518)473-4538 (voice only)
(518)473-4231 (TTY only)

As a systems advocacy agency, the Office of Advocate for the Disabled endeavors to make State and local government structures more responsive to the needs of disabled citizens. Its major responsibilities are: to inform the Governor, the Legislature, and State agencies on the current needs of the disabled; to participate in the formulation of innovative programs which can viably meet these needs; to assist disabled citizens and their families in formulating strategies to satisfy needs; and to assist local government, service providers, and other advocates in offering disabled citizens full participation in the community.

Aging, Office for the

Agency Building Two
Empire State Plaza
Albany, New York 12223
Eugene S Callender, Director

Contact: David L. Sutton, Senior Research Analyst (518)474-3362

The Office for the Aging has the responsibility of stimulating the development of federal, State, regional and local programs for the aging; administering, coordinating and operating such programs; and keeping older persons informed of the assistance available to them through guidance by its staff and through a program of public information and education for the individual older person and the community at large.

Under Executive Order 12 issued by the Governor in 1983, the Office for the Aging reviews and comments on the program and policy initiatives of the other State agencies which have significant impact on the aging. The purposes of the Executive Order are to assure that all State agencies give proper recognition to the special needs and circumstances of the elderly and to coordinate the policies of the many agencies with responsibility for programs for the aging.

Among the programs administered by the Office, under which financial assistance is available to public and private, non-profit agencies, organizations and institutions are: Title III-B (planning and coordination, demonstration, service and training programs) and Title III-C (National Nutrition Program for the Elderly) of the federal Older Americans Act of 1965 as amended; and the State-aided Community Service for the Elderly Program and the State-aided program for the operation of Senior Citizen Clubs and Centers.

The Office's general research and statistical responsibilities encompass the evaluation of programs and the collection of primary and secondary data descriptive of the aged, their needs and the services they receive; and the dissemination of this information via regular liaison with local offices for the aging, interested community groups, other State agencies and the Legislature.

The Office's Systems and Electronic Processing Unit regularly collects management information for monitoring and assessing services provided locally through the Older Americans Act programs.

Agriculture and Markets, Department of

State Office Campus, Bldg. 8, Room 800
Albany, New York 12235
Joseph Gerace, Commissioner

Contact: Glenn Suter, Director of Agricultural Statistics
(518)457-5570

The prime responsibilities of the Department of Agriculture and Markets are to insure that a wholesome supply of food reaches the consumers of the State and to encourage the growth of the State's agricultural industry.

Its activities include: the licensing of milk plants, slaughterhouses, refrigerated warehouses, processing plants, and feed and fertilizer manufacturers; the supervision of the State's laws pertaining to purity of foods, kosher foods, sanitation of milk and food processing plants, branding and labeling of feed, fertilizer and seeds, and enrichment of bread and flour; the inspection and grading of eggs, apples, and other farm products; the prevention and control of animal and plant diseases; the issuance of market price reports; and conducting the annual New York State Fair.

Frequency: Daily
Area covered: New York City
Published: 1918 to present

Alcoholic Beverage Control, Division of

250 Broadway
New York, New York 10007
Anthony V. Gazzara, Chairman

Contact: Anthony M. Papa, Chief Executive Officer (212)587-4192

The Division of Alcoholic Beverage Control (ABC) consists of the State Liquor Authority and the local Alcoholic Beverage Control Boards. It is the responsibility of the Division to regulate and control the manufacture, sale, and distribution of all alcoholic beverages within the State.

The duties of the State Liquor Authority include: the issuance of licenses and permits for the sale and manufacture of alcoholic beverages at the wholesale and retail levels; the inspection of premises where alcoholic beverages are manufactured or sold; and the control over the number and type of such licenses, as determined by public convenience and advantage.

Local ABC Boards in New York City or each county recommend to the Authority whether or not to issue or revoke retail licenses. County boards also may further restrict retail sales hours.

The Annual Report of the State Liquor Authority includes data on types of licenses in effect, disciplinary actions taken, and other activities. These data are available by county and, in some cases, by town.

Alcoholism and Alcohol Abuse, Division of

194 Washington Avenue
Albany, New York 12210
Robert A. Ross, Acting Director

Contact: Edward J. DeFranco, Assistant Director for Evaluation and Information Services (518)474-6424

The Division of Alcoholism and Alcohol Abuse became an autonomous State agency on April 1, 1978 as a result of the reorganization of the Department of Mental Hygiene (Chapter 978, Laws of 1977). Within the provisions of the law, the Division assumed complete responsibility for the policy, planning, budgeting, management, and implementation of the State's alcoholism and alcohol abuse programs.

The Division, with advice of the Advisory Council on Alcoholism and Alcohol Abuse, plans, promotes, establishes, coordinates, and conducts programs in prevention, education, early intervention, diagnosis, treatment, rehabilitation, aftercare and training in the alcoholism field.

The Division assists local government and the voluntary sector in developing alcoholism services. It develops, promulgates and enforces certification, inspection, licensing, and treatment standards for alcoholism facilities, and is charged with the responsibility of presenting credentials to alcoholism counselors.

The Division of Alcoholism and Alcohol Abuse also directly operates alcoholism services, primarily inpatient rehabilitation, located on the campuses of 13 State psychiatric centers.

A Research Institute on Alcoholism, located in Buffalo, conducts biomedical and psychosocial research as a branch of the Division of Alcoholism and Alcohol Abuse.

Statistical Series:

Annual Statistical Report of Alcoholism Services in New York State
Frequency: Annually, Calendar Year
Published: 1983 to present

Statistical Summary for Inpatients at State-Operated Alcoholism Services

Audit and Control, Department of

(Office of the State Comptroller)
Governor Alfred E. Smith Office Building
Albany, New York 12236
Edward V. Regan, Comptroller

Contact: Joseph Hilton, Director of
Municipal Research and Statistics (518)474-3687

The Department of Audit and Control, under the elected State Comptroller, is responsible for auditing State expenditures and collections of revenues and receipts, and for activities relating to State debt, investments and cash management. In addition, the Office has overall supervision of the fiscal affairs of local governments. Its Division of Municipal Affairs examines and audits local accounts and fiscal records, prescribes uniform systems of budgeting and accounting, reviews the annual financial reports required to be filed by local governments, reviews the annual budgets of municipalities subject to Constitutional tax limitations, and approves the formation of all special districts.

Statistical Series:

Annual Report of the Comptroller: Contains State Fiscal Data summarizing income, expenditures, debt, transfers and balances for all State treasury funds on a fiscal year basis. Income shown by source (various taxes and miscellaneous revenues); expenditures by agency and object; debt by type and purpose; investments by fund and type.
Frequency: Annually
Area covered: New York State
Published: 1798 to present

Financial Data for School Districts: Contains School District Fiscal Data. Summary data from annual financial reports covering revenues (real property taxes, non-property taxes, State and Federal aid, other revenue); expenditures (current operations, capital outlay, debt service principal and interest); other data (number of enrolled pupils, assessed and full valuation of taxable real property, real property tax levies, outstanding debt).
Frequency: Annually
Areas covered: School districts and counties of New York State.
Published: 1957 to present

Real Property Tax Rates, Overall: Individual and aggregate assessed and full value real property tax rates for all local taxing jurisdictions imposed within each city, town and village.
Frequency: Annually
Areas covered: counties, cities, towns, villages, and school districts of New York State.
Published: 1971 to present

Municipal Affairs, Special Report of the Comptroller on: Summary data for municipalities compiled from annual financial reports showing revenues, expenditures, borrowings and indebtedness. Also included are Constitutional tax and debt limit information, assessed valuation of taxable real property, population and land area.
Frequency: Annually
Areas covered: counties, cities, towns, villages, school districts and fire districts of New York State
Published: 1907 to present

State Aid to Local Government: Narrative description of each current State Aid program including trends in aid payments.
Frequency: Annually
Area covered: New York State
Published: 1953 to present

Banking Department

Two World Trade Center
New York, New York 10047
Vincent Tese, Superintendent

Contact: Carmen J. Carlo, Research Director (212)488-2334

The major responsibility of the Banking Department is to administer the laws relating to State-chartered financial institutions. These institutions include commercial banks (State banks, trust companies, and private bankers), savings banks, savings and loan associations, licensed lenders, credit unions, agencies and branches of foreign banking institutions, safe deposit companies, investment companies, sales finance companies, insurance premium finance agencies, transmitters of money, licensed cashers of checks, budget planners, and mortgage bankers. The Department carries out its responsibilities by licensing or chartering, examining, and supervising these institutions. All such regulated institutions (except sales finance companies) are required to file periodic financial reports. Certain types of institutions (commercial banks, savings and loan associations, savings banks, credit unions, and foreign agencies and branches) may operate under either State or Federal charter, with the Banking Department supervising only those which it charters.

Separate "spread sheets" for trust companies, other commercial banks, savings banks, and savings and loan associations are published periodically. These contain statements of assets and liabilities for the individual institution supervised by the Department.

Statistical Series:

Closed Institutions: Unclaimed deposits or dividends held by the Superintendent of Banks, by individual institution, amount paid to claimants and balance unclaimed.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1922 to present

Investment Companies supervised by Department: Assets (including loans and investments by major types), liabilities (including deposits and funds borrowed from banks), and capital accounts by individual institution.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1920 to present

Licensed Lenders: Assets (including loans receivable by size, security, etc.), liabilities (including notes and loans payable), and capital accounts by individual institution.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1925 to present

Mutual Trust Investment Companies: Assets (including investments), liabilities (including income distribution payable), and capital.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1976 to present

Principal Banking and Lending Facilities: Total assets of commercial banks, savings banks, savings and loan associations, licensed lenders and credit unions, and number of institutions and offices, for State and federally-chartered institutions.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1948 to present

Safe Deposit Companies: Assets (including cash and investments), liabilities (including notes and loans payable), and capital accounts by institution.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1892 to present

State-Chartered Commercial Banks: Assets (including investments and loans by major types), liabilities (including major types of deposits), and capital accounts by institution. Data as of December 31, plus at least one other date during the year.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1851 to present

State-Chartered Credit Unions: Assets (including loans and investments by major types), liabilities (including members' shares), surplus and reserve accounts, by institution.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1921 to present

State-Chartered Foreign Financial Institutions: Assets (including loans and investments) and liabilities (including amounts due to head office, foreign banks and customers) of New York agencies and branches of foreign banking corporations. Aggregated separately for agencies and branches.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1959 to present

State-Chartered Savings and Loan Associations: Assets (including loans and investments by major types), liabilities (including members' shares), surplus and reserve accounts, by institution. As of December 31, and selected quarterly dates.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1920 to present

STATE-CHARTERED SAVINGS BANKS

Assets (including investments and loans by major type), liabilities (including deposits by major type), and surplus accounts by individual institution.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1857 to present

Assets (including cash and investments by major type), liabilities (including various reserves and unearned accounts) and surplus accounts of life insurance departments, by department of each issuing savings bank.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1940 to present

Summary of Receipts and Disbursements of Life Insurance Departments: Operating income and expenses related to insurance operations; dividends for policy holders; net gains from operations after taxes.

Published: 1977 to present

Income and Expense by Major Types: Income from investments and earnings; administrative expenses and interest on loans.
In: Annual Report of the Superintendent of Banks
Frequency: Annually
Area covered: New York State
Published: 1977 to present

Budget, Division of the

State Capitol
Albany, New York 12224
Michael Finnerty, Director

Contact: Robert P. Kerker, Deputy Chief Budget Examiner
(518)474-6335

The Division of the Budget, as the fiscal staff agency of the Governor, is responsible for the preparation of the *Executive Budget*, including the development of the State's Financial Plan, and for the execution of the Budget throughout the year.

Estimates of State receipts by source and recommended appropriations and disbursements for the coming fiscal year are published annually in the Governor's *Budget Message*, issued in January. This publication also includes revised estimates for the current fiscal year, actual figures for the preceding year, and information on State debt and special funds.

The *Budget Summary*, usually published in the autumn, contains similar financial data for the State, reflecting the first six months' experience of the State fiscal year and actions taken by the Legislature subsequent to the enactment of the Budget.

The Division also assembles data analyzing and comparing intergovernmental financial and program statistics to reflect the State's position relative to its localities, other States, and the Federal government.

Business Permits, Office of

Governor Alfred E. Smith Office Building
Albany, New York 12225
Joseph Valenti, Executive Director

Contact: Thomas Adams, Director of Program Planning and Administration (518)473-7957

The New York State Office of Business Permits (OBP) facilitates the growth and expansion of business in New York State by assisting new or expanding businesses in obtaining applicable permits required under State law. OBP counsels business people on prospective projects through informational meetings with representatives of involved State agencies and the experience of its own staff of former business people. It offers Permit Assistance Kits (PAKS), which are tailored to the individual business person and include all information pertinent to his/her own project. The Office also offers the most comprehensive data base of updated and accessible permit information in the country.

OBP has stimulated New York's economy significantly. With its assistance, over 1,800 new businesses have been started, which otherwise might have found the paperwork involved in obtaining permits an insurmountable deterrent. Over 29 million dollars in State revenues have been generated by OBP-assisted businesses. OBP's methods and efficient storage of data have been models for similar programs in other states. The Council on State Governments has selected OBP as one of the three most innovative and progressive government programs.

The Office catalogs and stores data on all State permits in its Directory of Permits. It publishes an Annual Report which includes statistics on its clientele by type of business, showing revenues generated for the State, plus business inquiries by region with quarterly State trends.

Central New York Regional Transportation Authority

One Centro Center
200 Cortland Avenue
Drawer 820
Syracuse, New York 13205
Richard D. Grossman, Chairman
Warren H. Frank, Executive Director

Contact: Albert Babinicz, Director of Marketing (315)471-2100

The Central New York Regional Transportation Authority (RTA) currently serves three counties surrounding Syracuse in New York State, and is mandated to serve four others if the need arises. A new Garage/Office complex completed in Summer, 1983 has been designed to house both the CNY Centro fleet and that of a private coach line. A school education program, "The World of Transportation," has been adopted for use elsewhere in the United States, and other innovative marketing ideas have been introduced with private enterprise, including an offer of McDonald's fast-food discount coupons with multi-journey tokens, and a bank-financed bus guide and system map. A dial-a-ride system was introduced in 1973 and is coordinated and partially subsidized with other community organizations.

Children and Families, Council on

Empire State Plaza
Tower Building - 28th Floor
Albany, New York 12223
Joseph Cocozza, Executive Director

Contact: Robert Ingalls, Director, Research and Program Evaluation Unit (518)474-8072
Lorraine Noval, Director, Information Services Unit (518)473-3655

The New York State Council on Children and Families was established in 1977 to develop "more efficient organization and operation of the State/local, public/voluntary system of social, educational, mental health and other supportive and rehabilitative services to children and families..." through coordinating children and family services of State and local agencies. The Council is chaired by the Secretary to the Governor, with the commissioners or directors of all major State human services agencies as members.

The Council collects various types of data in the course of its research and policy-analysis activities. The new Statewide Children and Youth Interagency Management Information System (CYIMIS) will provide aggregate statistical summaries of children in care under the auspices of the Department of Social Services, the Division for Youth, the Office of Mental Health, the Office of Mental Retardation and Developmental Disabilities, and the State Education Department. To better manage and assess interagency child care, the Interagency Management and Planning Information Service (IMPIS) has also been established.

The Council staff continues to collect information on handicapped individuals who become too old for services designed for children and who may require adult care. In addition, the Out of Home study continues to investigate the legal, medical, and domestic issues associated wih placement of children in residential care facilities. Other projects of note include two new studies: The State of the Child in New York State, a county/regional profile of children and families; and Critical Factors Affecting Families' Decisions to Place Developmentally Disabled Children, a study whose goal is to evaluate which services are most appropriate for differing family needs.

Evaluation of the Office of Mental Health, as well as interagency preventive services and projects, continues. The Council also coordinates the transfer of children in Social Services facilities who would more appropriately be placed under the care of the Offices of Mental Health or Mental Retardation and Developmental Disabilities.

Civil Service, Department of

State Office Building Campus
1220 Washington Avenue
Albany, New York 12239
Karen S. Burstein, President, Civil Service Commission

Contact: Karl E. Felsen, Public Relations Officer (518)457-6221

The State Civil Service Commission is responsible for adopting and modifying rules governing civil service matters, as well as hearing and determining appeals on examination qualifications and ratings, position classifications, pay grade determinations, disciplinary actions, and the use of preferred lists, and ruling on the retention and hiring of personnel beyond the mandatory retirement age. The Commission also oversees the operations of municipal civil service commissions.

The State Department of Civil Service is the central personnel agency for departments and agencies in the Executive branch of State government. It also provides technical service and assistance to improve the performance of local civil service agencies. The Department is responsible for recruiting and testing applicants for the State government work force, as well as for testing candidates for promotion within the State service. The Department determines the titles, salary levels, and qualification requirements for positions in the classified service of the State and is the lead agency for Affirmative Action in the State work force. It also provides examination, classification and other services to municipal civil service commissions outside of the City of New York. In addition, the Department administers health, dental, accident, and life insurance programs and provides various services concerning the health, training and performance of State employees.

Commerce, Department of

One Commerce Plaza
Albany, New York 12245
William J. Donohue, Commissioner

Contact: William Grainger, Principal Statistician (518)474-1161

The Department of Commerce is responsible for the promotion of business and industry in New York State. In line with this, the Department conducts research, compiles statistics and publishes information on various aspects of the State's economy.

Among the Department's regular publications are a quarterly and an annual summary of business statistics (including an Index of Business Activity), a monthly report on business trends, an annual fact book on business, and an annual report on personal income. The Department also issues Research Bulletins and is able to make certain data available by computer.

The Commerce Department prepares a number of New York State maps in various sizes: a county outline map; counties and county seats; cities and incorporated villages over 1,000 population; cities and incorporated villages over 10,000 population; population concentrations; industrial concentrations; a physical map and a tourism map.

State Data Center

New York State Department of Commerce
One Commerce Plaza
Albany, New York 12245

Contact: Leonard Gaines, Program Research Specialist (518)474-6005

New York State is participating in the State Data Center Program established by the U.S. Bureau of the Census. The purpose of this program is to provide improved access to the extensive data files available from nationwide censuses which collect and process information on a wide range of topics, at various levels of governmental or geographic subdivisions.

The New York State Data Center provides services to state and local governments, business and industry, educational institutions, nonprofit organizations and individuals. These services are provided through a network of Affiliate Data Centers located throughout the entire state. The Affiliates, along with public, academic and research libraries, provide data access and statistical services at the local level. The State Data Center also prepares the State's Official Population Projections and Annual Population Estimates.

The sources of information include the Decennial Census of Population and Housing, Economic Censuses, the Census of Agriculture, the Census of Governments and a variety of periodic and special surveys conducted by the U.S. Bureau of the Census. Much of the data is available on computer tape and microfiche as well as in printed reports.

Comptroller, Office of the State

see Audit and Control, Department of

Consumer Protection Board

99 Washington Avenue
Albany, New York 12210
Richard M. Kessell, Deputy Executive Director

Contact: Jeffrey P. Weinstock, Director of Public Information (518)474-1471

The State Consumer Protection Board consists of: the Chairperson of the Public Service Commission; the superintendents of Banking and Insurance; the commissioners of Agriculture and Markets, Environmental Conservation, Commerce and Health; the Secretary of State; and the Executive Director of the Board.

The Board has not functioned since May of 1975, when it vested its powers in the Executive Director. The agency is empowered to: conduct investigations; receive and refer consumer complaints; intervene in proceedings before the Public Service Commission; recommend new laws and amendments of laws for consumer protection; coordinate the activities of all State agencies performing consumer protection functions; and initiate and encourage consumer education programs.

Publication:

New York State Consumer Resource Directory: 60-page book detailing consumer agencies and resources by county.

Correction, Commission of

60 South Pearl Street
Albany, New York 12207
J. Kevin McNiff, Chairman
Ward DeWitt, Executive Director

Contact: Peter D. Komarinski, Director, Office of Program and Policy Analysis (518)474-8768

The State Commission of Correction (SCOC) oversees all correctional facilities in New York State. Its goals are: to ensure humane treatment of inmates; to improve operations and programs in correctional facilities; and to improve its own functions as a corrections overseer. In light of these goals, the Commission investigates problems and issues in correctional practices, establishing and enforcing standards for safe, sanitary, and orderly settings for both staff and inmates in the State of New York (State, Counties, Towns, Villages, New York City, and other Cities). It offers technical assistance to administrators and training services for personnel. The Commission approves and, when appropriate, assists in the development of new construction. It also serves as a central repository for information on the correctional system in New York State.

Three Commissioners head the agency: a Chairperson and two others who chair the Citizens' Policy and Complaint Review Council and the Correction Medical Review Board, respectively. The Citizens' Council monitors grievances in county facilities and provides an avenue for citizen participation in the development of the Commission's policies and programs. The Correction Medical Review Board monitors medical and psychiatric services in correctional facilities as well and investigates deaths occurring among inmates.

In accordance with its goals, the Commission also makes recommendations to the Governor and, through him, to the Legislature, for the improvement of the corrections system in New York State.

Correctional Services, Department of

State Office Campus
Albany, New York 12226
Thomas A. Coughlin III, Commissioner

Contact: Henry C. Donnelly, Director of Records and Statistical Analysis (518)457-6458

The Department of Correctional Services is responsible for the care, custody, treatment and rehabilitation of all offenders sentenced to its 40 institutions located throughout the State. It meets these responsibilities by maintaining secure custodial care of committed offenders and by providing program offerings to committed offenders in a variety of activities so that they may prepare themselves for a productive role in society upon release. The Department publishes summary statistics annually on the social and legal characteristics of offenders under its jurisdiction and movement of offender populations. In addition, the Department publishes a series of research studies annually. An annotated listing is available on request.

Statistical Series:

Inmates Discharged, Characteristics of: Statistical data on characteristics of inmates such as crime of commitment, ethnic group, age, education, and county of commitment.

Court Administration, Office of

80 Centre Street
New York, New York 10013
S. Michael Nadel, Deputy Chief Administrator

Contact: Ida Zamist, Senior Management Analyst (212)587-5900

The Judiciary is one of the three branches of government. Article VI of the State Constitution establishes a unified court system, defines the organization and jurisdiction of the courts, governs the manner of selecting and removing judges, and provides for the administrative supervision of the courts by a Chief Administrator of the Courts, on behalf of the Chief Judge of the Court of Appeals.

The function of the courts is to provide a forum for the fair and prompt resolution of civil claims and family disputes; criminal charges and charges of juvenile delinquency; and disputes among citizens and governmental units. The courts also supervise the management of trusts and estates; determine the sufficiency of wills, adoptions and divorce applications, and other similar matters required to be submitted to them. They provide legal protection for children, mentally ill persons and others entitled by law to the special protection of the court. They regulate the admission of lawyers to the Bar and their conduct and discipline.

The New York State court system is one of the largest and busiest in the Western World. There are approximately 1,000 full-time and 2,500 part-time judges and over 10,000 nonjudicial employees. Pursuant to the Unified Court Budget Act of 1976, the cost of operating the unified court system, excluding town and village courts, has been borne entirely by the State since April 1, 1980.

The jurisdiction of each court is established by Article VI of the Constitution or by statute. Generally, misdemeanors, violations, and minor civil matters are within the jurisdiction of the trial courts of lesser jurisdiction. These courts are also responsible for presiding over arraignments and other preliminary proceedings in felony cases. Some city courts have jurisdiction over civil matters only, some over criminal matters only, and others over both. District courts, which replace town courts, have been established in Nassau County and in the five western towns of Suffolk County.

The Supreme Court, which functions in the eleven judicial districts of the State, is the Statewide trial court for civil actions. In New York City and some other parts of the State, the Supreme Court also exercises jurisdiction over charges of felonies.

The Court of Claims has jurisdiction over civil claims against the State.

There are three county-level courts. The County Court in counties outside New York City has jurisdiction over all felonies once arraignment and other preliminary proceedings are completed in the lower courts, and over indictments returned by a grand jury. In all but a few counties, it has jurisdiction over civil matters involving claims of up to $10,000. The Family Court has jurisdiction over offenses by juveniles, offenses within the family, and support and other proceedings involving child welfare and the family. The Surrogate's Court has jurisdiction over the probate of wills and the administration of estates. Both Family Court and Surrogate's Court have jurisdiction over adoptions.

The Civil Court of the City of New York has jurisdiction over civil actions involving amounts of $10,000 or less and other civil matters referred to it by the Supreme Court. The Criminal Court of the City of New York has jurisdiction over misdemeanors and violations and conducts arraignments and preliminary hearings in felony cases.

There are four Appellate Divisions of the Supreme Court, one in each of the State's four judicial departments. Judicial departments consist of one or more judicial districts. The Appellate Divisions hear appeals concerning civil and non-felony criminal cases. In the First and Second Departments, appellate terms have been established to hear appeals in criminal cases originating in the Criminal Court of the City of New York and the County Courts and civil and criminal cases originating in district, city, town, and village courts. In the Third and Fourth Departments, appeals from city, town, and village courts are heard in the County Court.

The Court of Appeals, the State's highest court, hears cases on appeal from the other appellate courts and in some instances from the courts of original jurisdiction. In most cases, its review is limited to questions of law. The Court also has jurisdiction to review administrative determinations in judicial disciplinary proceedings.

Ancillary services to the courts include the State Board of Law Examiners, attorney disciplinary programs and professional services such as the Mental Health Information Service, law guardian programs for the Family Court and the assignment of counsel to indigent adult defendants.

The Office of Court Administration provides the administrative services required to support all court and auxiliary operations. These include personnel and budget administration, management planning operations, educational programs for judges and nonjudicial personnel, court information services, and equal employment opportunity programs. Counsel's Office prepares and analyzes legislation, and provides legal assistance to the Chief Administrative Judge.

Crime Victims Board

875 Central Avenue
Albany, New York 12206
Ronald A. Zweibel, Chairman

Contact: Paul Hudson, Counsel to the Board (518)457-1193

The Crime Victims Board was created in 1966 under Article 22 of the Executive Law. This agency reimburses innocent victims of violent crimes (or the victims' families) who are injured, disabled, or killed as a result of those criminal acts. Awards made by the Board are intended to reimburse the claimant for out-of-pocket unreimbursed medical expenses and/or earnings, and, in the event of death, to reimburse the eligible claimants for their out-of-pocket unreimbursed funeral expenses and/or loss of support. In addition to financial assistance, referrals for vocational rehabilitation programs are made available to all disabled crime victims.

The Crime Victims Board has been designated by the Legislature as the victim advocate to champion the rights of the crime victims. In addition, the Board has been provided funds by the Legislature to award grants to locally based crime victim programs throughout the State.

Victim/claimant data, as well as workload statistics, are published yearly in the Annual Report of the Crime Victims Board. It is available by calling or writing to the address above.

Criminal Justice Services, Division of

Executive Park Tower
Stuyvesant Plaza
Albany, New York 12203
Richard J. Condon, Commissioner

Contact: Richard A. Rosen, Office of Program Development and Research (518)457-3724

The goal of the Division of Criminal Justice Services is to increase the effectiveness and vitality of the criminal justice system in New York State. This is accomplished through the following four major programs: the Office of Identification and Data Systems (IDS); the Bureau for Municipal Police (BMP); the Office of Program Development and Research (OPDR); and the Office of Prosecution Defense and Support Services (PDSS).

The Division's goals and objectives are: to advise and assist the Governor in developing policies, plans and programs for improving the criminal justice system; to conduct criminal justice research and monitor program effectiveness; to act as a central repository for research studies and information relating to the administration of criminal justice; to act as the official State Planning agency and prepare, evaluate and revise Statewide juvenile delinquency prevention plans; to receive and disburse funds from the federal government on behalf of the Crime Control Planning Board; to establish a central data facility with a communication network serving qualified agencies throughout the State; to receive, process, and file fingerprints, photographs and other descriptive data; to recommend and promulgate a minimum basic training course for police and peace officers; to provide training to prosecutors and public defense attorneys; to develop Statewide crime prevention programs and monitor grants; and to administer and monitor the nonjudicial components of the State Felony Court Program and other programs.

Statistical Series:

Crime and Justice Annual Report: Offense and arrest data, indictment disposition, and sentence information reported by the courts, probation, corrections, parole, the Crime Victims Board, police, and district attorneys.
Frequency: Annually
Published: 1975 to present

Dormitory Authority of the State of New York

Normanskill Boulevard
Elsmere, New York 12054
George D. Gould, Chairman
Christopher H. Richmond, Executive Director

Contact: Peter Schultz, Deputy Executive Director, Construction (518)474-4261

The Dormitory Authority of the State of New York plans, monitors, and conducts construction of classroom, office and dormitory facilities for the City University of New York, the State University of New York, independent colleges, and the Boards of Cooperative Educational Services, as well as hospitals and Department of Health facilities. In addition, the Authority promotes the maintenance and rehabilitation of completed projects. Clients' cost, size, and quality objectives are met through project management, engineering, design, construction, purchasing, interior design, and legal services. The Urban Affairs Group of the Authority encourages the participation of minority workers, professionals, and firms in Authority projects. Statistics covering finances for a given year are published in an Annual Report.

Education Department

State Education Building
Albany, New York 12234
Gordon M. Ambach, Commissioner

Contact: John J. Stiglmeier, Director, Information Center on Education (518)474-8716

The Education Department has over-all coordinating responsibility for all public and private systems of elementary, secondary, and higher education in the State and provides oversight and technical assistance to New York's museums, libraries, historical societies, and historic records repositories. Additionally, it administers the New York State Museum, the New York State Library, and the New York State Archives, as well as several smaller cultural programs. The Department's Information Center on Eduation provides comprehensive statistical information on request and through a variety of standard periodic publications.

The Information Center on Education also plots long-term trends in elementary and secondary enrollment, number of schools and school districts, instructional classrooms, high school graduates, school revenues and expenditures, higher education enrollments, degrees awarded, and in many other areas of interest. Projections are made of public and nonpublic school enrollments as well as high school graduates; in addition, higher education enrollment projections are made by the Office of Postsecondary Research, Institutional Studies and Institutional Aid.

The New York State Archives, an office of the Education Department, appraises, acquires, preserves, and makes available for reference historically valuable records from all three branches of State government. Operational since 1978, the Archives houses nearly 35,000 cubic feet of material dating from c1640 to 1982, with additional records acquired at a rate of approximately 5,000 cubic feet per year. Most of the records in the Archives are on paper—loose files, bound volumes, parchment, maps, architectural blueprints, photograph prints, computer printouts-as well as microfilm, photograph negatives, videotapes and audiotapes.

Elections, State Board of

P.O. Box 4
One Commerce Plaza
Albany, New York 12260
R. Wells Stout, Chairman
Thomas W. Wallace, Executive Director

Contact: Thomas Wilkey, Public Relations Officer (518)474-1953

The State Board of Elections, created in 1974 by an act of the New York State Legislature, has responsibility for the administration and enforcement of all election laws including campaign finance disclosure.

The Board certifies candidates for the ballot, prepares the form and content of ballot issues, and tabulates the vote for State offices for submission to the State Board of Canvassers.

The Board has extensive oversight functions with respect to local boards of election. It directs and monitors administrative procedures, promulgates rules and regulations and adopts uniform forms prescribed by the Election Law.

The State Board also investigates all violations of the Election Law and, if it finds reasonable cause to believe that a violation warranting criminal prosecution has occurred, it refers the case to the District Attorney of the county in which the offense took place.

With respect to campaign finance disclosure, the Board is the filing office for all financial statements relating to candidates for State office. As such, it audits the statements and refers violators to District Attorneys, or obtains fines through civil proceedings. The Board also issues advisory opinions and establishes accounting procedures.

Employee Relations, Office of

Agency Building Two
Empire State Plaza
Albany, New York 12223
Thomas F. Hartnett, Director

Contact: Ronald L. Tarwater, Public Information Officer (518)473-8766

The Office of Employee Relations (OER) negotiates labor contracts with the State employee unions covering Executive Branch employees. It is the Governor's representative in collective bargaining negotiations, and negotiates the "management" side for ten different employee bargaining units. In addition, it advises agencies on contract interpretation and personnel policies; facilitates ongoing communication between unions and the government; and trains State employees in the field of employee relations. The Office also reviews grievances due to contract interpretations and represents the State before the Public Employment Relations Board.

OER is active in promoting legislation to improve employee relations. The Office's Research Unit compiles data necessary for negotiations, while its Division of Management/Confidential Affairs offers benefits and training to policy and contract-making officials who, by law, are barred from union representation.

OER maintains copies of labor contracts with the ten units under its jurisdiction, as well as data pertaining to its programs, cases reviewed, negotiations, and recommendations to the Governor and agencies.

Energy Office

Agency Building Two
Empire State Plaza
Albany, New York 12223
William D. Cotter, Commissioner

Contact: Martin W. Schultz, Energy Research Analyst IV (518)474-1338

The New York State Energy Office (SEO), was created in 1976 and charged with a broad range of responsibilities and specific duties: developing and implementing energy policies; maintaining energy supplies; encouraging conservation and accelerating the development and use of renewable energy sources.

The SEO is responsible for developing New York's energy initiatives in policy development and planning, and coordinating the State's response to national energy policy initiatives, as well as administration of a broad range of conservation programs.

In 1978, the Energy Law was amended to broaden SEO's mission to mandate the preparation of a draft State Energy Master Plan (SEMP) and a draft Long-Range Electric and Gas Report to be approved by an Energy Planning Board.

The SEMP process provides the forum for debate and refinement of overall State energy policies, fuel supply plans, and recommendations for specific legislative and administrative actions.

The Office administers a comprehensive conservation effort directed to all information, outreach, technical assistance, code implementation, and financial assistance programs for: residential energy conservation; institutional buildings energy conservation; industrial commercial and trasportation conservation; and energy codes and standards. In addition, the Office has developed and supported a series of renewable resource legislative initiatives which have removed important barriers and are now incentives to renewable resource development.

Statistical Series:

Consumption/Supply/Prices: New York State energy profile and forecast of energy consumption/supply/prices by sector/fuel type and end-use. Also includes historic energy statistics.

Environmental Conservation, Department of

50 Wolf Road
Albany, New York 12233
Henry G. Williams, Commissioner

Contact: Edward S. Feldmann, Associate Director for Information Services (518)457-3720

When the Department of Environmental Conservation was created in July, 1970, it marked the beginning of a new approach to environmental problem solving by bringing together all State functions for environmental protection and resource management.

The Department is charged with detecting and controlling sources of land, air and water pollution, as well as protecting and managing New York's fish, wildlife, forests, and other natural resources. Another mandated role of the Department is to inform and educate the public about the environment.

The operations of the Department create a large volume of data, the majority of which is not presented in journal publication. Research booklets have been issued but they are technical in nature and are not designed for those unfamiliar with the particular subject matter covered.

Statistical Series:

Accidents, Hunting: Number of injuries and fatalities with breakdown by cause.
Available from: Division of Law Enforcement
Frequency: Annually
Area covered: New York State
Published: 1914 to present

Air Quality Monitoring: Detailed data on air content, as measured at the various air monitoring sites throughout the State.
Available in: Various publications prepared in the Bureau of Program Engineering
Areas covered: Individual monitoring sites
Published: 1958 to present

Big Game Take: Calculated annual legal take of deer and bear based on sample data from field checking stations, public freezer locker plants, and take reports from licensed big game hunters.
Available from: Bureau of Wildlife
Frequency: Annually
Areas covered: counties of New York State
Published: 1949

Commercial Finfish, Shellfish, and Crustacean Landings: Take by species, from marine waters of New York State; recent data give breakdown by selected major waterways.
Available from: Division of Marine Resources

Frequency: Annually
Area covered: New York State
Published: 1895 to present

Disposal Sites, Solid Waste: Data on conditions prevailing at individual land disposal sites.
Available from: Division of Solid Waste Management
Frequency: Periodically
Areas covered: Individual sites. County and State summaries also available.
Published: (summaries) 1965 to present

Fish Stocking: Number of fish stocked by New York State by species and, recently, by body of water.
Available from: Bureau of Fisheries
Frequency: Annually
Areas covered: New York State and/or counties of New York State
Published: 1895 to present

Forest Fires: Number of fires, acres burned, and estimated loss due to fires in State forest lands.
Areas covered: New York State and/or counties of New York State
Frequency: Annually
Available from: Bureau of Forest Protection and Fire Management
Published: 1895 to present

Hunting, Fishing, and Trapping Licenses: License sales by type.
Available from: Division of Fish and Wildlife
Frequency: Annually
Areas covered: New York State and counties
Published: 1918 to present (State); 1964 to present (counties)

Land Acquisition: Lists of all lands acquired by Department with summaries by purpose (Forest Preserve, Reforestation, Public Fishing Rights, Wetlands, etc.)
In: Annual Reports of the Department
Frequency: Annually
Areas covered: counties of New York State
Published: 1885 to present

Marine Water Quality: Detailed data on the bacterial levels as measured at locations throughout the marine region.
Available from: Bureau of Shellfisheries, Division of Marine Resources
Areas covered: waters of the marine region
Published: 1960 to present

Mining Operations: Acreage affected by mining, acreage reclaimed, type of mine and minerals being mined.
Available from: Division of Mineral Resources
Frequency: Annually
Area covered: New York State
Published: 1978 to present

Noise Quality Monitoring: Detailed data on noise levels, as measured at locations throughout the State.
Available from: Bureau of Technical Services
Areas covered: individual sites
Published: 1973 to present

Nursery Tree Distribution: Number of trees sold by New York State by species and county where planted.
Available from: Bureau of Forest Resource Management
Frequency: Annually
Areas covered: counties of New York State
Published: 1908 to present

Oil and Gas Operations: Volume produced and estimates of underground reserves.
Available from: Bureau of Mineral Resources
Frequency: Annually
Area covered: New York State
Published: 1966 to present

Public Use of Forest Recreation Facilities: Volume of use of public recreational facilities in the State Forest Preserve, by individual facility.
Available from: Bureau of Recreation Operations
Frequency: Annually
Area covered: New York State
Published: 1926 to present

Radiation Surveillance, Annual: Detailed radiation data on air, water, milk, silts, fish, and wildlife as measured at the various sampling sites throughout the State.
In: Annual Report of Environmental Radiation in New York State
Frequency: Annually
Areas covered: individual monitoring sites throughout the State with emphasis on major nuclear facilities
Published: 1959 to present

Radiation Surveillance, Quarterly: Detailed radiation data on air, water, milk, silts, fish, and wildlife as measured at the various sampling sites throughout the State.
In: Environmental Radiation Bulletin
Frequency: Quarterly
Areas covered: individual monitoring sites throughout the State with emphasis on major nuclear facilities
Published: 1959 to present

Sewage Treatment Facilities: Data on various aspects of sewage treatment plant design, management, and operation, by individual facility, and by regional summary.
Available from: Division of Pure Waters
Frequency: Annually
Area covered: individual facility
Published: (summaries) 1965 to present

Solid Waste Disposal: Breakdown of costs of collection, disposal, and street cleaning in each county, by cities, towns, and villages.
Available from: Division of Solid Waste Management
Frequency: Annually
Areas covered: New York State and counties
Published: 1965 to 1970

Wastewater Management
(see Sewage Treatment Facilities, above)

Water Quality Surveillance: Detailed data on water content, as measured at the various water monitoring sites throughout the State.
Available from: Division of Pure Waters
Frequency: Annually
Areas covered: individual monitoring sites
Published: 1963 to present

The Conservationist: The Department's official magazine, with articles covering all phases of environmental concern and natural resource management. Subscription requests should be addressed to: The Conservationist, P.O. Box 1500, Latham, New York 12110.
Frequency: Bi-Monthly

New York State Environment: A newspaper which provides timely and essential information on environmental programs and laws affecting State and local government. It is available free by writing to: N.Y.S. Environment 50 Wolf Road, Room 505, Albany, New York 12233.
Frequency: Bi-Weekly

Environmental Facilities Corporation

50 Wolf Road
Albany, New York 12205
Terence P. Curran, Executive Director

Contact: Diana M. Hinchcliff, Executive Assistant (518)457-4222

The New York State Environmental Facilities Corporation (EFC) is a public benefit authority established under Chapter 744 of the Laws of 1970 as a reconstitution and continuation of the New York State Pure Waters Authority. EFC works in partnership with New York State's municipalities and private industry to implement environmental projects.

EFC is empowered to plan, finance, design, construct, maintain, operate and render advisory services in connection with authorized projects, including wastewater treatment works and collecting systems, air pollution control facilities, water management facilities, storm water collecting systems, solid waste disposal facilities (including resource recovery facilities), and industrial hazardous waste treatment, storage and disposal facilities.

EFC is also empowered to provide loans to private industry to finance authorized projects. These loans are funded with the proceeds of EFC's special revenue bonds, the interest on which is tax-exempt, thus resulting in lower cost, long-term financing for industry.

Since 1981, EFC has implemented the Industrial Materials Recycling Program which provides technical assistance and waste exchange information to industries that wish to reduce or recycle their industrial and hazardous wastes.

EFC is governed by a Board of Directors consisting of the Commissioner of Enviornmental Conservation (Chairman and Chief Executive Officer), the Commissioner of Health, the Secretary of State, and four members appointed by the Governor for six-year terms.

Equalization and Assessment, State Board of

Agency Building Four
Empire State Plaza
Albany, New York 12223
David Gaskell, Executive Director

Contact: Peter Wissel, Director of Real Property Tax Research (518)473-4216

The State Board of Equalization and Assessment's prime responsibility is to establish equalization rates (ratio of assessed to market value of real property) for all counties, cities, towns, and villages in New York State. Among its other activities, the Board: establishes assessments on special franchise of public utilities, certain railroad property, and taxable State-owned property; certifies the amount of per capita State aid to be paid to localities; certifies values of agricultural lands which provide the basis for tax exemptions of qualified farm lands; conducts research in the field of property tax assessment and taxation; administers the State functions assigned in the Assessment Improvement Act of 1970 including training of local assessing personnel, development of a mass appraisal system and development of a real property tax information system; and advises local and State officials on property tax problems.

Field Offices in Batavia, Garden City, Newburgh, Saranac Lake and Syracuse provide information and technical assistance to local officials.

Legal services to State and local officials include legal opinions and advice, and review of State Legislation affecting property tax administration.

Statistical Series:

Agricultural Assessments, Establishment of Final Use Values for
Available from: Bureau of Property Valuation

Facilities Development Corporation

44 Holland Avenue
Albany, New York 12208
Joseph F. Crook, Executive Director

Contact: Lawrence O'Kane, Public Information Officer (212)593-7861

The Facilities Development Corporation has jurisdiction over all Department of Mental Hygiene facilities and is responsible for meeting the Department's needs for facility procurement, design and construction.

The Corporation is authorized by statute to provide design and construction services to the Department of Correctional Services and to certain Health Department programs; and also, to provide design and construction related services to municipalities.

A five-member Board of Directors governs the Corporation. Three members of the Board, including the Chairman, are appointed by the Governor with the advice and consent of the Senate. The Commissioner of Health and the Chairman of the Department of Mental Hygiene Interagency Coordinating Council are also members.

Statistical Series:

Architectural and Construction Program, Annual Report of: Summary of number and value of projects in design, construction or completed, categorized by client agency served; cumulative totals since 1964; detail of cost, architect, contractors on projects currently underway; Corporation financial statements.
Frequency: Annually
Area covered: New York State

General Services, Office of

Corning Tower
Empire State Plaza
Albany, New York 12242
John C. Egan, Commissioner

Contact: Paul LaVigne, Bureau of Administrative Analysis
(518)474-7883

The Office of General Services, created in 1960 as part of the Executive Department, is responsible for the development and the administration of a wide variety of operations required to support State agencies and provide services to the general public.

Agency operations include: operating and maintaining State-owned office buildings and grounds; directing operations for the planning and utilization of State-owned and leased real property; designing and supervising the construction of new State buildings and the rehabilitation of existing State buildings; establishing purchasing contracts for materials, supplies, and equipment for State agencies and participating local governments; and providing centralized services to State agencies and, in some cases, localities. These services include: telecommunications; data processing; distribution of surplus foods and disposal of surplus personal property; provision of food products to various State institutions; provision of laundry services to various State institutions; management of the State automotive fleet operations; records storage; mail and messenger service; offset printing and reproduction; and employee parking.

Health, Department of

Corning Tower
Empire State Plaza
Albany, New York 12237
David Axelrod, Commissioner of Health

Contact: Marjory Scarlet Simmons, Health Publications Editor, (518)474-8431

The New York State Department of Health is responsible for safeguarding the health of New York's residents. To accomplish this effectively, the Department is organized into two major program units: the Office of Health Systems Management and the Office of Public Health.

The Office of Health Systems Management (OHSM) is responsible for assuring that quality medical care is available to all New York residents regardless of where they live or their ability to pay. The Department, through OHSM, has direct authority over all health care institutions in the State covered by the Public Health Law, including hospitals, nursing homes, diagnostic and treatment centers and many home care providers. To protect the welfare of patients, the State certifies all health care institutions and sets standards governing nearly every aspect of health facility operation.

Ensuring that limited health care dollars are prudently spent and administering programs to keep the cost of health care services within affordable limits are other primary goals of OHSM. In carrying out these mandates, OHSM develops reimbursement methods and sets the rate each health facility will be paid for services to patients covered by Medicaid. Those rates form the basis for Medicare, Blue Cross, Workers' Compensation and No-Fault Insurance rates. OHSM also audits health facility costs and charges and reviews the financial implications of health facility construction and expansion. Finally, OHSM is responsible for statewide planning to assure that State health care resources are efficiently allocated.

The Office of Public Health (OPH) is responsible for preserving the health of New York residents through education, research, and prevention of accidents and diseases. Many of the programs administered by OPH are aimed at enhancing child growth and development through early prenatal care, newborn screening, supplemental foods for pregnant women and children, immunization, school health programs and teen counseling. Other activities focus on occupational health hazards and the potential health threat of toxic contaminants in our environment. Still others are geared toward combatting communicable diseases through continued monitoring of drinking water purity and restaurant sanitation, and through follow-up investigation of hospital infections and sexually transmitted disease cases.

Research is a major function of the Office of Public Health. Clinical, laboratory and epidemiological studies are focused on such public health problems as birth defects, kidney disease, health manpower needs, toxic effects of chemical substances and radiation, sexually transmitted diseases and cancer. Other research efforts aim to improve laboratory testing methods, expand our understanding of the body's basic biosystems or reverse deterioration of our lakes and streams.

OPH monitors the need for skilled health professionals throughout the State and identifies underserved areas for training support programs. It also oversees the medical conduct of physicians and takes disciplinary action against individuals who violate the law. Finally, OPH is responsible for maintaining records of every birth, death, marriage and divorce that occurs in the State, and for protecting the confidentiality of those records.

Statewide Planning and Research Cooperative System (SPARCS)

Department of Health
Corning Tower, Room 2282
Empire State Plaza
Albany, New York 12237

The Statewide Planning and Research Cooperative System (SPARCS) receives, stores and processes inpatient data from all general hospitals in New York State. It is a unified, comprehensive health care information network that supports and links, through integrated data, the statutory functions of resource planning, financing and surveillance of hospital services throughout the State.

The SPARCS Bureau also processes special requests for data. These data reports are available for cost of production.

Statistical Series:

Hospital Utilization Report by Diagnosis Related Group (DRG): Number of discharges and average length of stay for each hospital with comparative statistics by county, and Health Systems Agency.
Frequency: Annually
Area covered: New York State

SPARCS Report Series: Selected statistical tables and findings and a description of the SPARCS System.

Higher Education Services Corporation

99 Washington Avenue
Albany, New York 12255
Dolores E. Cross, President

Contact: Dennis Cabral, Vice-President for Research & Policy Analysis (518)474-8336

The New York State Higher Education Services Corporation (HESC) was established by the State Legislature to provide centralized administration for government-sponsored postsecondary student financial aid. The Corporation administers a variety of grant, scholarship, special award, and loan programs for students in postsecondary education.

HESC is governed by a Board of Trustees composed of the Commissioner of Education, the Chancellor of the State University, the Chancellor of the City University of New York, four students, and six others who are appointed by the Governor with the advice and consent of the Senate. The chief operating officer of the Corporation is the President, who oversees two major program divisions (grants and loans), as well as several centralized support divisions.

The Corporation's annual operating budget is allocated through the Governor's Executive Budget. Approximately 60 percent of the HESC budget is funded through the use of federal administrative allowances associated with the guaranteed education loan programs.

HESC publishes an Annual Report containing statistics of applications for aid and awards. Further statistical information, literature on the student aid programs administered by the Corporation, and the Annual Report may be obtained from the Division of Research and Policy Analysis.

Housing and Community Renewal, Division of

Two World Trade Center
New York, New York 10047
Yvonne Scruggs-Leftwich, Commissioner

Contact: Charles F. Hogg, Director, Public Information Bureau (212)488-7114

The Division of Housing and Community Renewal maintains statistics on all programs in which it participates—State-aided low-rent public housing, limited-dividend and limited-profit housing, urban renewal assistance, neighborhood park land acquisition, rent control and building construction code adoption. Housing statistics are maintained by project and construction status (completed, under construction), with details on the number of apartments, size of building, density, development and construction costs, rents, and subsidies. The Division also maintains data on bonds issued for housing projects of the New York State Housing Finance Agency.

These data are published semi-annually in Statistical Summary of Programs, as of June 30 and December 31. In addition, monthly supplements are issued as of the last day of the other months.

Statistical Series:

Construction Activity in New York State: Number and dollar of new housing units, public and private, by type; dollar value of all construction, by type. Monthly data for current year and comparable month of previous year; cumulative data for year-to-date. Data based on building permits issued by municipalities throughout State.
Frequency: Monthly
Area covered: New York City and suburbs; upstate areas
Published: 1950 to present

Housing Finance Agency

Three Park Avenue
New York, New York 10016

Contact: Leila Zogby, Public Information Officer (212)686-9700

The New York State Housing Finance Agency (HFA) was established in 1960 under Article III of the Private Housing Finance Law. Its purpose was to raise capital through the sale of tax-exempt securities to provide housing for families and persons of low and moderate income. Since then, the Legislature has expanded HFA's powers and provided over $9 billion in debt authorization to finance non-profit hospitals and nursing homes, municipal health facilities, State University and Mental Hygiene facilities and community related projects such as day care and senior citizens centers, and facilities for the mentally ill and mentally retarded. As of October 31, 1982, HFA had financed nearly $7 billion in projects. HFA also serves as the administrative arm of its sister agencies, the Medical Care Facilities Finance Agency (MCFFA), the Project Finance Agency (PFA), and the Municipal Bond Bank Agency. An Annual Report is published each year on January 29th.

Human Rights, Division of

Two World Trade Center
New York, New York 10047
H. Carl McCall, Commissioner

Contact: Ronni B. Silett, Director, Management Information and Analysis (212)488-7313 Preston Israel, Director, Program Analysis and Research (212)488-7313

The Division of Human Rights is charged with working toward the elimination and prevention of unlawful discriminatory practices based upon race, creed, color, national origin, age, sex, disability, marital status, and arrest and conviction records. Division jurisdiction extends to the areas of employment, employment training, housing, public accommodations, non-sectarian tax-exempt educational institutions, extension of credit, real estate board and volunteer fire company membership, and commercial practices involving boycotts or blacklisting.

The Division is also responsible for developing policies and programs such as Affirmative Action to promote human rights objectives throughout the State.

Division Management Information and Research activities include the analysis of socio-economic and statistical data relevant to the execution of the agency's programs. The Division publishes an Annual Report containing statistics on such areas as complaints filed and renewed, actions taken by the agency, and categories of discrimination, as well as pamphlets and other literature that inform the public on discrimination issues and rights under the law.

The Division may, on its own impetus, initiate formal complaint proceedings in instances where investigations uncover unlawful discriminatory practices.

Insurance Department

Two World Trade Center
New York, New York 10047
James P. Corcoran, Superintendent

Contact: Wayne B. Cotter, Assistant Director of Research
(212)488-4177

The Insurance Department supervises the fiscal and market conduct of the business of insurance companies, agents, brokers, adjusters and associated organizations licensed in New York State. The Department's responsibilities include licensing and examinations; regulation of insurance rates, policy forms and provisions; servicing of complaints and inquiries; qualification, licensing and regulation of insurance agents, brokers, adjusters and bail bond agents; and rehabilitation and liquidation of insurers.

Statistical Series:

Accident and Health Insurance, Summary Data

Labor, Department of

State Office Campus
Albany, New York 12240
Lillian Roberts, Commissioner

Contact: Gordon Jackson, Acting Director, Office of Public and Employee Communication (518)457-6330
Angelo Massa, Director, Division of Research and Statistics (518)457-6181

The Department of Labor fosters peaceful relations between employers and employees; establishes and enforces certain standards to ensure public and occupational safety and health; provides facilities for arbitration, mediation, and other means of peacefully settling labor disputes; establishes and/or enforces regulations governing minimum wages, hours, and working conditions; and administers social insurance programs of unemployment insurance, workers' compensation, and disability benefits.

The Department of Labor also administers the Job Service Division (which includes the New York State Employment Service) and the Unemployment Insurance Division. Under its unemployment insurance program, the Department of Labor pays jobless benefits to as many as several hundred thousand claimants each week, and collects taxes from more than 400,000 firms to finance this benefit program.

The more than 150 Local Job Service offices are part of a nationwide chain of employment offices across the country. Among the services they offer are counseling, testing, job development and placement, and government-sponsored training programs for the unemployed and underemployed. In recent years, the Job Service has been implementing several new manpower programs aimed at improving the employability of applicants who lack job skills.

The Department's Division of Research and Statistics collects, analyzes and publishes statistics on the Department's operations, conducts research on and evaluates program proposals and operating programs, and publishes a wide variety of statistical and analytical information relating to the economy of the State and its areas.

Statistical Series:

Collective Bargaining Settlements: Data on settlements which affect 50 or more workers, including amount of increase provided by settlements, in terms both of cents per hour and per cent of wages, and fringe benefits by type of benefit.

Lottery, Division of

Swan Street Building
Empire State Plaza
Albany, New York 12223
John D. Quinn, Director

Contact: George J. Yamin, Director of Public Relations
(518)474-2037

The New York State Division of the Lottery was established by Chapter 94 of the Laws of 1976 as an independent division of the Department of Taxation and Finance to operate the New York State Lottery.

Record Lottery sales of $648.6 million in Fiscal 1982-83 raised an historic high of $282.1 million for New York State. It was the greatest year in New York's 17 years of Lottery operations, since tickets first went on sale in June, 1967.

The Lottery offers three kinds of games. These include: DAILY NUMBERS/WIN 4 games, in which players select three and four digit numbers; LOTTO, a weekly pick-your-own numbers game in which the player selects six numbers from the numbers of 1 to 40; and INSTANT games, in which the player scratches off the coverings over individual boxes appearing on tickets.

Lottery revenues are earmarked for the support of local education. Presently, 45 percent of LOTTO and INSTANT sales and 35 percent of DAILY NUMBERS/WIN 4 sales go to support education. A brochure listing the individual payments made to the more than 700 local school districts is available upon request to the Lottery.

The Lottery is organized into three bureaus: Administration, responsible for finance, personnel, ticket receipts, production, distribution, drawings and prize payments; Operations, responsible for the three major game operations marketing and sales, advertising and promotion, and new game planning; and Planning and Data Processing, responsible for data processing systems, data processing operations, and game development and planning. There are five regional offices, located in New York City (Two World Trade Center); Williston Park, Long Island; Albany, Syracuse, and Buffalo. The Division also has staff units including Security, Counsel and Public Relations.

Medical Care Facilities Finance Agency

Three Park Avenue
New York, New York 10016

Contact: Leila Zogby, Public Information Officer (212)686-9700

The New York State Medical Care Facilities Finance Agency (MCFFA) was established in 1973 to provide capital financing primarily for non-profit hospital and nursing home projects through the issuance of tax-exempt securities. It is authorized to issue $2 billion in notes and bonds. As of October 31, 1982, MCFFA had granted over $780 million in mortgage loans to finance 15 hospital and 11 nursing home projects. An Annual Report is published every April 29th.

Mental Health, Office of

44 Holland Avenue
Albany, New York 12229
Steven E. Katz, M.D., Commissioner

Contact: Abbott S. Weinstein, Director, Analytical Services (518)474-3451

The Office of Mental Health is charged with the execution of the Mental Hygiene Law as it pertains to the mentally ill of all ages. It has the responsibility for developing comprehensive plans, programs and services in the areas of research, prevention, care, treatment, rehabilitation, education and training of the mentally ill. Services are provided by facilities operated, certified and/or funded by the Office which also provides forensic services for the courts and agencies concerned with criminal procedures.

The Office has professional jurisdiction and control over 31 adult and children's psychiatric centers as well as two mental health research institutes. The Office is also charged with controlling the quality of services given to the mentally ill in local and voluntary programs. Operating certificates are required from the Office of Mental Health for such facilities.

The Office issues an Annual Report as well as the publications listed below. Further detailed crosstabulations are available upon request.

Statistical Series:

PATIENTS OR CLIENTS SERVED

Patients in and admitted to State and children's psychiatric centers, including numbers of patients at the end of the month and movements during the month, for each center.

Arthur Y. Webb, Commissioner

Contact: Matthew Janicki, Director, Bureau of Program Research and Planning (518)474-4904
Anne Hanley, Assistant Director, Bureau of Information Services, User Services (518)474-8404

Established in 1978, the Office of Mental Retardation and Developmental Disabilities (OMRDD) became an independent agency when legislation reorganizing the Department of Mental Hygiene became effective in October, 1979. The Agency is directed by a Commissioner appointed by the Governor with confirmation required by the New York State Senate.

Current Federal practice is not to restrict access to developmental disabilities funding simply to neurological conditions, but to permit the use of a functional impairment definition which is more expansive. This has permitted states to interpret and use definitions for various impairments which impede normal growth and development. New York State law specifically identifies a number of disabling conditions to be included within the focus of services of OMRDD. These include the more severe forms of autism, cerebral palsy, epilepsy, mental retardation, and other neurological impairments.

Developmental Disabilities Services Offices (DDSO)—or, in the case of New York City, Borough Developmental Services Offices (BDSO)—serve one or more counties each, and are responsible for: the operations of a developmental center providing institutional care to those localities; organizing and implementing community residential and day programs; and joint planning with local government for the provision of services to their populations. DDSO/BDSO, in conjunction with a State-aided local system of care, are the units responsible for actually delivering services to OMRDD clients.

The Division of Quality Assurance has taken on increasing responsibilities as OMRDD is required to provide regulation and certification for a growing system of private as well as State services. The Division of Program Operations manages and provides technical direction in the day-to-day provision of services, and maintains a program of capital projects and support systems such as laundry, transportation, safety, and security.

Statistical Series:

Clients Treated in State Developmental Centers: Number of residents, admissions, and movements by age, sex, marital status, mental level for each center.
Frequency: Annually
Area Covered: State

Metropolitan Transportation Authority

347 Madison Avenue
New York, New York 10017
Richard Ravitch, Chairman
David Z. Plavin, Executive Director

Contact: Arthur G. Perfall, Assistant Executive Director, Public Affairs (212)878-7178

The New York State Legislature created the Metropolitan Transportation Authority (MTA) in 1965 to operate the Long Island Rail Road. Since that time, MTA has expanded to oversee and operate public transportation systems in New York City and Nassau, Suffolk, Westchester, Rockland, Putnam, Dutchess, and Orange Counties, serving a population of 11.4 million.

A top MTA priority is to obtain funds to speedily and effectively improve the condition of the subway, bus and commuter line service. In 1982, MTA embarked on a massive $7.2 billion Five Year Capital Improvement Program to begin restoring its transit systems.

Because of this Program, the projects developed for New York City transportation are: the manufacture of new air conditioned subway cars and buses; subway station modernization; upgraded car maintenance facilities; security programs for trains, stations, and yards; and construction of new bus depots.

For commuter lines, the Program provides for: the purchase of new rail cars and locomotives; modernization of car maintenance facilities; and improvements to signals, power substations, yards, and terminals.

The legislation that provided the funding mechanisms for the Capital Program created several new capital sources for MTA. The result is an unprecedented commitment to fund the needs of public transportation, never before undertaken in New York State or anywhere else in the nation.

Metropolitan Transportation Council

Suite 82 East
One World Trade Center
New York, New York 10048
William M. Wheeler, Staff Director

Contact: Lawrence V. Hammel, P.E., Assistant Staff Director (212)938-3341

The New York Metropolitan Transportation Council is an organization of State, locally elected officials and operators of public transportation facilities. Organized on July 1, 1982, the Council is responsible for coordinating the transportation planning process in the ten county area comprising the counties of Nassau, Putnam, Rockland, Suffolk, and Westchester, and the City of New York.

The Council's activities include: fulfillment of State and Federal transportation planning mandates; provision of information and technical services among NYMTC member agencies and other requestors; and preparation of travel-related forecasts for the several modes of personal transportation.

The Council has been designated by the Governor as the official metropolitan planning organization (MPO) for the downstate area and, as such, carries out its responsibilities through transportation coordinating committees which were established to express local policies and programs. Each year these committees: develop and update the Transportation Improvement Program—a five-year program of transportation projects to be implemented with available funds; prepare and maintain operational and capital improvement plans; and monitor the performance of transportation systems.

Motor Vehicles, Department of

Swan Street Building
Empire State Plaza
Albany, New York 12228
John A. Passidomo, Commissioner

Contact: Frank J. Conley, Director, Division of Research and Development (518)474-3207

The major objective of the Department of Motor Vehicles is to develop and administer an effective highway safety program in New York State with emphasis on driver and vehicle safety.

The Department maintains an extensive program of recording, reporting and analyzing motor vehicle accidents in the State. Excluded are property damage only accidents involving under $400 damage to any one person. This limit has been in effect since 9/1/78. Previously the limit was $200 (1/70-9/78),and prior to that $150 (1/65-1/70). Accident data are available by geographic area and summaries are published annually. These data are extensively used for evaluating the safety aspects of the Department's programs.

The Department is responsible for: the registration of resident motor vehicles, including snowmobiles and motorboats; the examination and licensing of motor vehicle operators; the control and remedial training of operators evidencing poor driving performance; the inspection and evaluation of the safety condition of motor vehicles; the collection and analysis of motor vehicle conviction information; and the management of the compulsory financial security program. Each of these functions has a contributory role in the Department's larger responsibility for promoting automotive traffic accident prevention in the State.

Most other data available involve the Department's operations, such as the number of driver's license suspensions and revocations, by reason, and the number of vehicles inspected, with detailed results.

Statistical Series:

Motor Vehicle Accidents: Data are aggregated and categorized by a number of variables including date, severity, location, driver characteristics, vehicle type, etc.

Municipal Bond Bank Agency

3 Park Avenue
New York, New York 10016

Contact: Leila Zogby, Public Information Officer (212)686-9700

The State of New York Municipal Bond Bank Agency (MBBA) was established in 1972 to offer municipalities an alternate method of selling their general obligation bonds. MBBA is authorized to issue up to $1 billion in notes and bonds and use the proceeds of these sales to purchase bonds of eligible municipalities. Municipalities throughout the State have been canvassed on four occasions to determine their interest in using MBBA's financial services. Each survey has indicated insufficient interest.

Niagara Frontier Transportation Authority

181 Ellicott Street
Buffalo, New York 14205
John F. Downing, Executive Director

Contact: Kenneth C. Kruly, Director of Administration and Finance (716)855-7279

Created by an Act of the New York State Legislature in 1967, the Niagara Frontier Transportation Authority is a multi-purpose authority charged with the responsibility for developing air, water, and surface transportation in Erie and Niagara Counties, and with the further objective of formulating and putting into effect a unified mass transportation policy for Erie and Niagara Counties. The Authority owns and operates the Greater Buffalo Internatonal Airport, Niagara Falls International Airport, the Port of Buffalo, the Metropolitan Transportation Center in Buffalo, and the Niagara Frontier Transit Metro System in Erie and Niagara Counties. Statistics on operations and finances are included in the Annual Report of the Authority.

Parks, Recreation, and Historic Preservation, Office of

Agency Building One
Empire State Plaza
Albany, New York 12238
Orin Lehman, Commissioner

Contact: Robert A. Anderson, Director of Planning and Research (518)474-0414

The Office of Parks and Recreation has responsibility for coordinating programs in New York State which relate to recreation and heritage conservation. This Office, with the guidance of the State Council of Parks and Outdoor Recreation, the New York State Board for Historic Preservation, and the Regional Park Commissions, operates the State Parks System and State Historic Sites. Parks and Recreation has the responsibility for the development, update and implementation of Statewide recreational and historic preservation plans. The Office also conducts special recreation service programs to complement local activities, and is responsible for the administration of several State and Federal grants-in-aid programs designed to aid in municipal recreational facility development and land acquisition projects, historic site preservation, and the implementation of marine and snowmobile legislation. The Marine and Recreational Vehicles Division of Parks and Recreation administers the motorboat and snowmobile education, safety, law enforcement, navigation aid programs, and aid to localities.

Parks and Recreation maintains: revenue and attendance records for State parks; inventories of public and private recreation facilities and historic properties on the National Register of Historic Places; and projections and estimates of recreation participation. A Statewide inventory of public and private historic, architectural, and archaeological resources is currently under way.

Statistical Series:

Marine and Recreational Vehicles, including Snowmobiles: Data on accidents, arrests, fines and forfeitures; information on rules and regulations.
Frequency: Annually
Area covered: New York State
Published: 1960 to present (Navigation); 1971 to present (Snowmobiles)

State Park Attendance: Attendance and revenues derived from State park and historic facilities by individual park or site.

Parole, Division of

97 Central Avenue
Albany, New York 12206
Edward R. Hammock, Chairman
Edward Elwin, Executive Director

Contact: Walter V. Collier, Director, Evaluation and Planning Unit (518)473-5198

The Division is responsible for the community supervision of offenders released from prison by action of the Parole Board or by conditional release as mandated by the Legislature. The Division publishes summary annual statistical studies on: the social and legal characterisics of offenders under its jurisdiction; movement of parolee populations; Parole Board hearings and dispositions; and parolee delinquency rates.

Pursuant to Article 12-B of the New York State Executive Law, the Division of Parole was created as a State agency in the Executive Department on January 1, 1978. From January 1, 1971 to December 31, 1977, Parole was part of the State's Department of Correctional Services.

Statistical Series:

Parolee Characteristics: Data on characteristics such as age, ethnicity and crime of conviction.
In: Annual Statistical Report
Frequency: Annually
Area covered: New York State
Published: 1934 to present

Follow-up of Parolees: Summarized movement statistics, characteristics of parolees, and delinquency rates.
Area covered: New York State
Published: 1969 to present

Summary Parole Data: Statistics on inmate releases to parole, parole discharges and parolee characteristics.
In: Annual Statistical Report
Frequency: Annually
Area covered: New York State
Published: 1934 to present

Other Publication:

The Parole Revocation Process: The parole revocation process in New York State is the subject of this report. Much attention is given to the "statistics" of revocations as an indicator of recidivism. The statutory authority for revocations, the due process rights of a parolee, and the decision-making procedure are described.

Port Authority of New York and New Jersey

One World Trade Center
New York, New York 10048
Peter C. Goldmark, Jr., Executive Director

Contact: Sidney J. Frigand, Public Affairs Director
(212)466-7777 or (201)622-6600, ext. 7777

The Port Authority of New York and New Jersey was formed in 1921 by the Port Compact between the States of New York and New Jersey to develop and operate facilities of transportation and commerce in the Port District, a region including New York City and surrounding suburban counties in New York and in northern New Jersey.

The Port Authority maintains and operates La Guardia Airport and Kennedy and Newark International Airports, the World Trade Center, several major marine terminals, bridges, bus terminals, tunnels, heliports, Bathgate Industrial Park, and the Port Authority Trans-Hudson (PATH) rapid transit system.

Costs of development and operation are met through bond issuances and revenues generated by the facilities themselves. The Port Authority seeks to encourage commerce in the Port District through renovation and improvement of its present facilities and the development of pioneer projects, most recently the Export Trading Company and Teleport, a worldwide satellite communcations system.

Statistical Series:

Air Traffic, Metropolitan Region: Monthly summaries.

Power Authority of the State of New York

10 Columbus Circle
New York, New York 10019
John S. Dyson, Chairman

Contact: Cliff Spieler, Vice President, Public Relations
(212)397-6225
Stephen Shoenholz, Director of Public Information (212)397-6226

The New York Power Authority finances, builds, and operates electric generating and transmission facilities for purposes specified by the Governor and Legislature.

Power Authority electricity is sold to: State municipal electric systems and rural cooperatives; private utilities for non-profit resale; certain industries; and governmental customers. Some hydroelectric power is sold out-of-State.

The nation's largest non-federal public power organization, the Power Authority operates hydroelectric generating facilities throughout the State, plus a pumped-storage hydroelectric project, nuclear plants, a conventional plant, and over 1,000 miles of transmission lines. Projects are financed through the sale of bonds to private investors which are repaid using revenues from operation.

Project Finance Agency

3 Park Avenue
New York, New York 10016

Contact: Leila Zogby, Public Information Officer (212)686-9700

The New York State Project Finance Agency (PFA) was created in February, 1975, as a single purpose agency to provide long-term financing not otherwise available to the New York State Urban Development Corporation (UDC) in order to assist in the completion of UDC projects, to provide for the orderly marketing of obligations to finance such completion, and to provide for the orderly payment of UDC debt service. An Annual Report is published every April 29th.

Public Service, Department of

Empire State Plaza
Agency Building Three
Albany, New York 12223
Paul L. Gioia, Chairman

Contact: Daniel F. Rotchford, Chief, Public Service
Accounting Systems Section (518)474-2505

The Department of Public Service is the staff arm of the Public Service Commission, which is responsible for regulating rates and services of the public utility companies subject to its jurisdiction. The Commission's primary objective is to assure the consumer safe and adequate service at just and reasonable rates, consistent with energy conservation and environmental objectives.

The Commission has regulatory responsibilities over the rates and services of: electric and steam corporations; telephone, telegraph, and radio-telephone corporations; gas corporations; and water corporations (other than municipally operated). In addition, the Commission has jurisdiction over the siting of major electric and gas transmission lines and the safety of natural gas facilities and liquid petroleum pipelines. The Commission also administers the Home Energy Fair Practices Act (HEFPA), an act providing strong, new rights and safeguards for consumers.

The Chairman of the Public Service Commission is the Chief Executive of the Department of Public Service. The staff of the Department consists of accountants, engineers, lawyers, environmental experts, consumer services representatives, other professionals, and clerical support people. Though the staff is under the general supervision of the Chairman, it operates as an independent party in proceedings before the Commission.

Statistical Series:

Financial Statistics of the Major Privately Owned Utilities in New York State: Operating and financial data on Class A and B utilities such as composite and individual balance sheets; income statements; changes in financial position; plant and revenue information; bill data; rates of return on plant and equity and interest coverage; narrative of changes in the utility industry.
Frequency: Annually
Area covered: New York State
Available for current 5-year period

Regulatory Activities: Statistics on rate cases, electric and gas supply, telephone and water service, conservation plans, research and development activities.

Quality of Care for the Mentally Disabled, Commission on

99 Washington Avenue, Suite 730
Albany, New York 12210
Clarence J. Sundram, Chairman

Contact: Gary W. Masline, Executive Assistant and
Public Information Officer (518)473-7538

The Commission on Quality of Care for the Mentally Disabled was created by Chapter 655 of the Laws of 1977. The responsibilities of the Commission include: investigating complaints, including allegations of patient abuse or mistreatment in State-operated and State-licensed mental hygiene facilities; receiving reports of all deaths of patients and determining whether a death warrants investigation; conducting policy, program, and cost-effectiveness studies to advise the Governor and the Legislature; providing periodic orientation, training and informational programs to assist the Boards of Visitors of State psychiatric centers; and administering the State's protection and advocacy program for the developmentally disabled.

Within the Commission are two advisory bodies, each comprised of fifteen members appointed by the Governor. The Mental Hygiene Medical Review Board consists of medical and psychiatric specialists who review deaths at mental hygiene facilities. The Board of Visitors Advisory Council includes members of Boards of Visitors throughout the State, at least seven of whom are relatives of patients or former patients, and assists the Commission in planning and policy making, as well as serving as a liaison between the Commission and Boards of Visitors.

The Commission oversees programs operated or licensed by the Office of Mental Health, the Office of Mental Retardation and Developmental Disabilities, the Division of Alcoholism and Alcohol Abuse, and the Division of Substance Abuse Services. Commission reports include descriptiveand analytic data on centers, programs, care, individual cases, and specific disabilities.

Racing and Wagering Board

2 World Trade Center
New York, New York 10047
John Van Lindt, Chairman

Contact: Kenneth Beh, Director of Public Relations
(212)488-4040

The New York State Racing and Wagering Board has general jurisdiction over all horse racing activities and all pari-mutuel betting activities, both on-track and off-track, in the State, and over the corporations, associations, and persons engaged therein. The Board also regulates the conduct of bingo and games of chance by authorized non-profit organizations.

The Board consists of three members appointed for six-year terms by the Governor, with the advice and consent of the Senate. Not more than two of the members shall belong to the same political party. The Governor designates one of the members as Chairman of the Board, who is the chief executive officer.

Notwithstanding the transfer of functions from the State Racing Commission, the State Harness Racing Commission and the State Quarter Horse Racing Commission, those commissions continue to exist in order to render advice to the Board. They also constitute membership to the following New York State breeding funds: the Racing Commission; the Harness Racing Commission; the Thoroughbred Breeding and Development Fund Corporation; the Agriculture and New York State Breeding and Developmemt Fund; and the Quarterhorse Breeding and Development Fund Corporation.

The Racing and Wagering Board publishes an Annual Report. Other special reports are occasionally made to the Governor and Legislature, but not on a regular basis. All statistical material from racetracks, off-track betting, bingo, and games of chance is published in the Annual Report.

Regional Authorities

see Central New York Regional Transportation Authority; Metropolitan Transportation Authority; Niagara Frontier Transportation Authority; Port Authority of New York and New Jersey; and St. Lawrence-Eastern Ontario Commission

St. Lawrence-Eastern Ontario Commission

317 Washington Street
Watertown, New York 13601
Daniel J. Palm, Executive Director

Contact: Laurie Beckstead, Secretary to the Executive Director
(315)788-0450

The Commission was established in the Executive Department for the purpose of insuring optimal conservation, protection, preservation, development and use of the unique, scenic, aesthetic, historic, ecological, recreational, economic, and natural resources of the St. Lawrence River - Eastern Lake Ontario area.

Current program efforts emphasize technical assistance to units of local government in: the preparation and implementation of comprehensive land use management programs; the preparation of community facilities development plans; and the economic development activities related to the tourism sector of the economy. The latter aspect focuses on the Seaway Trail. Commission programming is supportive of the State's coastal management program and Urban Cultural Park program. Additionally, the Commission has review power over proposed development projects in its service area.

Social Services, Department of

40 North Pearl Street
Albany, New York 12243
Cesar A. Perales, Commissioner

Contact: M. Elizabeth Lyon, Director of Communications (518)474-9516

The New York State Department of Social Services supervises and sets standards for a wide variety of locally administered public and private welfare and health programs which serve men, women, and children in economic or social need. The Department's responsibilities include periodic inspections, reviews, and studies of the activities of local agencies that serve the handicappped, the aged, children, and other groups and individuals.

The Department's principal programs provide income maintenance for needy persons, medical assistance, and social services. Through the Department-administered Food Stamp Program, coupons are available to public assistance recipients and to persons whose low income qualifies them for such aid to assist them in the purchase of food.

State, Department of

162 Washington Avenue
Albany, New York 12231
Gail S. Shaffer, Secretary of State

Contact: Aldisa Gunnell, Senior Budgeting Analyst (518)473-3674

The Department of State is the general recording agency of New York State. Responsibilities include being the depository of the original State land records, and filing certificates of assumed names and certificates of incorporation (other than that of banking, insurance, and educational institutions). The Department also commissions notaries public; regulates and licenses real estate brokers and salespersons, barbers, cosmetologists and hairdressers, private investigators, billiard rooms, steamship ticket agents, hearing aid dealers, apartment referral agents, those involved in the renovation and sale of articles of bedding and upholstered furniture, and motor vehicle manufacturers. In addition, the Department registers trademarks and service marks, trading stamp companies and games of chance utilized in promoting retail sales (other than the New York State Lottery).

The Department serves as a clearing house for information about the kinds of Federal, State and private assistance available to local governments. In this regard, the Secretary of State contracts and cooperates with the Federal government in administering grants to the State and municipalities, metropolitan regional planning agencies, Community Action Agencies, and Indian tribal councils. The Department of State administers and provides technical assistance for the following grant programs: the Low Income Home Energy Assistance Program; the Community Services Block Grant; the Coastal Energy Impact Program; the Coastal Zone Management Program; the Appalachian Regional Commission; and Department of Energy Weatherization Grants.

Through the Office of Fire Prevention and Control, the Department administers the Fire Mobilization and Mutual Aid Plan, the Statewide Fire Incident Reporting System, and funds available to localities to help them implement the Uniform Fire Prevention and Building Code.

State Police, Division of

Building 22, State Campus
Albany, New York 12226
Donald O. Chesworth, Jr., Superintendent

Contact: Frederick D. Thumhart, Deputy Chief Inspector, Planning and Research (518)457-6712

The Division of State Police, established by Executive Law in 1917, presently numbers 3,400 sworn-in police officers and 600 civilian employees. Their duty is to provide effective, cost-efficient police service to the people of the State of New York. They strive to preserve peace, enforce laws, protect life and property, detect and prevent crime, and arrest violators.

The Division is headed by a Superintendent appointed by the Governor. For the purpose of administration, the State is divided into ten geographical areas, called Troops, each Troop being further divided into Zones, and then Stations. The Trooper is the fundamental officer who serves the public directly. The uniformed force works together with the Division's non-uniformed Bureau of Criminal Investigation (BCI), as well as other State, local and Federal law enforcement agencies.

Specialized support groups within the Division include the Organized Crime Task Force, the Violent Felony Warrant Squad, the Aviation Unit, the Scuba Diving Detail, the Division Dogs, the State Police Crime Laboratories, the State Police Academy, and the Communications Section.

The New York Statewide Police Information System serves the entire criminal justice community by providing timely police information from the Division's computer which, in addition to its own comprehensive files, offers access to the files of the New York State Department of Motor Vehicles, the National Crime Information Center, the Division of Criminal Justice Services, and the National Law Enforcement Telecommunications System. Finally, the Pistol Permit Section has served since 1936 as a Statewide repository of information on licenses and registered firearms in New York State.

State University of New York

State University Plaza
Albany, New York 12246
Clifton R. Wharton, Jr., Chancellor

Contact: Tommy Annas, Assistant Vice Chancellor, Institutional Research (518)473-1830

The State University's 64 colleges and university centers, including 30 community colleges, now comprise one of the nation's leading universities. The University offers higher education in the liberal arts and sciences, the fine arts, applied arts and technologies, and specialized and graduate training in such fields as medicine, law, optometry, education, engineering, library studies, maritime studies, agriculture, forestry, industrial and labor relations, and public affairs.

Total enrollment at the University in the fall of 1982 was 378,170 full- and part-time students.

The State University maintains comprehensive statistics on its operations through the Office of Institutional Research, which is a research service agency to the several Central Staff offices, to the institutions, and to those external agencies seeking information about the State University of New York.

Substance Abuse Services, Division of

Executive Park South
Albany, New York 12203
Julio A. Martinez, Director

Contact: Lynn Ansara, Assistant Director for Communications (518)457-6040

The Division of Substance Abuse Services is responsible for administering the State's comprehensive program for the treatment and rehabilitation of substance dependent persons and for providing services to those at risk of starting substance abuse.

The Division regulates and funds approximately 400 local community-based programs which provide a broad range of services including: outpatient, residential and day-service drug-free; methadone maintenance and methadone-to-abstinence; and school-based prevention. The Division monitors these programs to guarantee quality care and to ensure compliance with State and Federal contracts and regulations.

In addition, the agency is responsible for: monitoring substance abuse trends and levels in the State; promoting public awareness of substance abuse and citizen involvement in education and prevention efforts; pursuing State, Federal and other sources of funding for treatment and prevention services; providing education for those dealing with substance abusers; and researching the physical and psychological effects of substance abuse.

The Division has been designated as the single State agency to coordinate State-Federal relations on substance abuse activities, including the funding of various programs in the State.

With the advice of the Advisory Council on Substance Abuse, the Division formulates a comprehensive plan for the control of the substance abuse problem and the delivery of prevention and treatment services.

Taxation and Finance, Department of

State Office Campus
Albany, New York 12227
Roderick G. W. Chu, Commissioner

Contact: William Wilson, Director of Tax Research and Statistics (518)457-4357

The Department of Taxation and Finance collects most of the taxes imposed by the State. It has basic collection data on these taxes and additional statistical data, in annual surveys and other studies, for several of the major taxes obtained.

The most productive single source of State revenue is the personal income tax. The Department annually conducts a large sample survey of returns to obtain information on components of income and deductions. Other taxes, for which surveys are conducted, or studies are made, are corporation taxes, bank taxes, the unincorporated business tax, and the estate tax.

Statistical Series:

All Tax Collections: Net collections (after refunds) from taxes levied on alcoholic beverages, cigarettes, corporation franchises, estates, highway use, motor fuel, personal income, sales and use, unincorporated businesses and others.

Albany, New York 12201
Gerald Cummins, Chairman
James A. Martin, Executive Director

Contact: David F. Alexander, Director of Public Information (518)449-1750

The New York State Thruway Authority operates a modern 559-mile toll expressway. Completed in 1960, the Thruway is the longest toll superhighway in the United States, providing a vital transportation link for most of New York's major cities, its neighboring states, and Canada.

The Authority currently receives no legislative appropriations to meet the cost of its operations. It was built from proceeds raised from the sale of bonds to private investors, and annual toll revenues pay all operating and maintenance expenses for both the toll and toll-free sections, including the cost of State Police Troop T (Thruway patrol).

Passenger car tolls are about 2.4 cents per mile for travel on the Thruway's Ticket System, between the Woodbury Barrier at Harriman and Williamsville near Buffalo, and on both the Berkshire and Erie Sections. Truck tolls, based on axle count, range up to 8.6 cents per mile for tractor-trailers and to 15.4 cents per mile for tandem units.

Fixed tolls are charged outside the Ticket System. One-way tolls are in effect at the major bridges: Tappan Zee and Grand Island. Other toll barriers are located at New Rochelle, Yonkers, Spring Valley, Harriman and Niagara Section (two barriers). Truck and bus tolls are higher at these barriers.

Transportation, Department of

State Office Campus
Albany, New York 12232
James L. Larocca, Commissioner

Contact: Ronald W. Tweedie, Director, Transportation Data Services Bureau (518)457-1965

The Department of Transportation is charged with the coordination and development of comprehensive, balanced transportation policies and plans for New York State. It is concerned with the development and operation of such transportation facilities as highways, mass transit systems, marine and aviation facilities, and the State's waterways.

To help plan its transportation development and maintenance program, the Department maintains basic inventories of highway facilities and usage, and selected information on air, rail, bus, and waterway facilities and travel. With respect to highway information, the Department annually updates its inventory of traffic volume and physical condition data for the 16,000 miles of State highway system.

Statistical Series:

Bridge Records: Inventory of bridges by location, amount of traffic, design load, posted load limits, etc.
Available from: Structures Design and Construction Division
Frequency: Annually
Area covered: New York State
Published: 1965 to present

Highways—Financial Inventory: Annual data on Federal expenditures and receipts and expenditures by New York State, for all highways in the State.
In: Highway Statistics, published by United States Department of Transportation
Frequency: Annually
Area covered: New York State
Published: 1950 to present

Highway Mileage Report for New York State, City and Village Street Inventory: Number of miles of streets in each village and city, with county totals. Town and County Road Inventory: Number of miles of town and county highways in each town in the State, aggregated by county.
Frequency: Annually
Areas covered: cities, towns, villages and counties of New York State
Published: 1965 to present

Highway Sufficiency Rating: Physical characteristics of each segment of the State highway system, such as length, surface, capacity; "sufficiency" ratings computed to indicate relative adequacy in terms of capacity and physical condition.
Frequency: Biennially
Areas covered: counties of New York State
Published: 1955 to present

Local Highway Finance: Highway and highway-related income and expenditures of all local governments, data aggregated by type of municipality and population class.
Available from: Office of Management and Finance
Frequency: Annually
Areas covered: New York State and municipalities
Published: 1950 to present

Traffic Volume Report: Annual average daily traffic and design hour (i.e. traffic volume used in connection with highway design) for each segment of State highway; data based on periodic hourly traffic counts, adjusted for seasonality.
Frequency: Annually
Area covered: New York State
Published: 1961 to present

Veterans' Affairs, Division of

194 Washington Avenue
Albany, New York 12210
Nicholas F. Sallese, Director

Contact: William J. Dolan, Director of Public Relations (518)474-3752

Through financial support of county veterans' offices and through its full-time field offices the Division provides advocacy services and technical assistance to veterans and military personnel and their families to ensure that full benefits are received. It also issues annuity payments to eligible blind veterans.

Waterfront Commission of New York Harbor

42 Broadway
New York, New York 10004
Leonard Newman, Executive Director

Contact: Jerome J. Klied, Deputy Executive Director (212)742-9280

The Waterfront Commission of New York Harbor was created in 1953, by a Compact between the States of New York and New Jersey, to improve waterfront labor conditions and to eliminate criminal and corrupt practices in the Port of New York-New Jersey. In order to accomplish and maintain these reforms, the Commission investigates waterfront practices and criminal activity, registers and licenses all waterfront personnel and firms, balances dock worker forces with the needs of steamship and freight-moving companies, oversees hiring of pier workers, offers workers reliable information on employment opportunities, and prohibits criminal persons from holding positions in pier labor unions. In addition, the Commission has police authority in both States to enforce its regulations and to bring violators to justice; and is authorized to seek the data and assistance of other agencies in both States and the Federal government in carrying out its functions.

The agency is headed by two Commissioners. There is one appointed in each State by the Governor, with the consent of the State Senate, for a three-year term. Seven divisions carry out its functions: Executive, Law, Licensing, Law Enforcement, Employment Information Centers, Audit and Control, and Administration. The Waterfront Commission receives its revenues from authorized assessments on registered waterfront industries and employers.

The Commission publishes an Annual Report, available from the above address, which highlights agency progress and achievements. It also presents statistics on license applications and revocations, monthly hirings of pier workers, agency finances, arrests and court proceedings, registrations, and removal of workers from registration lists.

Workers' Compensation Board

Two World Trade Center
New York, New York 10047
Robert Steingut, Chairman

Contact: Granville W. Lee, Director of Research and Statistics (212)488-2065

The Workers' Compensation Board has responsibility for administering the State's workers' compensation and disability benefits programs, as well as the Volunteer Firemen's Benefit Law and the Worker's Compensation Act for Civil Defense Volunteers. Statistics are maintained on the operations of these programs, including statistics on injuries pertaining to the job (workers' compensation) and off-the-job disabilities suffered by employees (disability benefits program). The primary types of workers' compensation data collected relate to the number and types of accidents, the nature and extent of disabilities, and the amount of benefits. In addition, there are details on the number of employers and employees covered, and the amount of benefits paid for non-job-connected disabilities.

Statistical Series:

Accidents Reported: Job-related accidents reported to the Board, data for volunteer firemen included.
In: Summary of Board Activities
Frequency: Annually
Area covered: Workers' Compensation Districts
Published: 1914 to present

Cases Assembled: New cases assembled and old cases re-opened, data for volunteer firemen included
In: Summary of Board Activities
Frequency: Annually
Area covered: Workers' Compensation Districts
Published: 1922 to present

Compensated Cases Closed: Number and cost; type of accident; nature of injury; extent of disability; part of body injured; industry; and occupation, age, sex and earnings of injured workers. (Some data from 1945 only.)
Frequency: Annually
Area covered: New York State
Published: 1916 to present

Disability Benefits: Off-the-job disabilities of employees, including number of initial indemnity benefit claims allowed, amount and duration of benefits, average number of employees covered, amount of covered payrolls, claim rates, payments per covered employee, average payment per claim, and amount of medical, hospital and surgical benefits.
In: Claim Statistics, Claims Closed under the Special Funds
Area covered: New York State
Published: 1951 to present

Youth, Division for

84 Holland Avenue
Albany, New York 12208
Leonard G. Dunston, Director

Contact: Paul Elisha, Director of Public Relations (518)473-7793

The Division for Youth was created in 1960 through the reconstitution of the State Youth Commission (which was originally established in 1945). The Division operates residential and day service programs for troubled youth including: counseling, education, and vocational instruction; and sponsoring community-run programs for youth, recreation, and delinquency prevention, including the Runaway/Homeless Youth Program, Special Delinquency Prevention Program and Youth Development/Delinquency Prevention Program.

Prevention and rehabilitation efforts are joint ventures with local and county government, supported by Federal, State, County and Municipal funds, as well as private contributions. The Division provides technical and financial assistance to agencies involved in community youth programs, and monitors activities of voluntary child-care and detention agencies in New York State (in cooperation with the State Department of Social Services).

The Division's Bureau of Program Analysis & Information Services (PAIS) prepares a variety of regular and statistical reports on clientele and program data, including resource projections and court placement trend analyses.

Statistical Series:

Clientele and Program Data: Detention and residential program admissions, client characteristics and placement statistics, delinquency prevention and care and maintenance costs.
In: Annual Statistical Report
Frequency: Annually
Area covered: New York State
Published: 1978 to present

Program Analysis and Information Services Reports: Special reports on topics such as social and demographic characteristics of clients, career patterns, program characteristics, placement trends, impact of new legislation and client movement patterns.
Area covered: New York State
Published: 1979 to present
